Racial equity report on housing and opportunity

Project name: 50-02 Queens Boulevard Rezoning

Contact: Stuart Sipos, 5002 Woodside Development LLC; 50.02queensblvd@gmail.com

Prepared by: Jason Diaz, VHB Date: 09/22/2025

Note: Racial equity reports are prepared prior to the certification of the subject application by the City Planning Commission (CPC). A description of the final adopted application is available in the associated CPC report.

APPLICATION TYPE

Applications that meet one or more of the following criteria are subject to the racial equity report requirement. Please select all relevant criteria:

☐ Text amendment to the zoning resolution affecting 5 or more community districts

☐ Historic district designation affecting 4 or more city blocks

☐ Seeking a change to the use regulations or permitted floor area for any use in a manufacturing district where a building in the project contains at least 100,000 square feet of floor area

Applications submitted pursuant to subdivision a of section 197-c of the charter that seek approval for:

☐ Acquisition or disposition of land to facilitate a non-residential project containing at least 50,000 square feet of floor area

☐ Acquisition or disposition of land to facilitate a residential project, other than a residential project consisting of a building to be preserved, provided that such equity report shall only be required related to a building in such project containing at least 50,000 square feet of floor area

☑ An increase in permitted residential floor area of at least 50,000 square feet

☐ An increase in permitted non-residential floor area of at least 200,000 square feet

☐ A decrease in permitted floor area or number of housing units on at least four contiguous city blocks

If the application meets the above criteria but the proposed development does not, please explain the difference between the proposed development and the application.

Section 1: Executive summary

Provide a short, plain-language summary of the subsequent sections of the racial equity report, including major project elements and key neighborhood and demographic conditions.

The Proposed Project located at 50-02 Queens Boulevard (Queens Community District (CD) 2) in the Woodside neighborhood will contribute toward the City's goals and strategies to affirmatively further fair housing and promote equitable opportunity by creating more housing choice for New Yorkers.

The Proposed Project is for mixed-income, mixed-use project containing residential, commercial, and community facility uses with a total of 380,306 gross square feet (325,321 zoning square feet). It will include approximately 320 units with 64 units affordable under MIH Option 1 at an average of 60% AMI. The income of households occupying the proposed affordable residential units at 60% AMI is estimated to be within the range of $43,480 to $155,300 and the monthly rent would be between $1,087 and $3,495. The neighborhood is diverse compared to others in the City (39% of the population is Asian in the PUMA compared to 16% in the City). The neighborhood is in the intermediate displacement risk category with constituent factors like population vulnerability in the lower category but housing conditions and market pressure risk in intermediate and highest categories, respectively. As the population has grown in the neighborhood, the share of Black, Hispanic, Asian and White residents has also increased. Based on 2020 census data, 3% of the population is Black, 28% is Hispanic, 39% is Asian, and 26% is White. Overall median household income increased between 2008-2012 ($65,406) and 2017-2021 ($78,175) by 20 percent, however the income gains have been smaller for Asian and Hispanic residents compared with Black and White residents. This is consistent with the fact that the greatest share of Asian and Hispanic residents by AMI band is 16% and 17%, respectively, in the extremely low-income category (0-30 percent AMI). The median household income for the Hispanic population is $67,091; $70,902 for the Asian population; and $93,041 for the White population. Note that the median household income for the Black population is not statistically reliable since the sample size is too small and was therefore, excluded. 18,819 new residential units have been constructed since 2010. Since 2014, 998 income-restricted units were preserved and 2,284 new income-restricted units were constructed, for a total of 3,282 income-restricted units.

The Proposed Project would further Goal 2 of Where We Live by producing new income-restricted housing units in a transit-accessible neighborhood and introducing jobs through commercial and community facility spaces. The site is also accessible to important resources such as parks. The Proposed Project would help create more housing options for low-income families in a relatively moderate-income neighborhood.

Section 2: Project specific information

Before completing Section 2, please review the racial equity report submission guide.

2.1 Description of residential space and affordability

2.1.1 Reporting residential floor area

Total residential zoning square feet: 300,678

2.1.2 Profile of anticipated residential affordability

Report the number of anticipated housing units. Describe the expected rents or prices for all proposed housing units.

Income Restriction	Units		Anticipated Affordability				
			AMI Band	Rent (2025)*		Eligible Income (2025) **	
	#	%		Studio	2-bedroom	1-person HH	4-person HH
Very Low Income	32	10%	40	$1,134	$1,458	$45,360	$64,800
Low Income	32	10%	80	$2,268	$2,916	$90,720	$129,600
Moderate Income	16	5%	100	$2,835	$3,645	$113,400	$162,000
Not Income Restricted	240	75%	N/A	$2,090	$3,440	$83,600	$137,600
Total	320	100%					

*Rents are based on unit size. Rents shown are illustrative (based on [2025] AMI, rounded to the nearest $10) and will change. Final rents will be determined based on the HUD Income Limits in place at time of project construction.

**Qualifying incomes are based on household size. Incomes shown are illustrative (based on [2025] AMI, rounded to the nearest $100) and will change. Final qualifying incomes will be determined by the HUD Income Limits in place at time of project marketing.

Provide additional details below as needed. If applicable, report the proposed Mandatory Inclusionary Housing option. If applicable, describe any affordable housing financing programs.

The exact unit and affordability mix that the project would use are not yet known, and the proposed affordable unit mix, incomes, and rents that are shown here are for illustrative purposes only. Therefore, this analysis evaluates 64 affordable units under MIH Option 1 (10% of units at 40% AMI and 10% of units at 80% AMI). Rents for the proposed affordable units are expected to range from approximately $1,134 to $3,645. The average income overall of households occupying the proposed affordable residential units is estimated to be in the range of $45,360 to $162,000. The table above shows example of rents for studio to two-bedroom units and incomes for 1- to 4-person households that could be associated with the Proposed Project. The expected rent is calculated for the range of HUD Income Limits (HUDIL) by family size based off of an assumption that 30% of income is spent on rent. The estimated incomes and rents would be different if a different distribution across AMI bands was assumed.

(2.1.2 continued)

2.2 Description of non-residential space and jobs

Report building area and job sector details for specific non-residential uses. Specific non-residential uses are those where a space is being built for the use of a specific tenant or business. This might be an anchor tenant that is only occupying a portion of the proposed space, or it might be that the applicant is seeking the proposed action to build for their own use.

If the proposal includes non-residential space but no specific tenants or businesses, do not complete this section. General non-residential space can be discussed in Section 4.

2.2.1 Reporting non-residential floor area

Total non-residential zoning square feet: 24,643

Non-residential zoning square feet to be occupied by unknown tenants: 24,643

Non-residential zoning square feet to be occupied by known tenants:

2.2.2 Profile of anticipated new jobs for non-residential space with a known tenant

If the application proposes specific non-residential uses, report the projected number of permanent jobs in each sector. Specific non-residential uses are those where there is a known tenant for the space.

In cases where there is not a known tenant, do not report the projected number of jobs or the characteristics of the potential sectors. Without a specific tenant/business, future industry sectors cannot be known and therefore all wage and workforce reporting would be speculative.

Sector (name and NAICS code)	Job count
Total	0

For each sector, use most recent available data to describe the educational attainment and racial/ethnic composition of the workforce and median wages for those sectors in New York City.

(2.2.2 continued)

2.3 Estimating construction jobs

Report anticipated construction jobs in both person-years and average yearly workers for each development site.

Development site	Person-years	Average yearly workers
50-02 Queens Boulevard	270	147
Totals	270	147

Section 3: Community Profile Summary

The community profile summary provides a graphic snapshot of household, housing, and neighborhood indicators from the Equitable Development Data Explorer for the relevant Community District[1]. Data tables and sources can be found in the full community profile (Section 5 of this report.)

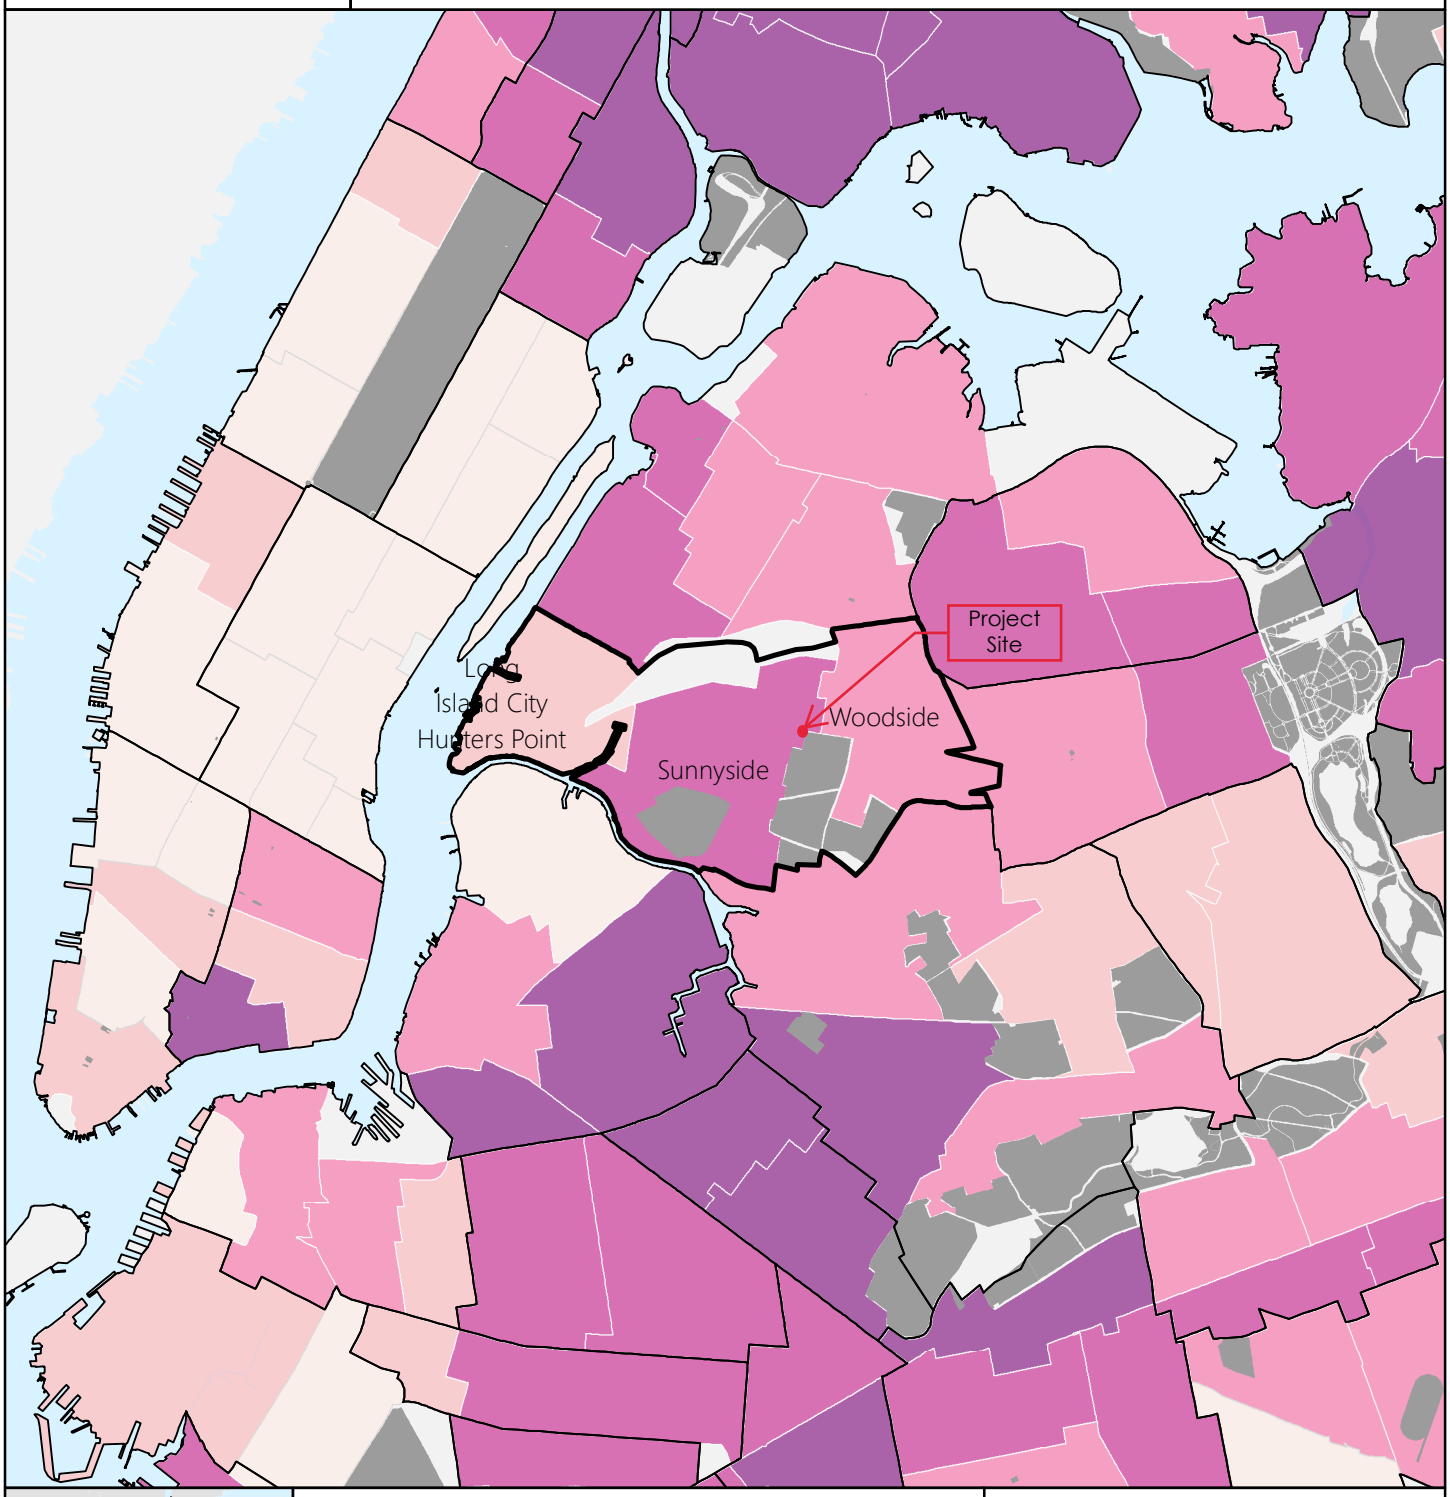

[1] The EDDE reports data by Public Use Microdata Areas (PUMA), statistical areas defined by the U.S. Census. PUMAs in New York City generally approximate Community Districts. Displaying the data at the PUMA scale enables data reporting broken down by race and ethnicity.

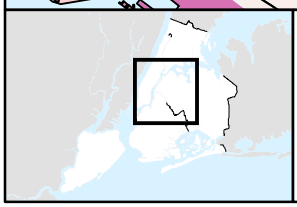

Long Island City, Sunnyside, & Woodside

PUMA 4402

The city's Displacement Risk Index (DRI) estimates comparative levels of residential displacement risk for New York City's neighborhoods. The DRI ranks neighborhoods from lowest to highest risk based on recent population characteristics, housing conditions, and market pressures.

There are five ranks with equal numbers of neighborhoods. For example, neighborhoods ranked "lowest" are among the 20% of NYC neighborhoods with the least intense displacement risk factors while neighborhoods ranked "highest" are among the 20% of neighborhoods with most intense displacement risk factors.

Displacement Risk

Demographic Conditions

Figure 1: Race & Ethnicity, 2020

Shows the share of area population by mutually exclusive race and Hispanic ethnicity. Compares the local area to the borough and city.

"In 2020, [percent] of the population in [area] identified as [race/ethnicity]."

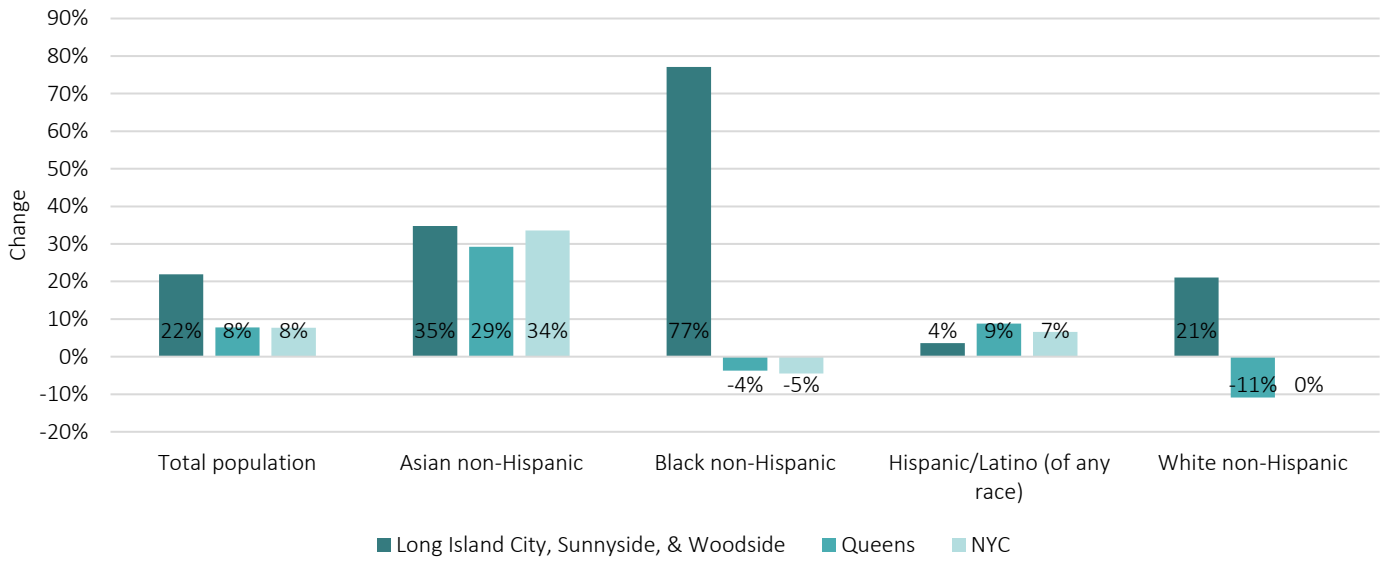

Source: Census 2020; Community Profile Table 1.01

Figure 2: Percent Change in Race & Ethnicity, 2010 to 2020

Shows the percent change of the area population by mutually exclusive race and Hispanic ethnicity. Compares the local area to the borough and city.

"From 2010 to 2020, the [race/ethnicity] population in [area] increased/decreased by [percent]."

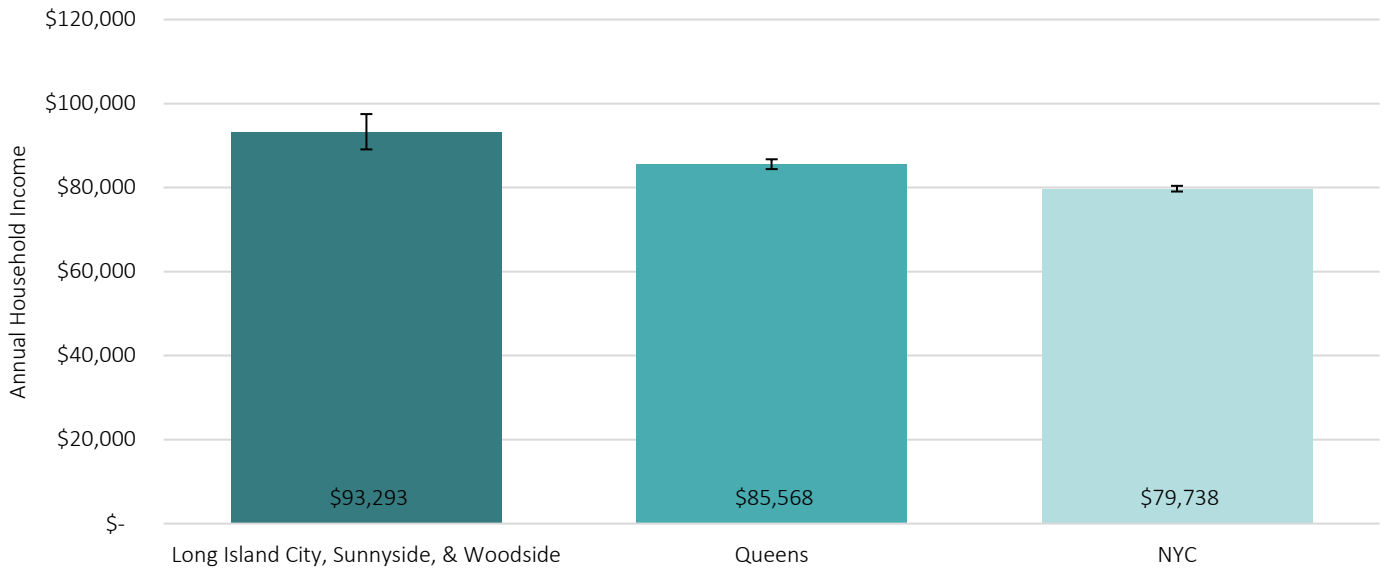

Source: Census 2010, 2020; Community Profile Table 1.01

Household Economic Security – Income

Figure 3: Median Household Income, 2019-2023 (Five-Year Estimate)

Shows the estimated median household income (in 2023 dollars) for the local area, borough, and city. Median means half of all households in the area make more than this amount and half make less. Compares the local area to the borough and city.

"For 2019-2023, the estimated median household income in [area] was [$]."

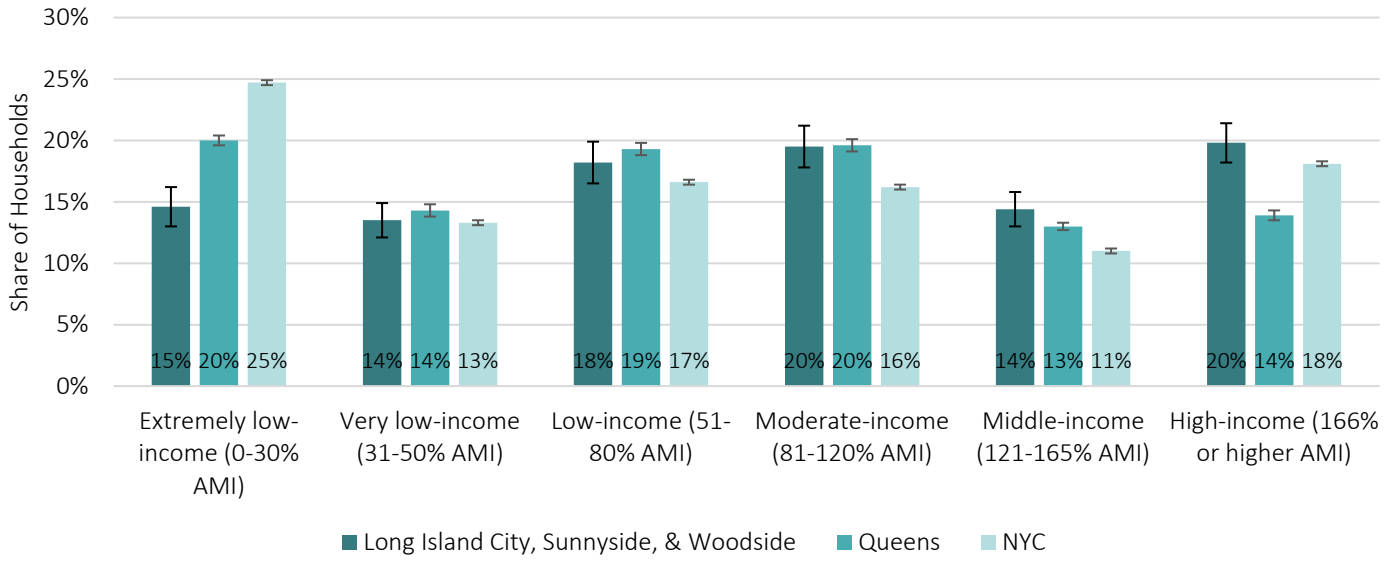

Source: American Community Survey 2019-2023; Community Profile Table 2.02

Figure 4: Share of Households in Each HUD AMI Band, 2019-2023 (Five-Year Estimate)

Shows the share of households within each 2021 U.S. Housing and Urban Development (HUD) Area Median Income (AMI) band. Compares the local area to the borough and city. U.S. Housing and Urban Development (HUD) Area Median Income (AMI) is based on rental prices.

"For 2019-2023, an estimated [percent] of households in [area] were in [HUD AMI band]."

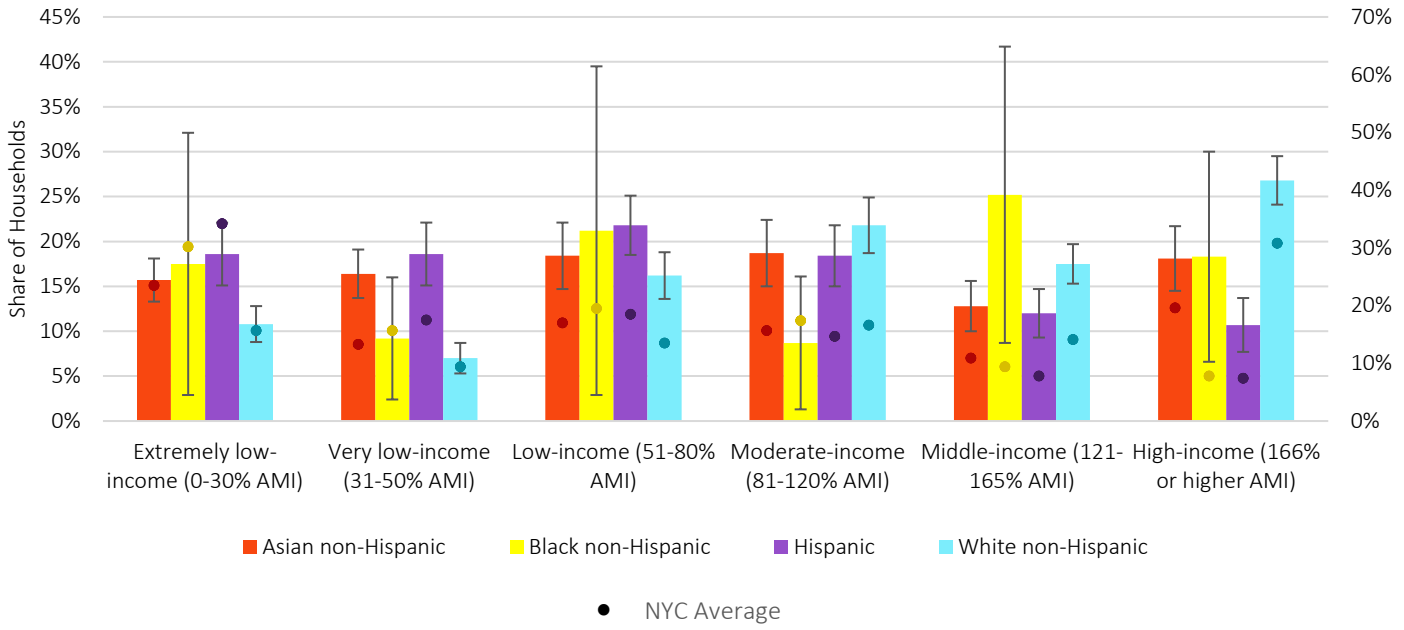

Source: American Community Survey 2019-2023; Community Profile Table 2.03

Figure 5: Share of Households in Each HUD AMI Band by Race & Ethnicity, 2019-2023 (Five-Year Estimate)

Shows the share of PUMA households within each 2021 U.S. Housing and Urban Development (HUD) Area Median Income (AMI) band, by mutually exclusive race & Hispanic ethnicity of householder. HUD AMI bands are used to determine eligibility for income-restricted housing.

"In the local area, an estimated [percent] of [race/ethnicity] households were in [HUD AMI band] in 2019-2023."

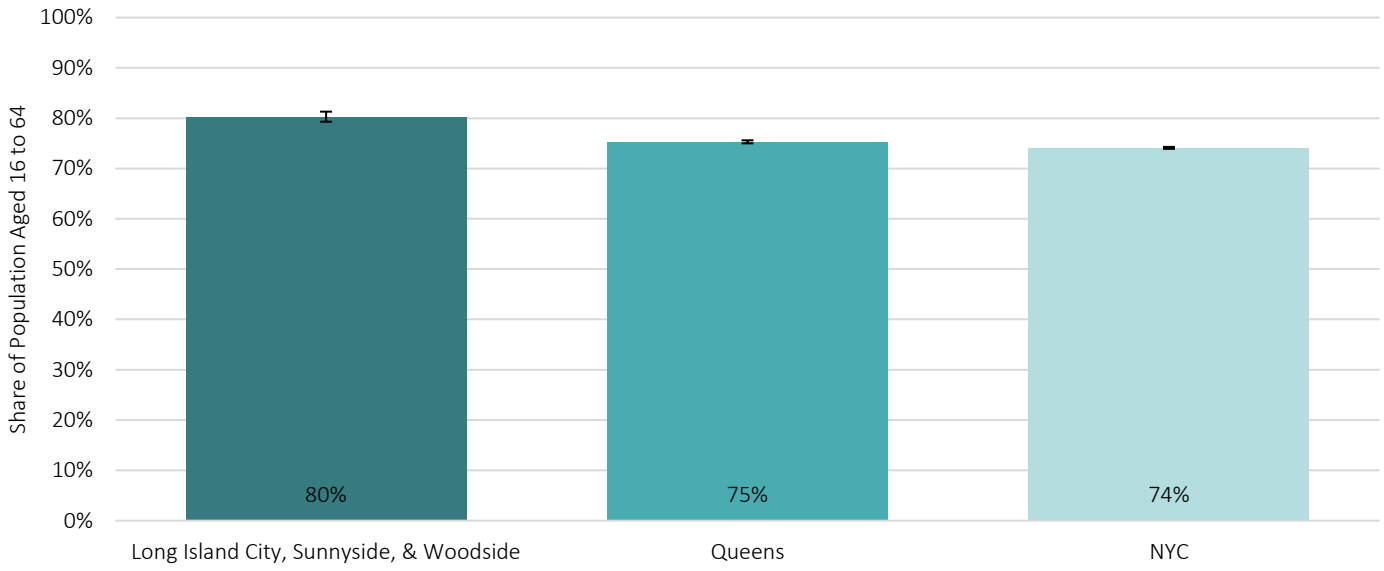

Source: American Community Survey 2019-2023; Community Profile Table 2.03

Household Economic Security – Jobs

Figure 6: Labor Force Participation, 2019-2023 (Five-Year Estimate)

Shows the share of the total population aged 16-64 who is employed or seeking work. Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] in [area] were employed or seeking work."

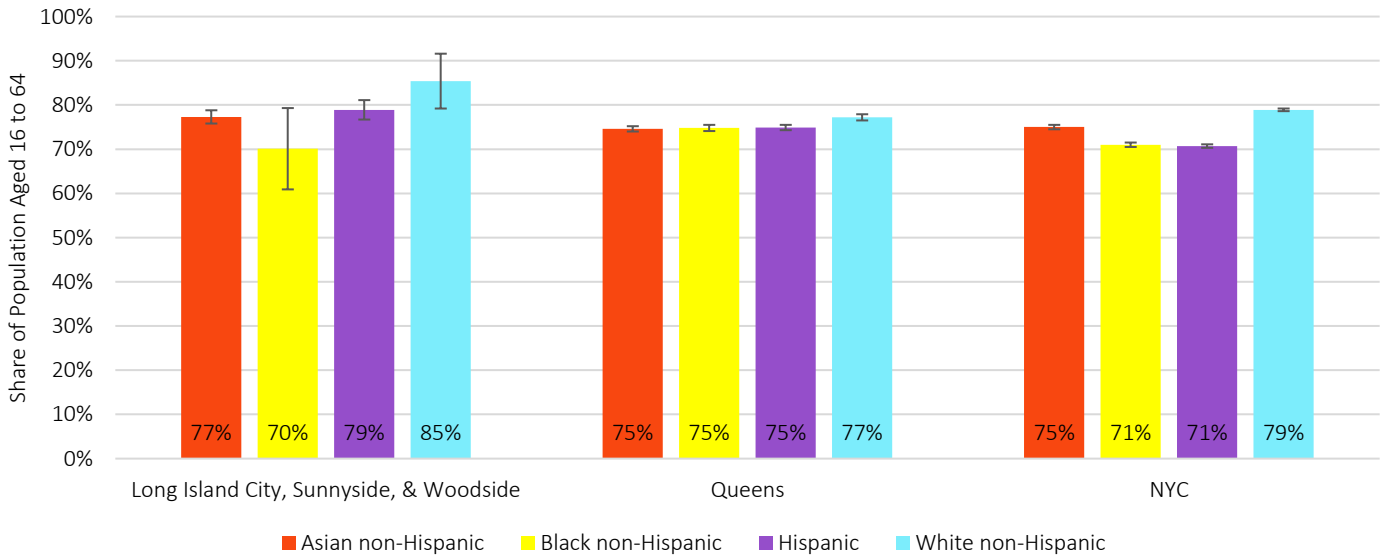

Source: American Community Survey 2019-2023; Community Profile Table 2.04

Figure 7: Labor Force Participation by Race & Ethnicity, 2019-2023 (Five-Year Estimate)

Shows the share of the total population aged 16-64 who is employed or seeking work, by mutually exclusive race & Hispanic ethnicity. Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] of [race/ethnicity] group in [area] were employed or seeking work."

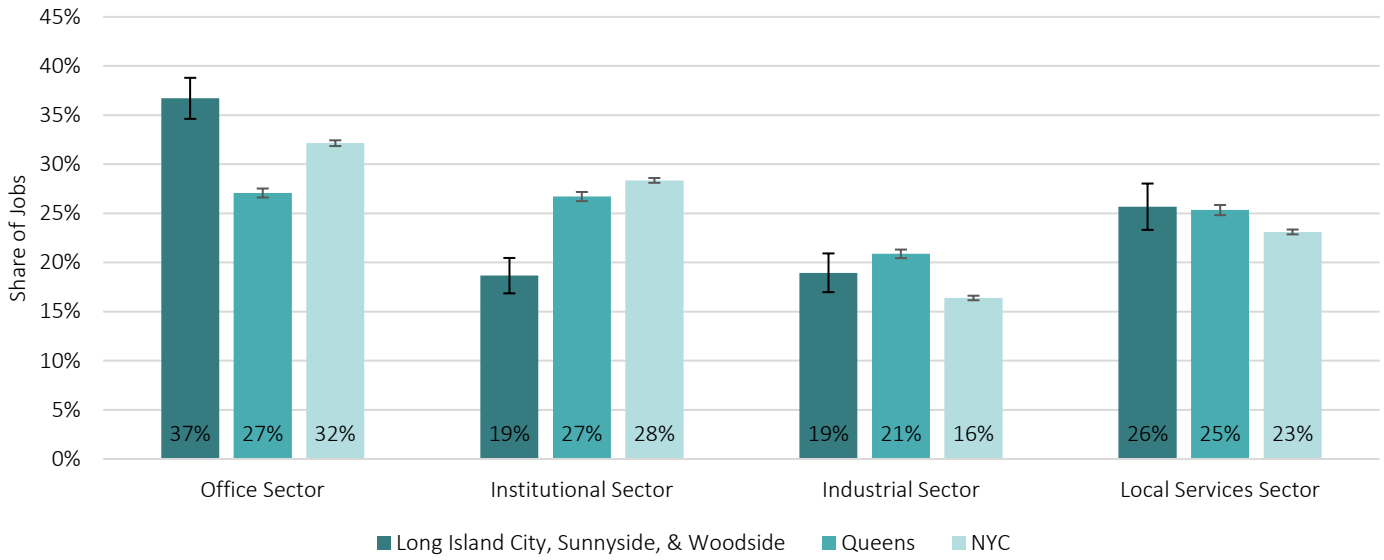

Source: American Community Survey 2019-2023; Community Profile Table 2.04

Figure 8: Share of Employed Residents by Business Sector[1], 2019-2023 (Five-Year Estimate)

Shows the share of workers who live in an area by the business sector in which they work. Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] of employed people in [area] worked in [business sector]."

Source: American Community Survey 2019-2023; Community Profile Table 2.06

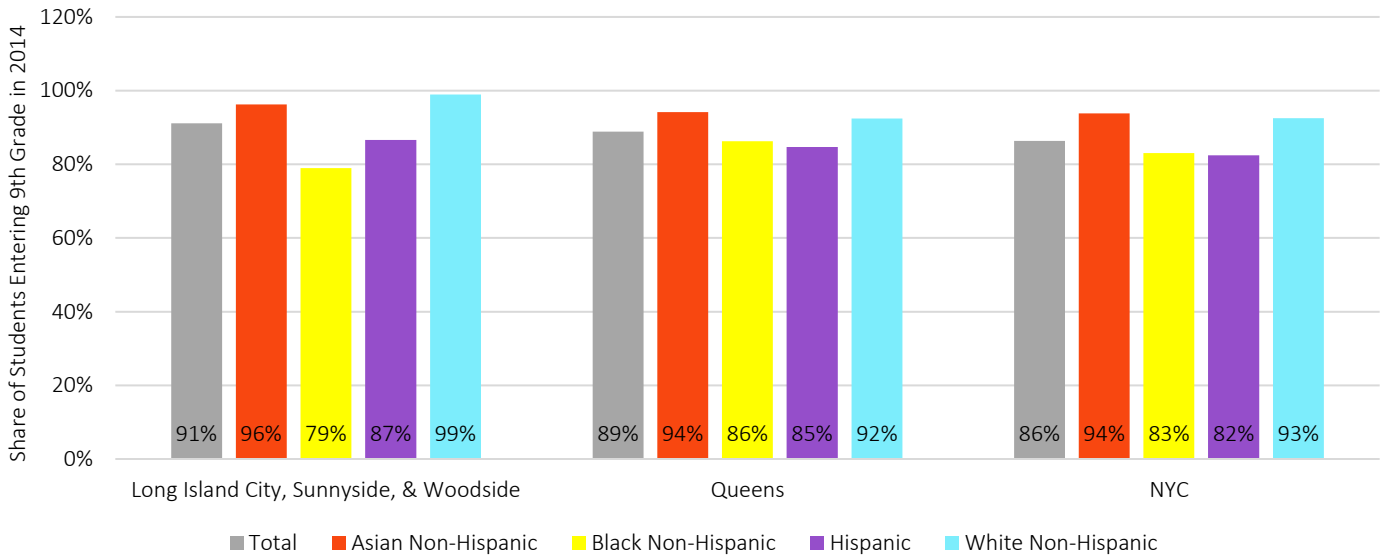

[1] Business sectors are shown as macro-sectors as defined by NYC Department of City Planning. Office sector includes professional, management, finance businesses, and others; institutional sector includes educational services and health care and social assistance; industrial sector includes construction, manufacturing, warehousing businesses, and others; local services sector includes retail, arts and entertainment, food service businesses, among others.

Education & Access to Transit

Figure 9: High School Graduation Rate, 2024

Shows the rate of students who entered 9th grade in 2020 and graduated by 2024. Shows the share of total students and share of students by mutually exclusive race and ethnicity groups. Compares the local area to the borough and city.

"The 2024 graduation rate for [race/ethnicity] group in [area] was [percent]."

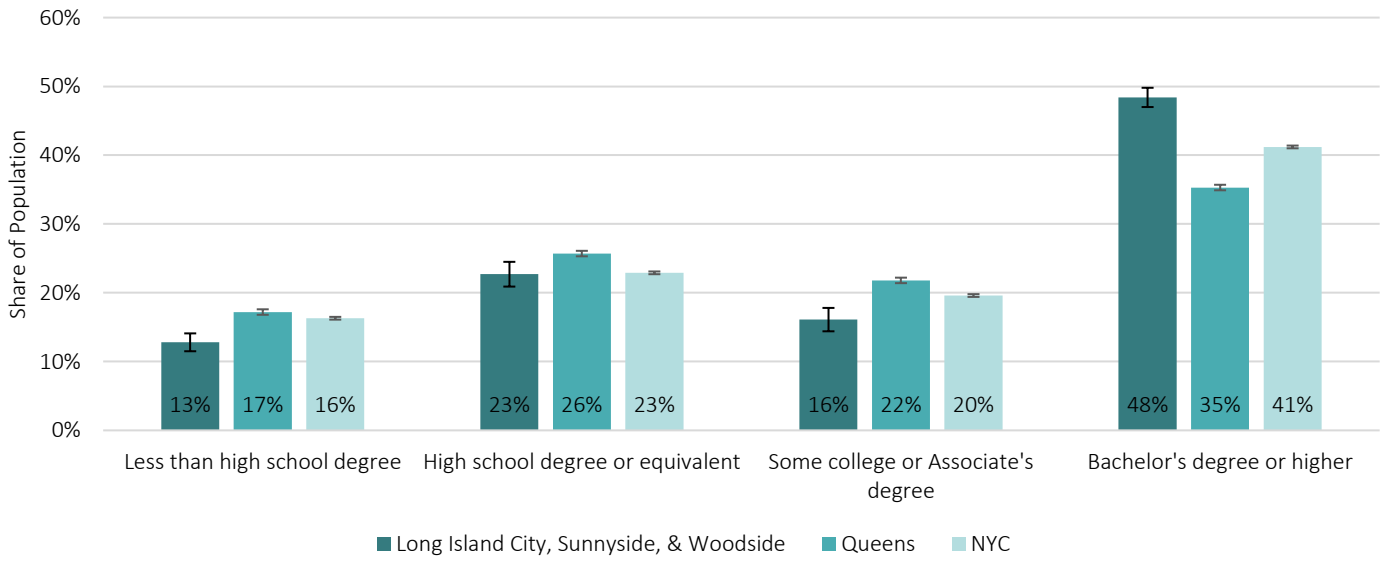

Source: NYC Department of Education 2024; Community Profile Table 5.13

Figure 10: Educational Attainment, 2019-2023 (Five-Year Estimate)

Shows the share of the population 25 years and over, by highest level of educational attainment. Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] of the population 25 years and over in [area] had [educational attainment]."

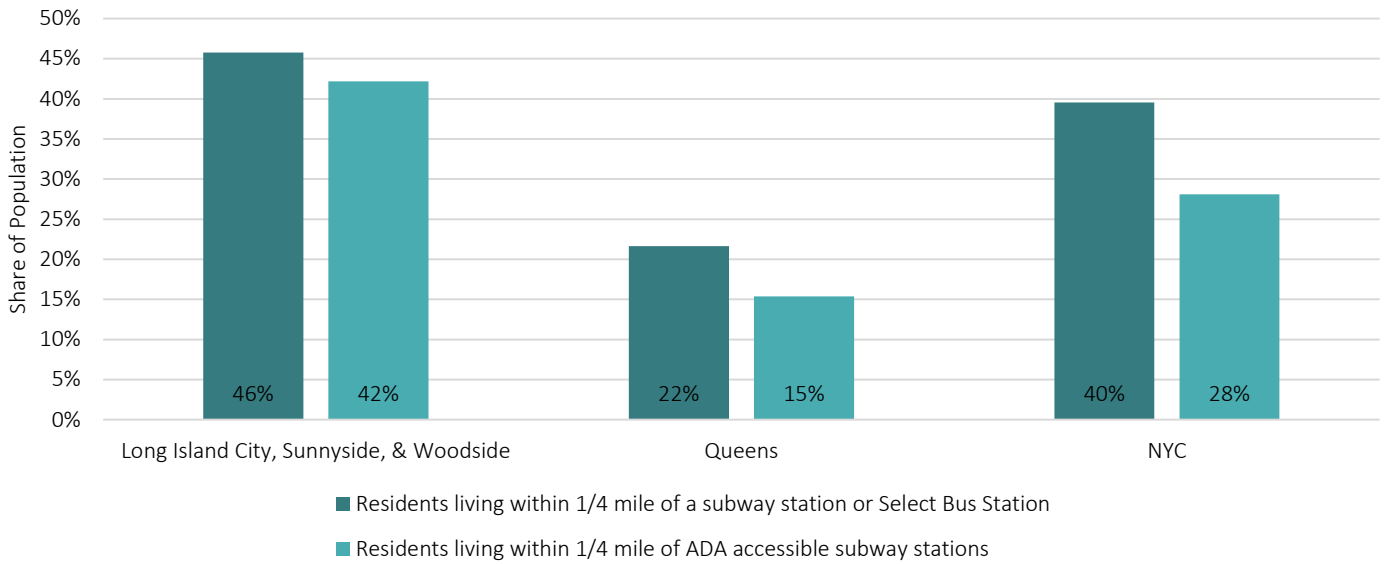

Source: American Community Survey 2019-2023; Community Profile Table 2.01

Figure 11: Access to Transit, 2023

Shows the share of population that lives within ¼ mile of a subway station or select bus service stop; and share of population that lives ¼ mile of an ADA accessible subway station. Compares the local area to the borough and city.

"In 2023, about [percent] of residents in [area] lived near an ADA accessible subway station."

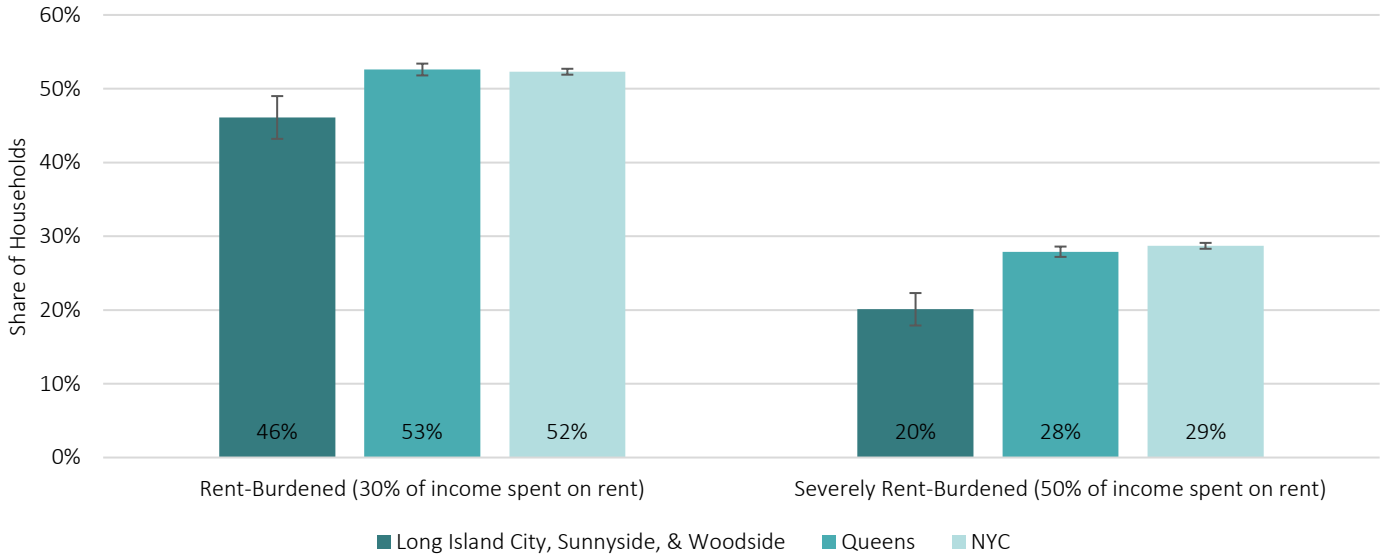

Source: Department of City Planning 2023; Community Profile Table 5.09

Housing Security, Affordability, and Quality

Figure 12: Rent-Burdened & Severely Rent-Burdened Households, 2019-2023 (Five-Year Estimate)

Shows the percent of households who spent 30% or more of their income on rent (rent-burdened) and the percent who spent 50% or more of their income on rent (severely rent-burdened). Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] of households in [area] were severely rent-burdened."

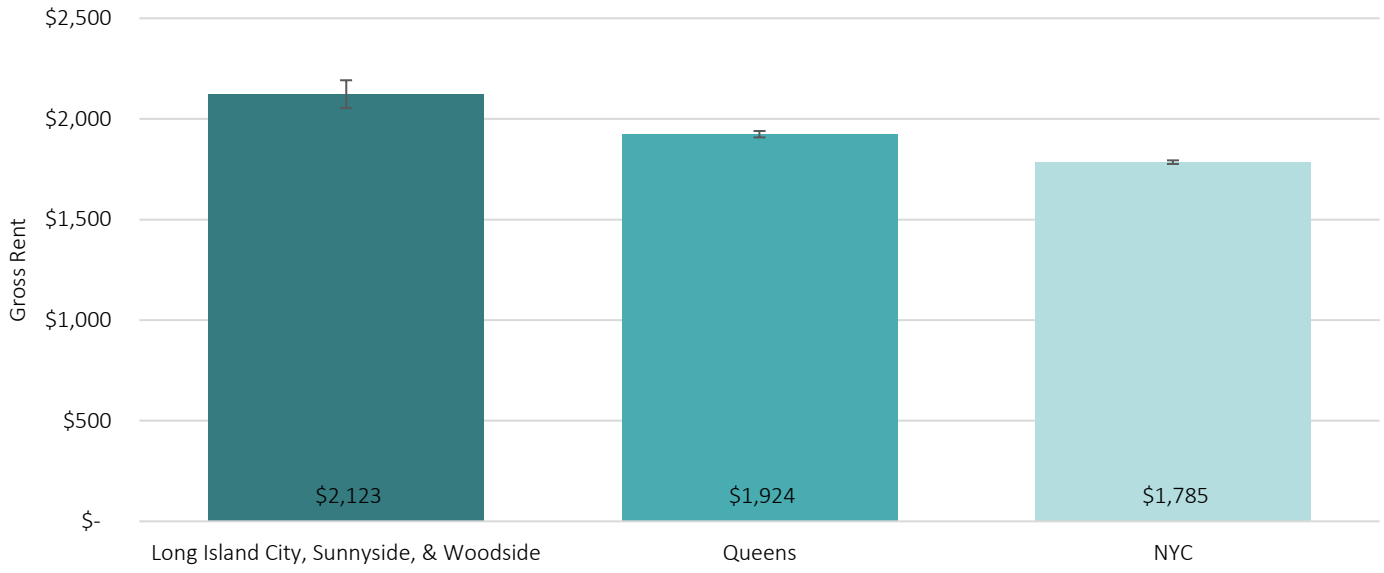

Source: American Community Survey 2019-2023; Community Profile Table 3.04

Figure 13: Median Gross Rent, 2019-2023 (Five-Year Estimate)

Shows the median rent for occupied units paying rent. Median means half of all units have rental costs higher than this amount and half have rents lower than this amount. Compares the local area to the borough and city.

"In 2019-2023, the estimated median price of rental units in [area] was [$]."

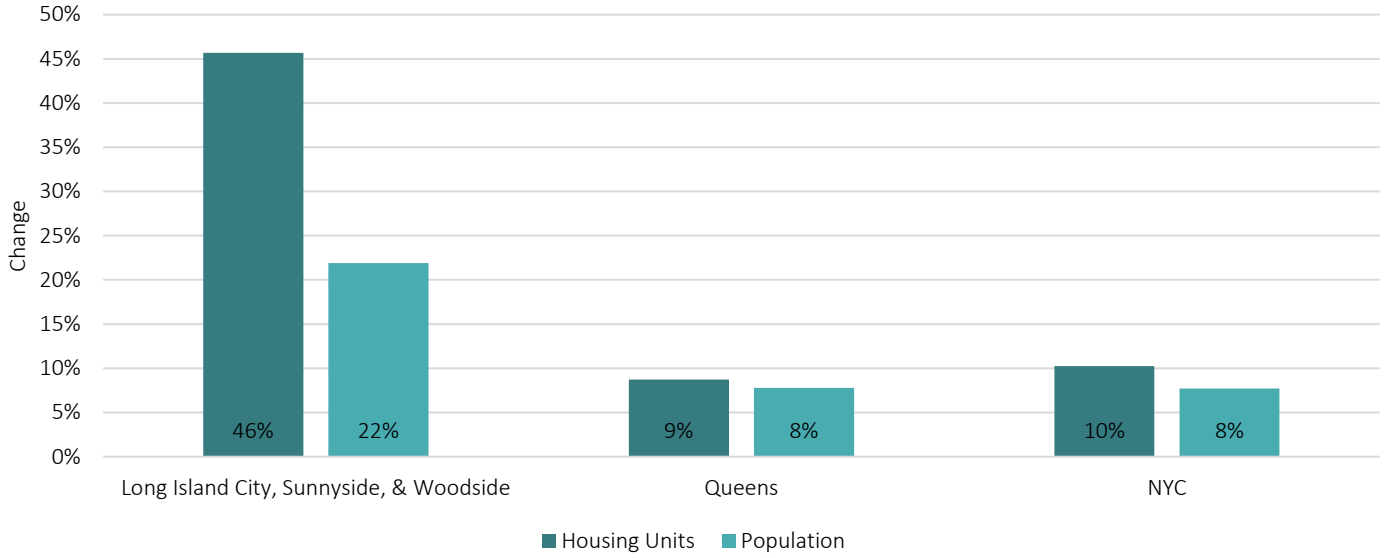

Source: American Community Survey 2019-2023; Community Profile Table 3.03

Housing Production

Figure 14: Percent Change in Housing Supply and Population, 2010 to 2024

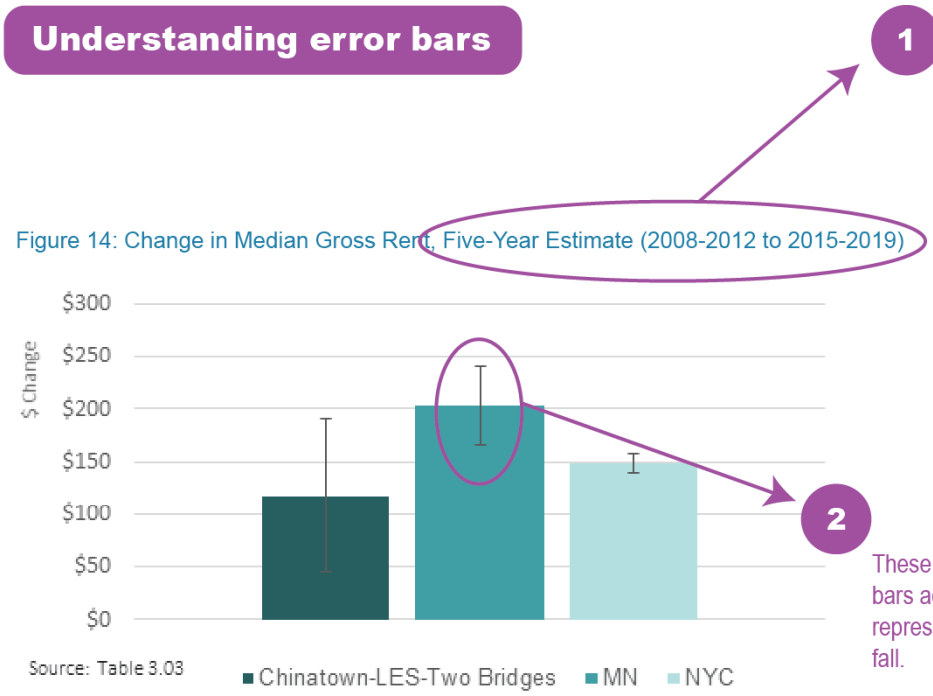

Shows the percent change in the number of housings units and population. Compares the local area to the borough and city.

"From 2010 to 2024, housing units in [area] increased/decreased by [percent] and population increased/decreased by [percent]."

Source: NYC Department of City Planning Housing Database 2024 Q4 and Census 2010, 2020; Community Profile Tables 4.01 and 1.01

Understanding error bars

Five-year estimates refer to data from the American Community Survey (ACS). The ACS is a monthly survey sent to a sample of households throughout the country. To have a large enough sample to create estimates of characteristics for small areas, the ACS "rolls-up" the sample for five-year periods.

Because the ACS data are from a sample, the estimates comes with some uncertainty, which is shown in the chart as ***errror bars.***

These "I" figures are called ***error bars***. Error bars account for uncertainty in ***sample data*** by representing the range in which the data could fall.

In this example, the ***error bars*** tell us that the change in rent in Manhattan is somewhere between about $160 and $245.

Data drawn from a larger sample are more accurate and have a smaller ***error bar***, which is why the size of the ***error bar*** gets smaller as the geography increases in size.

Correct intrepretation of this chart:

"Rents in Chinatown increased between about $50 and $190."

Based on the ***error bar*** for Chinatown, this is correct.

Incorrect intrepretation of this chart:

"Changes in rents in Manhattan were larger than those in Chinatown."

Because the ***error bars*** for Chinatown and Manhattan overlap, we cannot say for certain whether changes were higher or lower. In other words, the range of rent changes in Manhattan ($160-$245) overlap with the range in Chinatown ($45-$195).

Section 4: Affirmatively furthering fair housing and promoting equitable access to opportunity

Provide a narrative statement describing how the project relates to New York City's goals and strategies to affirmatively further fair housing and promote equitable access to opportunity. These goals and strategies are described in the city's fair housing plan, Where We Live NYC.

Where We Live NYC (WWL NYC) details fair housing challenges rooted in historic laws and policies that created persistent disparities in NYC. As stated in WWL NYC, "a holistic approach to advancing fair housing requires substantial investments and policy changes to address the structural disadvantages that neighborhoods and their residents experience. Such commitments are meant to ensure that no one is deprived of access to fundamental resources because of their race, ethnicity, disability, religion, or other protected characteristic, and that residents of all neighborhoods can thrive." WWL NYC further states that although the City has marshaled financial resources and governmental expertise to support structurally disadvantaged neighborhoods and created a $1 billion Neighborhood Development Fund (NDF), much more work is required to address the compounded disadvantages that centuries of discrimination and segregation have produced.

WWL NYC sets forth different strategies and actions to address the neighborhood-based factors that perpetuate disparate outcomes. Of the various goals, the Proposed Project furthers Goal 2 of WWL NYC: "Facilitate equitable housing development in New York City and the region" by introducing additional housing units in a neighborhood that has experienced housing production, creating new income restricted housing units, unit types that are not broadly available in the neighborhood, and new jobs accessible to low-income populations. The Proposed Project represents an opportunity to create more mixed income housing to help meet increasing demand in a stressed market, and new affordable housing options in an accessible location. The Proposed Project would create approximately 227 new units, 25% of which would be reserved for households averaging 60% AMI, or about $87,480 for a family of 3 with a monthly rent of $2,187 for a two-bederoom. As discussed in Section 3 above, the Proposed Project is located in an area with a low share of rent stabilized units and a small portion of the population that is rent-burdened. The majority of households in the PUMA fall into middle- and high-income categories (as defined by HUD), and a larger share of Asian and Hispanic households have middle- and high-incomes per those categories. Therefore, the Proposed Project will help create more stable housing options for low-income families in a relatively high-income neighborhood and provide options that are more accessible to families of color that more often have incomes below the median.

(Section 4 continued)

The Proposed Project would also further Goal 2 of Where We Live by producing new income restricted housing units in an amenity-rich location. The Proposed Project is in a neighborhood with access to transportation, jobs, and open space. It is located less than a block from the 7 subway line. The Project Site has access to open space, which is demonstrated by the fact seven parks are within walking distance of the site. In addition to the parks, residents introduced by the Proposed Project would have access to a garden and a rooftop terrace as a result of the proposed development. The Proposed Project will also increase amenities in the neighborhood by rezoning an area in the middle of a residential neighborhood that has been used for commercial purposes.

Section 5: Community profile

The community profile provides data tables for all indicators from the Equitable Development Data Explorer (EDDE) for the relevant Community District[2]. Includes approximately 50 indicators across five categories:

- *demographic;*
- *household economic security;*
- *housing affordability, quality, and security;*
- *housing production; and*
- *quality of life and access to opportunity.*

Where possible, these indicators are broken down by mutually exclusive race/ethnicity and show change over time.

All community profiles can be downloaded from the Equitable Development Data Explorer.

[2] The EDDE reports data by Public Use Microdata Areas (PUMA), statistical areas defined by the U.S. Census. PUMAs in New York City generally approximate Community Districts. Displaying the data at the PUMA scale enables data reporting broken down by race and ethnicity.
