

Racial equity report on housing and opportunity

Project name:

Contact:

Prepared by:

Date:

Note: Racial equity reports are prepared prior to the certification of the subject application by the City Planning Commission (CPC). A description of the final adopted application is available in the associated CPC report.

APPLICATION TYPE

Applications that meet one or more of the following criteria are subject to the racial equity report requirement. Please select all relevant criteria:

- ☐ Text amendment to the zoning resolution affecting 5 or more community districts
- ☐ Historic district designation affecting 4 or more city blocks
- ☐ Seeking a change to the use regulations or permitted floor area for any use in a manufacturing district where a building in the project contains at least 100,000 square feet of floor area

Applications submitted pursuant to subdivision a of section 197-c of the charter that seek approval for:

- ☐ Acquisition or disposition of land to facilitate a non-residential project containing at least 50,000 square feet of floor area
- ☐ Acquisition or disposition of land to facilitate a residential project, other than a residential project consisting of a building to be preserved, provided that such equity report shall only be required related to a building in such project containing at least 50,000 square feet of floor area
- ☐ An increase in permitted residential floor area of at least 50,000 square feet
- ☐ An increase in permitted non-residential floor area of at least 200,000 square feet
- ☐ A decrease in permitted floor area or number of housing units on at least four contiguous city blocks

If the application meets the above criteria but the proposed development does not, please explain the difference between the proposed development and the application.

Section 1: Executive summary

Provide a short, plain-language summary of the subsequent sections of the racial equity report, including major project elements and key neighborhood and demographic conditions.

Section 2: Project specific information

Before completing Section 2, please review the [racial equity report submission guide](#).

2.1 Description of residential space and affordability

2.1.1 Reporting residential floor area

Total residential zoning square feet:

2.1.2 Profile of anticipated residential affordability

Report the number of anticipated housing units. Describe the expected rents or prices for all proposed housing units.

Income Restriction	Units # %		Anticipated Affordability				
			AMI Band	Rent (____)*		Eligible Income (____) **	
				Studio	2-bedroom	1-person HH	4-person HH
Total							

*Rents are based on unit size. Rents shown are illustrative (based on [] AMI, rounded to the nearest \$10) and will change. Final rents will be determined based on the HUD Income Limits in place at time of project construction.

**Qualifying incomes are based on household size. Incomes shown are illustrative (based on [] AMI, rounded to the nearest \$100) and will change. Final qualifying incomes will be determined by the HUD Income Limits in place at time of project marketing.

Provide additional details below as needed. If applicable, report the proposed Mandatory Inclusionary Housing option. If applicable, describe any affordable housing financing programs.

(2.1.2 continued)

2.2 Description of non-residential space and jobs

Report building area and job sector details for specific non-residential uses. Specific non-residential uses are those where a space is being built for the use of a specific tenant or business. This might be an anchor tenant that is only occupying a portion of the proposed space, or it might be that the applicant is seeking the proposed action to build for their own use.

If the proposal includes non-residential space but no specific tenants or businesses, do not complete this section. General non-residential space can be discussed in Section 4.

2.2.1 Reporting non-residential floor area

Total non-residential zoning square feet:

Non-residential zoning square feet to be occupied by unknown tenants:

Non-residential zoning square feet to be occupied by known tenants:

2.2.2 Profile of anticipated new jobs for non-residential space with a known tenant

If the application proposes specific non-residential uses, report the projected number of permanent jobs in each sector. Specific non-residential uses are those where there is a known tenant for the space.

In cases where there is not a known tenant, do not report the projected number of jobs or the characteristics of the potential sectors. Without a specific tenant/business, future industry sectors cannot be known and therefore all wage and workforce reporting would be speculative.

Sector (name and NAICS code)	Job count
Total	

For each sector, use most recent available data to describe the educational attainment and racial/ethnic composition of the workforce and median wages for those sectors in New York City.

(2.2.2 continued)

2.3 Estimating construction jobs

Report anticipated construction jobs in both person-years and average yearly workers for each development site.

Development site	Person-years	Average yearly workers
Totals		

Section 3: Community Profile Summary

The community profile summary provides a graphic snapshot of household, housing, and neighborhood indicators from the [Equitable Development Data Explorer](#) for the relevant Community District¹. Data tables and sources can be found in the full community profile (Section 5 of this report.)

¹ The EDDE reports data by Public Use Microdata Areas (PUMA), statistical areas defined by the U.S. Census. [PUMAs in New York City generally approximate Community Districts](#). Displaying the data at the PUMA scale enables data reporting broken down by race and ethnicity.

Chelsea, Clinton &
Midtown Business
District
PUMA 3807

The city's Displacement Risk Index (DRI) estimates comparative levels of residential displacement risk for New York City's neighborhoods. The DRI ranks neighborhoods from lowest to highest risk based on recent population characteristics, housing conditions, and market pressures.

There are five ranks with equal numbers of neighborhoods. For example, neighborhoods ranked "lowest" are among the 20% of NYC neighborhoods with the least intense displacement risk factors while neighborhoods ranked "highest" are among the 20% of neighborhoods with most intense displacement risk factors.

Displacement Risk
by Neighborhood Tabulation Area

Community Profile Summary

Chelsea, Clinton, & Midtown Business District (PUMA 3807, approximately Manhattan CD 4 & 5)

Each figure includes a description and a sample interpretive sentence. Data is sourced from the U.S. Census, the American Community Survey, and the NYC Housing and Vacancy Survey. For more detailed data sourcing, see the associated source table in the Equitable Development Data Explorer, available [here](#).

Demographic Conditions

Figure 1: Race & Ethnicity, 2020

Shows the share of area population by mutually exclusive race and Hispanic ethnicity. Compares the local area to the borough and city.

"In 2020, [percent] of the population in [area] identified as [race/ethnicity]."

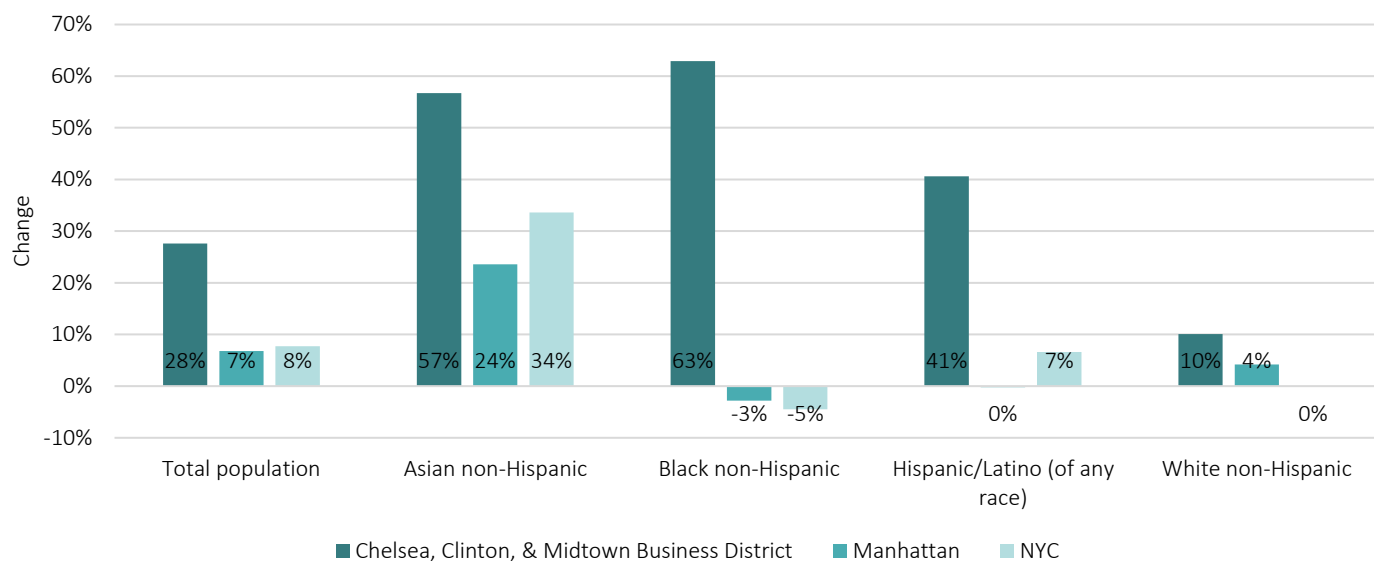

Source: Census 2020; Community Profile Table 1.01

Figure 2: Percent Change in Race & Ethnicity, 2010 to 2020

Shows the percent change of the area population by mutually exclusive race and Hispanic ethnicity. Compares the local area to the borough and city.

"From 2010 to 2020, the [race/ethnicity] population in [area] increased/decreased by [percent]."

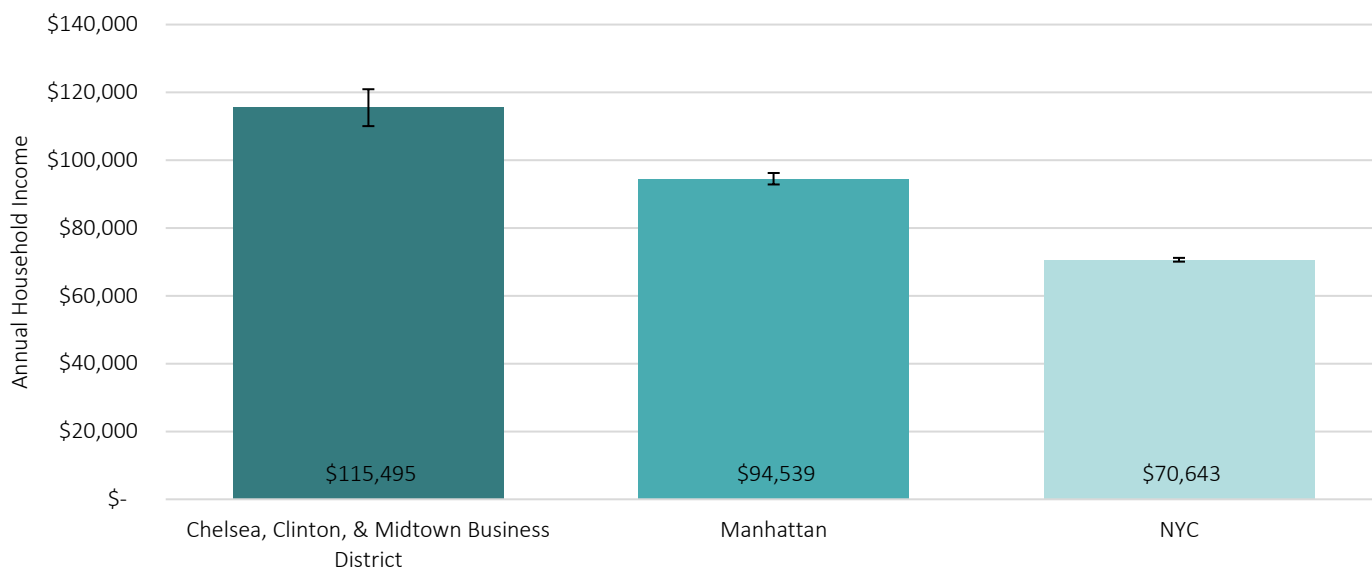

Source: Census 2010, 2020; Community Profile Table 1.01

Household Economic Security – Income

Figure 3: Median Household Income, 2017-2021 (Five-Year Estimate)

Shows the estimated median household income (in 2021 dollars) for the local area, borough, and city. Median means half of all households in the area make more than this amount and half make less. Compares the local area to the borough and city.

“For 2017-2021, the estimated median household income in [area] was [\$].”

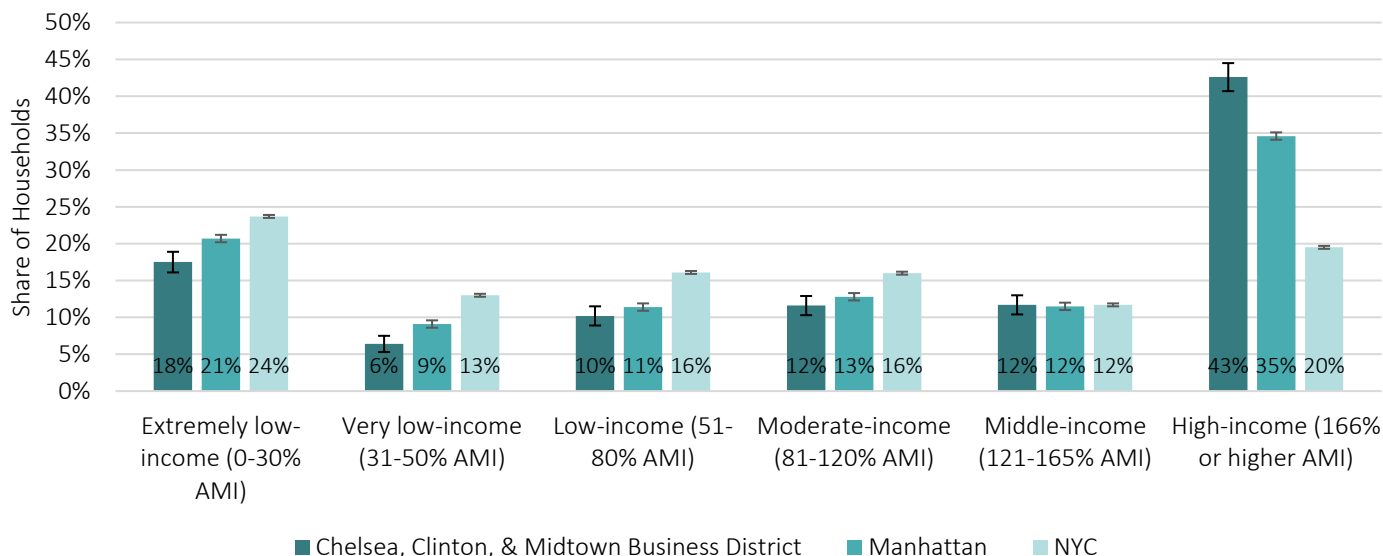

Source: American Community Survey 2017-2021; Community Profile Table 2.02

Figure 4: Share of Households in Each HUD AMI Band, 2017-2021 (Five-Year Estimate)

Shows the share of households within each 2019 U.S. Housing and Urban Development (HUD) Area Median Income (AMI) band. Compares the local area to the borough and city. U.S. Housing and Urban Development (HUD) Area Median Income (AMI) is based on rental prices.

“For 2017-2021, an estimated [percent] of households in [area] were in [HUD AMI band].”

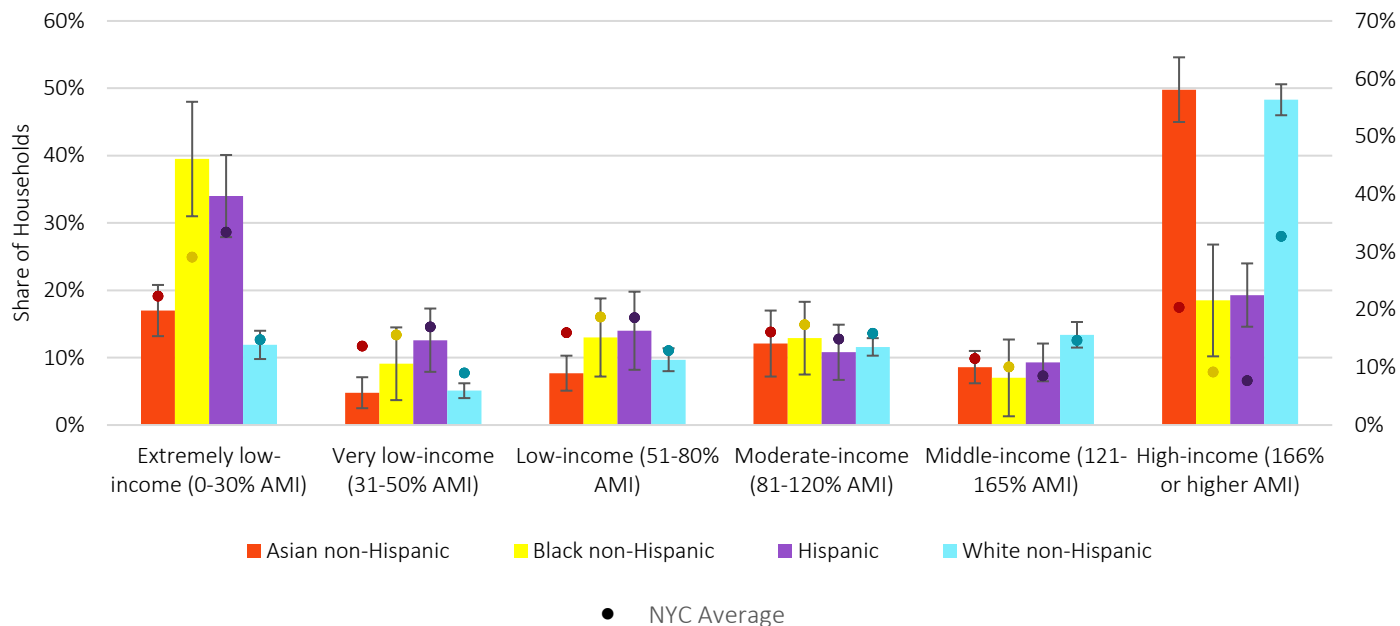

Source: American Community Survey 2017-2021; Community Profile Table 2.03

Figure 5: Share of Households in Each HUD AMI Band by Race & Ethnicity, 2017-2021 (Five-Year Estimate)

Shows the share of PUMA households within each 2019 U.S. Housing and Urban Development (HUD) Area Median Income (AMI) band, by mutually exclusive race & Hispanic ethnicity of householder. HUD AMI bands are used to determine eligibility for income-restricted housing.

“In the local area, an estimated [percent] of [race/ethnicity] households were in [HUD AMI band] in 2017-2021.”

Source: American Community Survey 2017-2021; Community Profile Table 2.03

Household Economic Security – Jobs

Figure 6: Labor Force Participation, 2017-2021 (Five-Year Estimate)

Shows the share of the total population aged 16-64 who is employed or seeking work. Compares the local area to the borough and city.

“In 2017-2021, an estimated [percent] in [area] were employed or seeking work.”

Source: American Community Survey 2017-2021; Community Profile Table 2.04

Figure 7: Labor Force Participation by Race & Ethnicity, 2017-2021 (Five-Year Estimate)

Shows the share of the total population aged 16-64 who is employed or seeking work, by mutually exclusive race & Hispanic ethnicity. Compares the local area to the borough and city.

“In 2017-2021, an estimated [percent] of [race/ethnicity] group in [area] were employed or seeking work.”

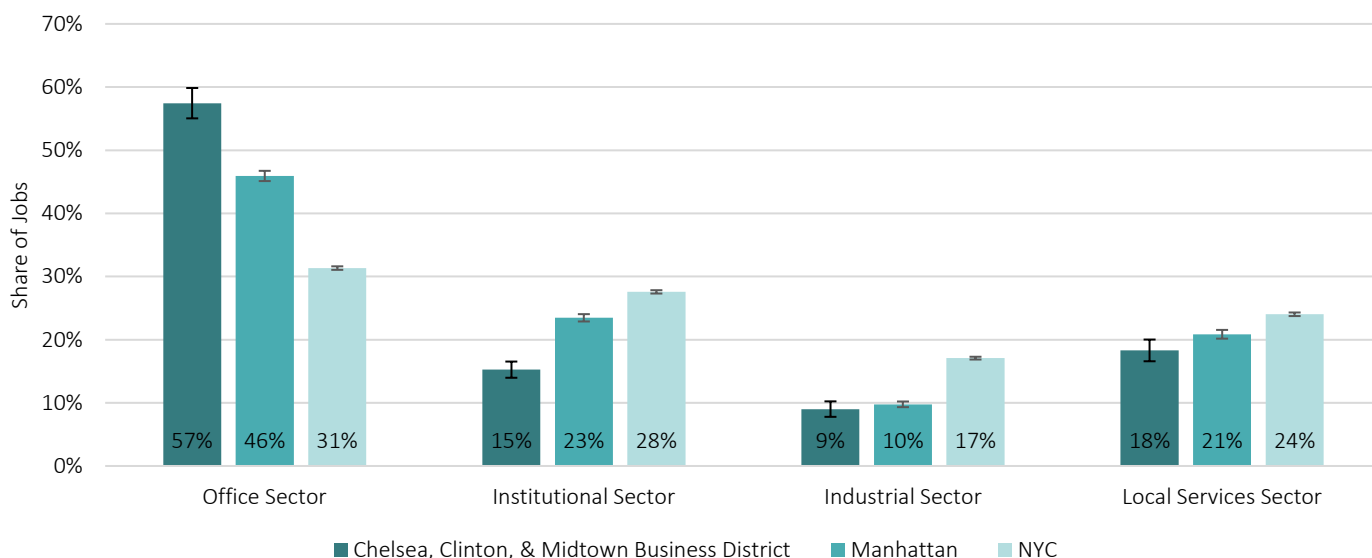

Source: American Community Survey 2017-2021; Community Profile Table 2.04

Figure 8: Share of Employed Residents by Business Sector¹, 2017-2021 (Five-Year Estimate)

Shows the share of workers who live in an area by the business sector in which they work. Compares the local area to the borough and city.

“In 2017-2021, an estimated [percent] of employed people in [area] worked in [business sector].”

Source: American Community Survey 2017-2021; Community Profile Table 2.06

¹ Business sectors are shown as macro-sectors as defined by NYC Department of City Planning. Office sector includes professional, management, finance businesses, and others; institutional sector includes educational services and health care and social assistance; industrial sector includes construction, manufacturing, warehousing businesses, and others; local services sector includes retail, arts and entertainment, food service businesses, among others.

Education & Access to Transit

Figure 9: High School Graduation Rate, 2018

Shows the rate of students who entered 9th grade in 2014 and graduated by 2018. Shows the share of total students and share of students by mutually exclusive race and ethnicity groups. Compares the local area to the borough and city.

"The 2018 graduation rate for [race/ethnicity] group in [area] was [percent]."

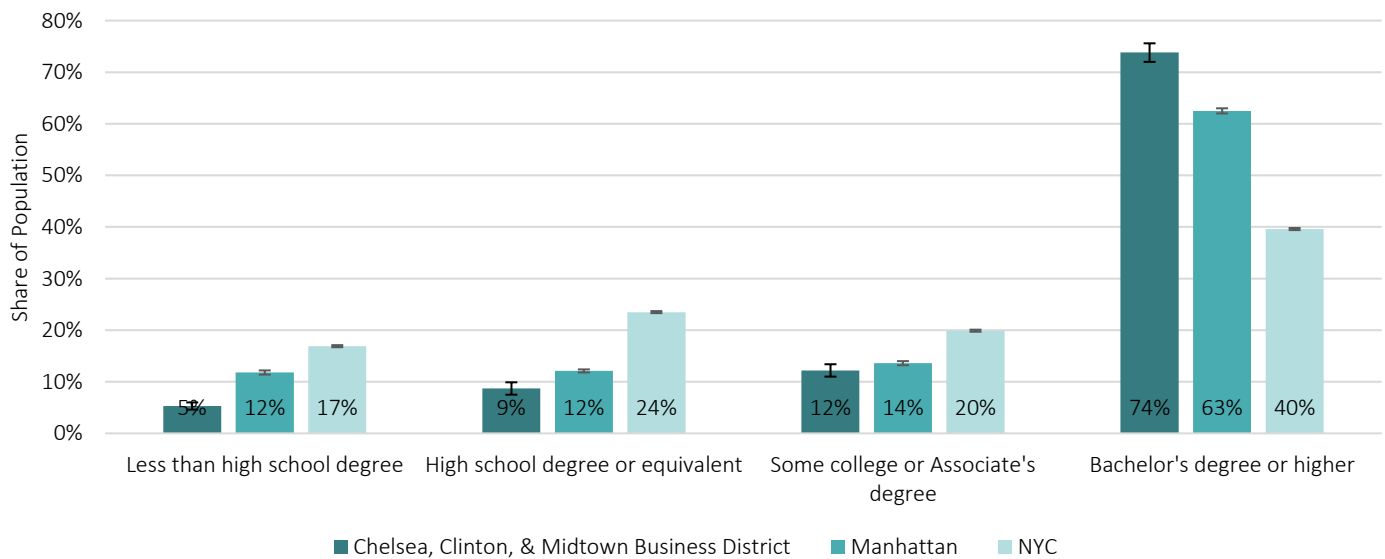

Source: NYC Department of Education 2018; Community Profile Table 5.13

Figure 10: Educational Attainment, 2017-2021 (Five-Year Estimate)

Shows the share of the population 25 years and over, by highest level of educational attainment. Compares the local area to the borough and city.

"In 2017-2021, an estimated [percent] of the population 25 years and over in [area] had [educational attainment]."

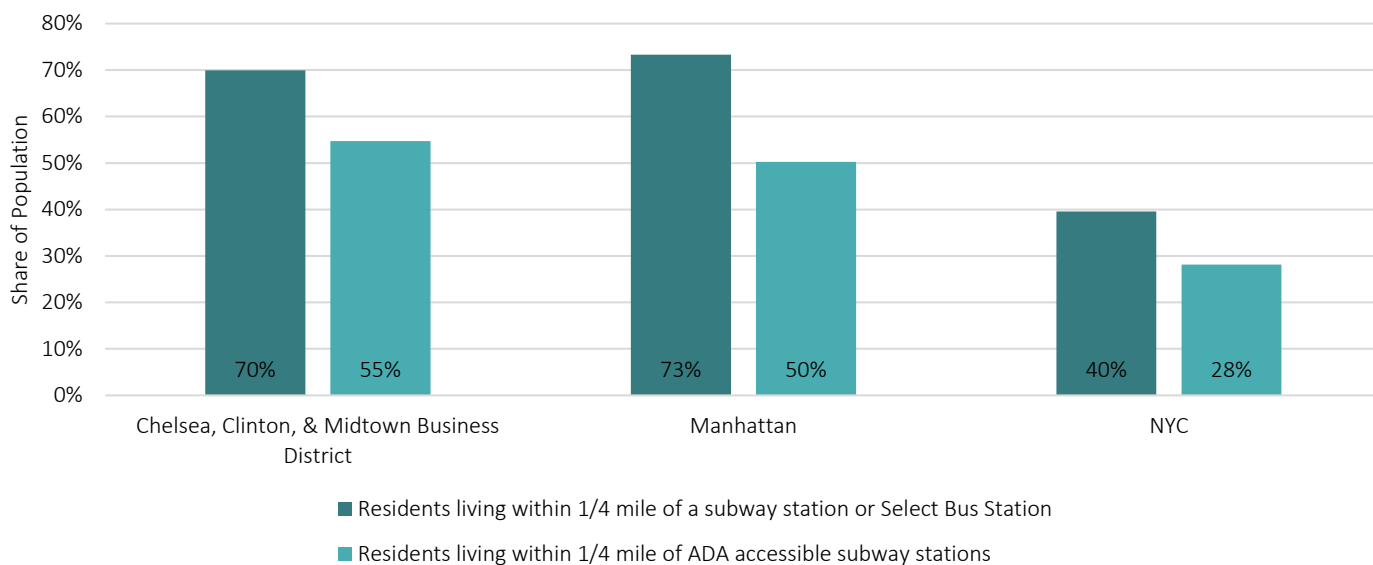

Source: American Community Survey 2017-2021; Community Profile Table 2.01

Figure 11: Access to Transit, 2021

Shows the share of population that lives within ¼ mile of a subway station or select bus service stop; and share of population that lives ¼ mile of an ADA accessible subway station. Compares the local area to the borough and city.

“In 2021, about [percent] of residents in [area] lived near an ADA accessible subway station.”

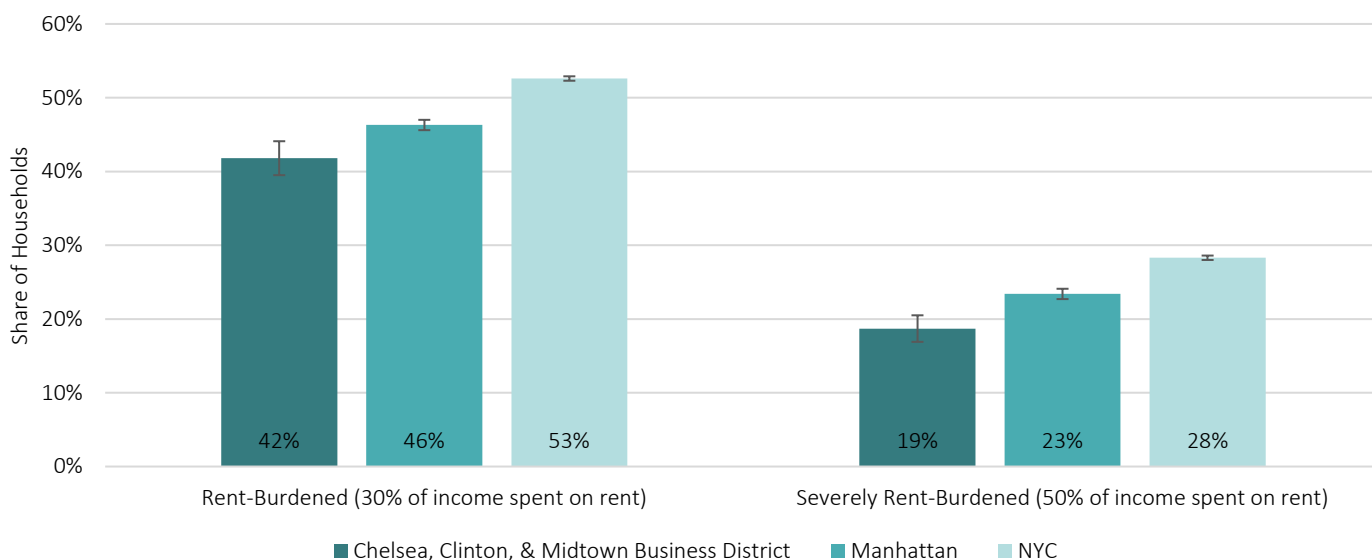

Source: Department of City Planning 2021; Community Profile Table 5.09

Housing Security, Affordability, and Quality

Figure 12: Rent-Burdened & Severely Rent-Burdened Households, 2017-2021 (Five-Year Estimate)

Shows the percent of households who spent 30% or more of their income on rent (rent-burdened) and the percent who spent 50% or more of their income on rent (severely rent-burdened). Compares the local area to the borough and city.

"In 2017-2021, an estimated [percent] of households in [area] were severely rent-burdened."

Source: American Community Survey 2017-2021; Community Profile Table 3.04

Figure 13: Median Gross Rent, 2017-2021 (Five-Year Estimate)

Shows the median rent for occupied units paying rent. Median means half of all units have rental costs higher than this amount and half have rents lower than this amount. Compares the local area to the borough and city.

"In 2017-2021, the estimated median price of rental units in [area] was [\$]."

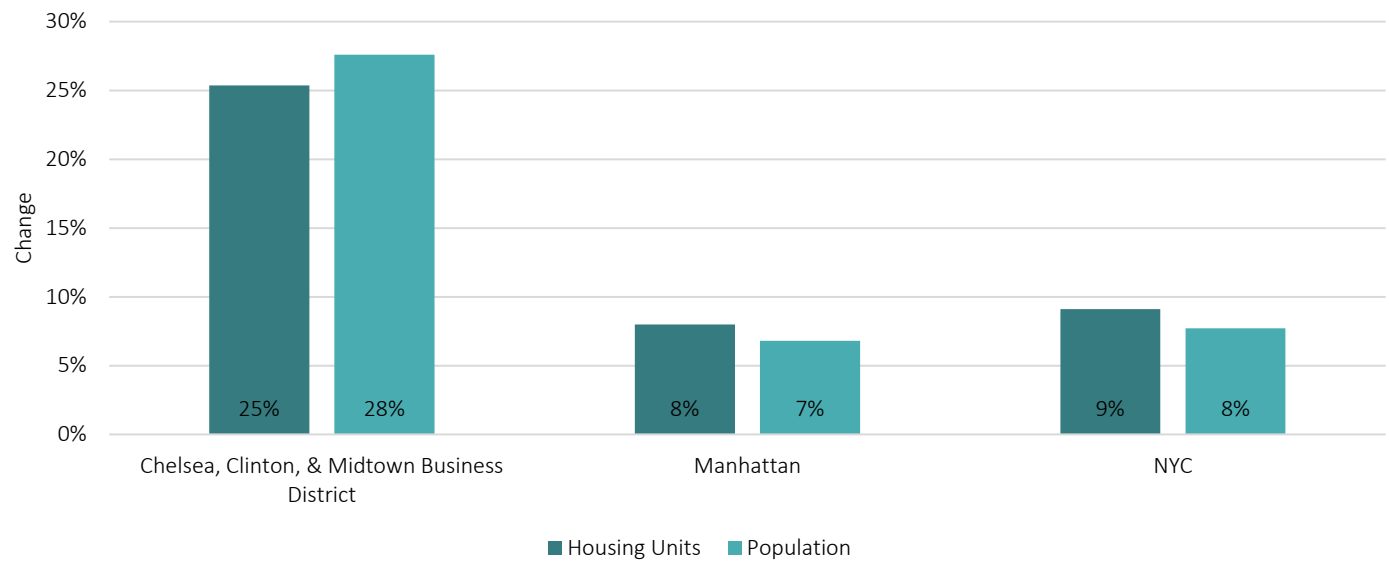

Source: American Community Survey 2017-2021; Community Profile Table 3.03

Housing Production

Figure 14: Percent Change in Housing Supply and Population, 2010 to 2023

Shows the percent change in the number of housings units and population. Compares the local area to the borough and city.

“From 2010 to 2023, housing units in [area] increased/decreased by [percent] and population increased/decreased by [percent].”

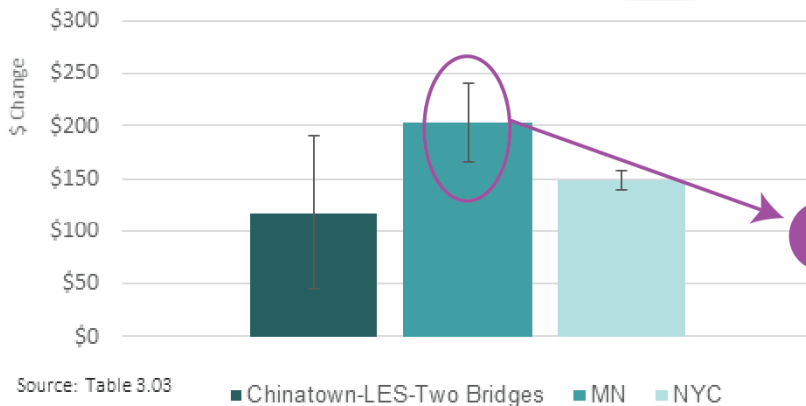

Source: NYC Department of City Planning Housing Database 2023 Q4 and Census 2010, 2020; Community Profile Tables 4.01 and 1.01

Understanding error bars

Understanding error bars

Figure 14: Change in Median Gross Rent, Five-Year Estimate (2008-2012 to 2015-2019)

1

Five-year estimates refer to data from the American Community Survey (ACS). The ACS is a monthly survey sent to a sample of households throughout the country. To have a large enough sample to create estimates of characteristics for small areas, the ACS “rolls-up” the sample for five-year periods.

Because the ACS data are from a sample, the estimates come with some uncertainty, which is shown in the chart as **error bars**.

2

These “I” figures are called **error bars**. Error bars account for uncertainty in **sample data** by representing the range in which the data could fall.

In this example, the **error bars** tell us that the change in rent in Manhattan is somewhere between about \$160 and \$245.

Data drawn from a larger sample are more accurate and have a smaller **error bar**, which is why the size of the **error bar** gets smaller as the geography increases in size.

Correct interpretation of this chart:

“Rents in Chinatown increased between about \$50 and \$190.”

Based on the **error bar** for Chinatown, this is correct.

Incorrect interpretation of this chart:

“Changes in rents in Manhattan were larger than those in Chinatown.”

Because the **error bars** for Chinatown and Manhattan overlap, we cannot say for certain whether changes were higher or lower. In other words, the range of rent changes in Manhattan (\$160-\$245) overlap with the range in Chinatown (\$45-\$195).

Section 4: Affirmatively furthering fair housing and promoting equitable access to opportunity

Provide a narrative statement describing how the project relates to New York City's goals and strategies to affirmatively further fair housing and promote equitable access to opportunity. These goals and strategies are described in the city's fair housing plan, [Where We Live NYC](#).

(Section 4 continued)

Section 5: Community profile

The community profile provides data tables for all indicators from [the Equitable Development Data Explorer](#) (EDDE) for the relevant Community District². Includes approximately 50 indicators across five categories:

- *demographic;*
- *household economic security;*
- *housing affordability, quality, and security;*
- *housing production; and*
- *quality of life and access to opportunity.*

Where possible, these indicators are broken down by mutually exclusive race/ethnicity and show change over time.

All community profiles can be downloaded from the [Equitable Development Data Explorer](#).

² The EDDE reports data by Public Use Microdata Areas (PUMA), statistical areas defined by the U.S. Census. [PUMAs in New York City generally approximate Community Districts](#). Displaying the data at the PUMA scale enables data reporting broken down by race and ethnicity.
