WESTERN **RAIL YARD**

Draft Environmental Impact Statement	CEQR No.: 09DCP007M

Co-Lead Agencies
Metropolitan Transportation Authority
New York City Planning Commission

May 2009

DRAFT ENVIRONMENTAL IMPACT STATEMENT
for
WESTERN RAIL YARD
May 2009

CEQR No.: 09DCP007M
ULURP Nos. 090422HAM, 090423HAM, 090429ZRM, 090430ZMM, 090408MMM, 090433ZMM, N090434ZRM, 090436ZSM, 090435ZSM

CO-LEAD AGENCIES:

Metropolitan Transportation Authority
347 Madison Avenue
New York, NY 10017

City Planning Commission
City of New York
Amanda M. Burden, FAICP, Chair

CO-LEAD AGENCY CONTACTS:

Robert Paley
Director, Transit Oriented Development
Metropolitan Transportation Authority
Real Estate Department
347 Madison Avenue
New York, NY 10017
(212) 878-7205

Robert Dobruskin, Director
Environmental Assessment and Review Division
New York City Department of City Planning
22 Reade Street, Room 4E
New York, NY 10007
(212) 720-3423

PREPARED FOR THE LEAD AGENCY BY:

AKRF, Inc.
Parsons Brinckerhoff, Inc.
The Louis Berger Group, Inc.
Rowan William Davies & Irwin, Inc.

A public hearing on the Draft Environmental Impact Statement (DEIS) will be held at a later date to be announced. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and will be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

Table of Contents

Executive Summary **S-1**

1: Project Description **1-1**
A. Project Identification 1-1
B. Purpose and Need 1-2
Purpose of the Proposed Actions 1-2
Goals of the Proposed Actions 1-2
C. Planning Process 1-3
History of the Site and Planning Background 1-3
Requests for Proposals 1-4
Public Outreach 1-4
D. Description of the Proposed Actions 1-5
Development Site 1-5
Additional Housing Sites 1-7
E. Development Program 1-9
Overview 1-9
Development Site 1-10
Additional Housing Sites 1-13
F. Construction Sequencing 1-15
Development Site 1-15
Additional Housing Sites 1-16
G. Project Approvals and Actions 1-16
Development Site 1-16
Additional Housing Sites 1-17

2: Framework for Analysis **2-1**
A. Introduction 2-1
B. Environmental Review Process 2-1
Legislative Applicability 2-1
Process Overview 2-1
Coordination With Other Review Processes 2-4
C. Framework for Environmental Analysis of the Proposed Actions 2-5
Scope of Environmental Analysis 2-5
Analysis Years 2-6
Definition of Study Areas 2-7
Defining Baseline Conditions 2-7
Defining the Action for Environmental Analysis 2-18
Generic Analysis for Relocation of DSNY Facilities 2-21
Mitigation 2-21
Alternatives 2-22

3: Land Use, Zoning, and Public Policy 3-1
A. Introduction 3-1
Principal Conclusions 3-1
B. Methodology 3-2
Study Areas 3-2
Analysis Years 3-3
C. Existing Conditions 3-4
Land Use 3-4
Zoning 3-16
Public Policy 3-27
D. The Future Without the Proposed Actions 3-30
Land Use 3-30
Zoning 3-35
Public Policy 3-35
E. Probable Impacts of the Proposed Actions–2019 3-36
Land Use—Development Site and Its Study Area 3-36
Zoning 3-41
Public Policy 3-43
F. Probable Impacts of the Proposed Actions–2017 3-49

4: Socioeconomic Conditions 4-1
A. Introduction 4-1
Principal Conclusions 4-1
B. Methodology 4-4
CEQR Overview 4-4
Determining Whether A Socioeconomic Assessment Is Appropriate 4-5
Analysis Format 4-5
Study Area Delineation 4-7
Data Sources 4-8
C. Preliminary Assessment 4-9
Direct Residential Displacement 4-9
Direct Business and Institutional Displacement 4-10
Indirect Residential Displacement 4-12
Indirect Business and Institutional Displacement 4-18
Potential Effects On Specific Industries 4-34
D. Detailed Analysis of Indirect Residential Displacement 4-37
Existing Conditions 4-38
The Future Without the Proposed Actions 4-48
Probable Impacts of the Proposed Actions—2019 4-48
Probable Impacts of the Proposed Actions—2017 4-51

Chapter 5: Community Facilities and Services 5-1
A. Introduction 5-1
Principal Conclusions 5-2
B. Screening Level Assessment 5-5
Public Schools 5-5
Libraries 5-6
Health Care Facilities (Outpatient) 5-6

Child Care Facilities 5-6
Police Protection Services 5-7
Fire Protection and Emergency Medical Services 5-7
C. Public Schools 5-7
Existing Conditions 5-8
The Future Without the Proposed Actions—2019 5-10
Probable Impacts of the Proposed Actions—2019 5-15
The Future Without the Proposed Actions—2017 5-17
Probable Impacts of the Proposed Actions—2017 5-18
D. Libraries 5-21
Existing Conditions 5-21
The Future Without the Proposed Actions—2019 5-23
Probable Impacts of the Proposed Actions—2019 5-23
The Future Without the Proposed Actions—2017 5-24
Probable Impacts of the Proposed Actions—2017 5-25
E. Child Care Centers 5-25
Methodology 5-26
Existing Conditions 5-27
The Future Without the Proposed Actions—2019 5-27
Probable Impacts of the Proposed Actions—2019 5-28
The Future Without the Proposed Actions—2017 5-28
Probable Impacts of the Proposed Actions—2017 5-29
F. Health Care Facilities (Outpatient) 5-30
Methodology 5-30
Existing Conditions 5-30
The Future Without the Proposed Actions—2019 5-34
Probable Impacts of the Proposed Actions—2019 5-34
G. Police Protection Services 5-34
Existing Conditions 5-34
The Future Without the Proposed Actions—2019 5-36
Probable Impacts of the Proposed Actions—2019 5-36
H. Fire Protection and Emergency Medical Services 5-36
Methodology 5-36
Existing Conditions 5-37
The Future Without the Proposed Actions—2019 5-38
Probable Impacts of the Proposed Actions—2019 5-38

6: Open Space 6-1
A. Introduction 6-1
Principal Conclusions 6-1
B. Methodology 6-3
Direct Effects Analysis 6-3
Indirect Effects Analysis 6-4
C. Development Site Analysis 6-7
Existing Conditions 6-7
The Future Without the Proposed Actions 6-13
Probable Impacts of the Proposed Actions—2019 6-17
Probable Impacts of the Proposed Actions—2017 6-23

D. Additional Housing Sites Analysis 6-26
Existing Conditions 6-26
The Future Without the Proposed Actions 6-32
Probable Impacts of the Proposed Actions—2019 6-33
Probable Impacts of the Proposed Actions—2017 6-35

7: Shadows 7-1
A. Introduction 7-1
Principal Conclusions 7-1
B. Methodology 7-2
Framework for Analysis 7-3
Determination of Impact Significance 7-4
C. Screening Analysis 7-4
Development Site 7-5
Additional Housing Sites 7-5
D. Analysis of Incremental Shadows 7-5
Development Site 7-5
Additional Housing Sites 7-11

8: Historic Resources 8-1
A. Introduction 8-1
Principal Conclusions 8-1
B. Methodology 8-2
Archaeological Resources 8-2
Architectural Resources 8-3
C. Existing Conditions 8-5
Development Site 8-5
Tenth Avenue Site 8-10
Ninth Avenue Site 8-10
D. The Future Without the Proposed Actions 8-12
Development Site 8-13
Tenth Avenue Site 8-14
Ninth Avenue Site 8-15
E. Probable Impacts of the Proposed Actions—2019 8-15
Development Site 8-15
Study Area 8-17
Tenth Avenue Site 8-18
Ninth Avenue Site 8-19
F. Probable Impacts of the Proposed Actions—2017 8-19

9: Urban Design and Visual Resources 9-1
A. Introduction 9-1
Principal Conclusions 9-1
B. Methodology 9-4
Urban Design 9-4
Visual Resources 9-5
C. Existing Conditions 9-6
Development Site 9-6

Study Area 9-7
Tenth Avenue Site 9-13
Ninth Avenue Site 9-15
D. The Future Without the Proposed Actions 9-17
Development Site 9-17
Tenth Avenue Site 9-20
Ninth Avenue Site 9-21
E. Probable Impacts of the Proposed Actions—2019 9-21
Development Site 9-21
Study Area 9-30
Tenth Avenue Site 9-33
Ninth Avenue Site 9-35
F. Probable Impacts of the Proposed Actions—2017 9-36

10: Neighborhood Character 10-1
A. Introduction 10-1
Principal Conclusions 10-1
B. Methodology 10-3
C. Existing Conditions 10-4
Development Site 10-5
Development Site Study Area 10-5
Tenth Avenue Site 10-15
Tenth Avenue Site Study Area 10-16
Ninth Avenue Site 10-16
Ninth Avenue Site Study Area 10-17
D. The Future Without the Proposed Actions 10-18
Development Site 10-18
Development Site Study Area 10-18
Tenth Avenue Site 10-24
Tenth Avenue Site Study Area 10-24
Ninth Avenue Site 10-25
Ninth Avenue Site Study Area 10-25
E. Probable Impacts of the Proposed Actions–2019 10-25
Development Site 10-25
Development Site Study Area 10-29
Tenth Avenue Site 10-35
Tenth Avenue Site Study Area 10-35
Ninth Avenue Site 10-36
Ninth Avenue Site Study Area 10-36
F. Probable Impacts of the Proposed Actions–2017 10-37

11: Natural Resources 11-1
A. Introduction 11-1
Principal Conclusions 11-2
B. Methodology 11-4
Study Area 11-4
Assessment of Existing and Future Without the Proposed Actions Conditions 11-4
Assessment of Impacts On Natural Resources 11-6

Regulatory Context 11-6
C. Existing Conditions 11-8
Site Description 11-8
Groundwater 11-9
Wetlands 11-10
Floodplains 11-11
Terrestrial Resources 11-11
Aquatic Resources 11-14
Threatened, Endangered, and Special Concern Species 11-19
Significant Coastal Fish and Wildlife Habitat 11-20
D. The Future Without the Proposed Actions 11-21
Floodplain, Groundwater, and Terrestrial Resources 11-21
E. Probable Impacts of the Proposed Actions—2019 11-25
Groundwater 11-25
Wetlands 11-27
Floodplains 11-27
Terrestrial Resources 11-29
Water Quality and Aquatic Biota 11-32
Threatened, Endangered, and Special Concern Species 11-34
Significant Coastal Fish and Wildlife Habitat 11-34
F. Probable Impacts of the Proposed Actions—2017 11-35

12: Hazardous Materials 12-1
A. Introduction 12-1
Principal Conclusions 12-2
B. Methodology 12-3
Phase I ESA 12-3
Phase II ESI and Remedial Investigations 12-4
Regulations and Guidelines 12-5
C. Existing Conditions 12-8
Development Site 12-8
Ninth Avenue Site 12-11
Tenth Avenue Site 12-13
D. The Future Without the Proposed Actions 12-13
E. Probable Impacts of the Proposed Actions 12-14
F. Summary of Management Measures 12-15
Further Investigations 12-15
Existing Structures 12-16
Subsurface Disturbance 12-16

13: Waterfront Revitalization Program 13-1
A. Introduction 13-1
Principal Conclusions 13-2
B. Methodology 13-4
C. Existing Conditions 13-4
D. The Future Without the Proposed Actions 13-4
E. Probable Impacts of the Proposed Actions 13-5
F. Consistency of the Proposed Actions With the WRP 13-5

14: Infrastructure 14-1
A. Introduction 14-1
Principal Conclusions 14-1
B. Methodology 14-3
Water Supply 14-3
Wastewater 14-3
Stormwater 14-4
C. Existing Conditions 14-4
Water Supply 14-4
Wastewater and Stormwater 14-7
D. The Future Without the Proposed Actions 14-12
Water Supply 14-13
Wastewater and Stormwater 14-13
E. Probable Impacts of the Proposed Actions–2019 14-15
Water Supply 14-15
Wastewater and Stormwater 14-18
Best Management Practices and PlaNYC 14-23
F. Probable Impacts of the Proposed Actions–2017 14-25

15: Solid Waste and Sanitation Services 15-1
A. Introduction 15-1
Principal Conclusions 15-1
B. Methodology 15-2
C. Existing Conditions 15-2
Solid Waste Generation 15-4
D. The Future Without the Proposed Actions 15-5
E. Probable Impacts of the Proposed Actions—2019 15-6
F. Probable Impacts of the Proposed Actions—2017 15-8
G. Generic Analysis of DSNY Facilities Relocation 15-9
Analyses 15-10
Mitigation 15-17

16: Energy 16-1
A. Introduction 16-1
Principal Conclusions 16-1
B. Methodology 16-2
C. Existing Conditions 16-2
Electricity 16-2
Natural Gas 16-4
Steam 16-4
D. The Future Without the Proposed Actions 16-5
E. Probable Impacts of the Proposed Actions—2019 16-6
F. Probable Impacts of the Proposed Actions—2017 16-10

17: Traffic and Parking 17-1
A. Introduction 17-1
Principal Conclusions 17-1
B. Methodology 17-3

Study Area 17-4
Peak Hours for Analysis 17-4
Capacity Analysis 17-4
Transportation Planning Factors 17-5
Vehicle Trip Generation 17-9
Impact Criteria 17-9
C. Existing Conditions 17-17
Study Area Roadway Network 17-17
Traffic Control 17-21
Traffic Volumes 17-22
Intersection Capacity Analysis 17-22
Parking Supply and Utilization 17-28
Study Area Accident Patterns 17-31
D. The Future Without the Proposed Actions 17-33
Roadway Modifications 17-33
Traffic Volumes 17-35
Intersection Capacity Analysis 17-36
Parking Conditions 17-43
E. Probable Impacts of the Proposed Actions 17-45
Development Site Characteristics 17-45
Traffic Volumes 17-45
Intersection Capacity Analysis 17-46
Significant Adverse Traffic Impacts 17-48
Parking Conditions 17-49
Traffic Safety 17-80

18: Transit and Pedestrians 18-1
A. Introduction 18-1
Principal Conclusions 18-1
B. Methodology 18-4
Analysis Hours 18-4
Study Areas 18-5
Capacity Analysis 18-6
Trip Generation 18-9
Impact Criteria 18-13
C. Data Collection 18-14
Transit Network 18-14
Pedestrian Elements 18-15
D. Existing Conditions 18-15
Transit 18-15
Pedestrian Elements 18-23
E. The Future Without the Proposed Actions—2019 18-25
Conditions for Analysis 18-25
Transit Network 18-27
Pedestrian Elements 18-31
Bicycle Facilities 18-43
The Future Without the Proposed Actions—2017 18-43
F. Probable Impacts of the Proposed Actions—2019 18-45

Conditions for Analysis 18-45
Rezoning and Related Land Use Actions 18-46
Transit Network 18-46
Pedestrian Elements 18-50
Bicycle Facilities 18-54
Probable Impacts of the Proposed Actions—2017 18-54

19: Air Quality and Greenhouse Gas Emissions 19-1
A. Air Quality 19-1
Introduction 19-1
Principal Conclusions 19-1
Applicable Pollutants 19-2
Air Quality Standards and Regulations 19-4
Existing Conditions and Regulatory Setting 19-7
Mobile Source Intersection Analysis 19-9
Analysis of Parking Facilities 19-15
Building HVAC Analysis 19-15
Analysis of Diesel Emissions 19-27
Air Toxics Analysis 19-28
B. Greenhouse Gas Analysis 19-34
Introduction 19-34
Principal Conclusions 19-34
Background 19-35
Methodology 19-39
Probable Emissions from the Proposed Actions 19-44
Project Elements That Would Reduce GHG Emissions 19-49
Conclusion 19-50
C. Consistency With PlaNYC 19-51

20: Noise 20-1
A. Introduction 20-1
Principal Conclusions 20-1
B. Background 20-2
Introduction 20-2
Sensitive Land Uses 20-2
Noise Assessment Standards and Guidelines 20-2
Applicable Noise Codes and Impact Criteria 20-3
C. Methodology 20-6
Mobile Source Assessment 20-6
Stationary Noise Sources 20-7
D. Existing Conditions 20-9
Monitoring Sites 20-9
Monitoring Program 20-9
Measured Noise Levels 20-10
Existing Noise Exposure Classifications 20-13
E. The Future Without the Proposed Actions 20-15
F. Probable Impacts of the Proposed Actions 20-16
Mobile Source Assessment 20-16

Mechanical Systems 20-18
Cumulative Noise Impact Assessment 20-18
Additional Housing Sites: Window Wall Attenuation Requirements 20-20

21: Construction Impacts 21-1
A. Introduction 21-1
Development Site 21-1
Additional Housing Sites 21-2
Principal Conclusions 21-2
B. Methodology 21-5
C. Construction Scenario 21-6
Overview 21-6
Site Preparation 21-14
Demolition 21-15
Excavation 21-17
Construction 21-20
D. The Future Without the Proposed Actions 21-29
E. Probable Impacts of the Proposed Actions 21-30
Land Use 21-30
Neighborhood Character 21-31
Socioeconomic Conditions 21-31
Community Facilities 21-32
Open Space 21-32
Historic Resources 21-33
Traffic 21-34
Transit and Pedestrians 21-38
Air Quality 21-39
Noise 21-47
Vibration 21-57
Natural Resources 21-60
Infrastructure 21-62
Hazardous Materials 21-62

22: Public Health 22-1
A. Introduction 22-1
Principal Conclusions 22-1
B. Methodology 22-1
C. Summary of Air and Noise Pollution Sources from the Proposed Actions 22-2
Construction 22-2
Project Operations 22-3
D. Air Quality Pollutants of Concern and Related Health Effects 22-3
Particulate Matter 22-3
Health Effects Related to Asthma 22-5
E. Air Quality and Noise Regulations and Standards 22-7
Air Quality 22-7
Noise 22-8
F. Determining the Significance of Public Health Impacts 22-8
Air Quality 22-8

Noise 22-9
G. Probable Impacts of the Proposed Actions 22-10
Air Quality 22-10
Noise 22-11
Hazardous Materials 22-12

23: Environmental Justice 23-1
A. Introduction 23-1
Overview 23-1
Principal Conclusions 23-1
B. Methodology 23-2
Delineation of Study Area 23-2
Identify Potential Environmental Justice Areas 23-2
C. Identification of Potential Environmental Justice Areas Within the Study Area 23-3
D. Analysis of Existing Environmental Burdens in the Study Area 23-4
E. Analysis of the Potential for Significant Adverse Impacts in the Study Area 23-5
Community Facilities 23-5
Open Space 23-6
Shadows 23-7
Traffic 23-8
Transit and Pedestrians 23-10
Construction Impacts 23-13
F. Summary of Potential Benefits of the Proposed Actions 23-13
G. Conclusions On Environmental Justice 23-14
H. Public Participation 23-15

24: Mitigation 24-1
A. Introduction 24-1
B. Community Facilities 24-1
Elementary Schools—Scenario Without the PS/IS School 2017 24-1
Child Care 24-1
C. Open Space 24-2
Overview 24-2
Mitigation for Shadows On Open Space 24-2
Indirect Effects Mitigation 24-3
D. Shadows 24-3
E. Traffic 24-3
F. Transit and Pedestrians 24-5
The Future With the Proposed Actions—2019 24-6
The Future With the Proposed Actions—2017 24-11
G. Traffic and Parking Tables 24-15
H. Transit and Pedestrian Tables 24-88

25: Alternatives 25-1
A. Introduction 25-1
Historical Summary of Alternatives Considered 25-1
Principal Conclusions 25-3
B. No Action Alternative 25-6

Description....25-6
Ability to Meet Goals and Objectives of the Proposed Actions....25-7
No Action Alternative Compared With the Proposed Actions....25-7
C. No Unmitigated Significant Adverse Impact Alternative....25-18
Description....25-18
No Unmitigated Significant Adverse Impact Alternative Compared With the Proposed Actions....25-19
D. Reduced Density Alternative....25-21
Description....25-21
Ability to Meet Goals and Objectives of the Proposed Actions....25-25
Reduced Density Alternative Compared With the Proposed Actions....25-26
E. Tri-Generation Energy Supply Alternative....25-44
Description....25-44
Tri-Generation Energy Supply Alternative Compared With the Proposed Actions....25-46

26: Unavoidable Significant Adverse Impacts....26-1
A. Child Care....26-1
B. Open Space....26-1
C. Shadows....26-2
D. Traffic....26-2
E. Pedestrian Conditions....26-3

27: Irreversible and Irretrievable Commitments of Resources....27-1

28: Growth-Inducing Aspects of the Proposed Actions....28-1
A. Introduction....28-1
B. Potential Growth in Off-Site Uses....28-1

APPENDICES (CD-only)

Appendix A....Proposed Zoning Text

Appendix B....Community Facilities
B1 Community Facilities – Correspondence
B2 Hudson Yards FGEIS Updated Public School And Day Care Analysis For 2010 And 2013 Updated On Mitigation Implementation For 2010 Impact On Public Schools And Child Care

Appendix C....Historic Resources – Correspondence

Appendix D....Natural Resources
D1 Natural Resources – References
D2 Natural Resources – Correspondence

Appendix E....Transportation Technical Memos And Analyses
E1 Western Rail Yard Development Plan EIS Transportation Planning Factors

E2 Western Rail Yard 2019 No Build Assumptions: Hudson Yards Transit And Pedestrian Mitigation Measures
E3 Utility Of The Hudson Yards Traffic Mitigation Measures Proposed At Western Rail Yard Study Area Intersections
E4 Western Rail Yard EIS Traffic Assignment Assumptions

Appendix L ..... Con Edison Correspondence

List of Tables

1-1 Anticipated Building Sequencing: Development Site 1-15

2-1 Development Under Construction or Proposed Within ½-Mile of the Development Site Expected to Be Completed in the Future Without the Proposed Actions By 2019 2-8

2-2 Development Under Construction or Proposed Within ½-Mile of the Additional Housing Sites Expected to Be Completed in the Future Without the Proposed Actions By 2019 2-14

2-3 Reasonable Worst-Case Development Scenarios for the Development Site: 2017 . 2-19

2-4 Reasonable Worst-Case Development Scenarios for the Development Site: 2019 . 2-20

2-5 Development Scenario: Additional Housing Sites 2-20

2-6 Reasonable Worst-Case Development Scenarios for the Proposed Actions 2-21

3-1 Maximum Permitted Floor Area Ratio Within Special Hudson Yards Subdistrict A .. 3-19

3-2 Maximum Permitted Floor Area Ratio Within Special Hudson Yards Subdistricts B Through E 3-20

3-3 Zoning Districts Located in the Chelsea Subarea 3-25

4-1 Reasonable Worst-Case Development Scenarios for the Development Site: 2019 ... 4-7

4-2 Additional Housing Sites: Proposed Program 4-7

4-3 Development Site Study Area Employment By Industry in 2000 4-19

4-4 Estimated Commercial Space in Development Site Study Area (Square Feet) 4-25

4-5 Current Asking Rents in Development Site Study Area 4-26

4-6 Citywide Apparel Manufacturing (NAICS 315) 4-35

4-7 Change in Fashion-Related Employment, 2000-2005 4-35

4-8 Population Trends in Development Site Study Area 4-39

4-9 Household and Income Characteristics 4-40

4-10 Housing Characteristics: Occupancy and Tenure 4-41

4-11 Housing Characteristics: Rooms and Rent 4-41

4-12 Residential Developments in Development Site Study Area After 2000 4-42

4-13 Single Room Occupancy (SRO) Units in Development Site Study Area 4-44

4-14 Unprotected Units in the Development Site Study Area 4-46

4-15 Median Household Income for Housing Units By Size of Building Manhattan Community Districts 4 and 5 4-47

4-16 Development Site Study Area Residential Development to Be Completed By 2019 4-49

5-1 Preliminary Screening Analysis Criteria 5-5

5-2 Public Elementary and Intermediate/Middle School Enrollment, Capacity, and Utilization 5-9

5-3 High School Enrollment, Capacity, and Utilization 5-10

5-4 Under Construction and Planned Residential Development by 2019 in Schools Study Area 5-12

5-5 2019 Future Without the Proposed Actions: Estimated Number of Students Introduced By Under Construction and Planned Residential Development 5-13

5-6 Planned Capacity Increases Within the Study Area and CSD 2 5-13

5-7 2019 Future Without the Proposed Actions: Projected Enrollment in Public Schools 5-14

5-8 2019 Future Without the Proposed Actions: Projected Enrollment in Public High Schools 5-14

5-9 2019 Future With the Proposed Actions: Estimated Number of Students Introduced By the Maximum Residential Scenario 5-15

5-10 2019 Future With the Proposed Actions: Estimated Public Elementary/ Middle School Enrollment, Capacity, and Utilization 5-16

5-11 2019 Future With the Proposed Actions: Projected Enrollment in Public High Schools 5-17

5-12 2017 Future With the Proposed Actions: Estimated Number of Students Introduced By the Maximum Residential Scenario 5-18

5-13 2017 Future With the Proposed Actions: Projected Enrollment in Public Schools .5-19

5-14 2017 Future With the Proposed Actions – Scenario Without the PS/IS School Projected Enrollment in Public Schools 5-20

5-15 Library Services 5-22

5-16 Publicly Funded Child Care Facilities in Study Area 5-27

5-17 Hospital and Emergency Rooms Visits 5-31

5-18 Summary of Outpatient Health Care Facilities Facility Type: Clinic 5-31

5-19 Summary of Outpatient Health Care Facilities Facility Type: Freestanding Health Center 5-32

5-20 Summary of Outpatient Health Care Facilities Facility Type: Hospital Attended Health Center 5-32

5-21 Summary of Outpatient Health Care Facilities Facility Type: Intermediate Care Facility 5-32

5-22 Summary of Outpatient Health Care Facilities: Facility Type: Medically Supervised Chemical Dependency Outpatient Service 5-33

5-23 Summary of Outpatient Health Care Facilities Facility Type: Miscellaneous 5-33

5-24 Police Protection Services 5-35

5-25 Fire Protection Services 5-37

6-1 Development Site Study Areas Summary Open Space Ratios, 2017 and 2019 6-3

6-2 Existing Resident and Worker Populations Non-Residential (¼-Mile) Study Area .. 6-8

6-3 Existing Resident and Worker Populations Residential (½-Mile) Study Area 6-9

6-4 Age Distribution of Study Areas 6-9

6-5 Existing Open Space Inventory 6-10

6-6 Existing Conditions: Open Space Ratios and Guidelines 6-12

6-7 Future Without the Proposed Actions: New Open Space Resources 6-14

6-8 Future Without the Proposed Actions—2019: Open Space Ratios and Guidelines . 6-16

6-9 Future With the Proposed Actions—2019: Open Space Ratios and Guidelines 6-21

6-10 Future With the Proposed Actions—2017: Open Space Ratios and Guidelines 6-25

6-11 Existing Resident and Daytime Populations—AHS Study Area 6-27

6-12 Age Distribution of Ahs Study Area 6-28

6-13 Existing Open Space Inventory AHS Study Area 6-28

6-14 Existing Conditions: AHS Study Area Open Space Ratios and Guidelines 6-31

6-15 AHS Study Area Future Without the Proposed Actions—2019: Open Space Ratios and Guidelines 6-33

6-16 Future With the Proposed Actions—2019: Open Space Ratios and Guidelines 6-35

6-17 Future With the Proposed Actions—2017: Open Space Ratios and Guidelines 6-36

7-1 Height of Proposed Buildings Analyzed 7-4

8-1 Architectural Resources Within the Development Site Study Area 8-6

8-2 Architectural Resources Within the Ninth Avenue Site Study Area 8-10

11-1 DEP Water Quality Data for the West 42nd Street Sampling Station (2003–2007) .. 11-16

11-2 Finfish Species With the Potential to Occur in the Hudson River in the Vicinity of the Development Site 11-17

12-1 RCRA Toxicity Characteristic Regulatory Limits 12-6

14-1 Development Site: Existing Water Consumption and Sanitary Sewage 14-6

14-2 Development Site: Existing Site Drainage - Composite Runoff Coefficient 14-10

14-3 Additional Housing Sites: Existing Site Drainage - Composite Runoff Coefficient 14-10

14-4 Development Site: Existing Stormwater and Sanitary Sewage Flow Volumes 14-11

14-5 Additional Housing Sites: Existing Stormwater and Sanitary Sewage Flow Volumes .. 14-12

14-6 Development Site: Proposed Water and Sewage Demand 14-16

14-7 Additional Housing Sites: Proposed Water and Sewage Demands 14-17
14-8 Development Site: Proposed Runoff Coefficient.....14-19
14-9 Development Site: Proposed Stormwater and Sanitary Sewage Flow Volumes 14-20
14-10 Additional Housing Sites: Proposed Stormwater and Sanitary Sewage Flow Volumes .14-21
15-1 DSNY-Managed Solid Wastes (Tons Per Day).....15-5
15-2 Development Site: Generated Solid Waste – Full Build (Pounds Per Week).....15-6
15-3 Additional Housing Sites: Generated Solid Waste – Full Build (Pounds Per Week)15-7
16-1 Development Site: Annual Operational Energy Consumption (BTU/yr).....16-7
16-2 Additional Housing Sites: Annual Operational Energy Consumption (BTU/yr) 16-7
16-3 Development Site: Peak Electrical Seasonal Demand Load.....16-8
16-4 Development Site: Peak Natural Gas Seasonal Demand Load.....16-9
17-1 Roadway Level of Service (LOS) Criteria..... 17-5
17-2 Reasonable Worst-Case Development Scenarios for the Development Site 17-6
17-3 Transportation Planning Assumptions..... 17-7
17-4 Vehicle Trips Generated By Maximum Residential Scenario (Office Option) - 2019 17-10
17-5 Vehicle Trips Generated By Maximum Residential Scenario (Hotel Option) – 2019 17-11
17-6 Vehicle Trips Generated By Maximum Commercial Scenario – 2019 17-12
17-7 Vehicle Trips Generated By Additional Housing Sites 17-13
17-8 Vehicle Trips Generated By Maximum Residential Scenario (Office Option) – 2017 17-14
17-9 Vehicle Trips Generated By Maximum Residential Scenario (Hotel Option) – 2017 17-15
17-10 Vehicle Trips Generated By Maximum Commercial Scenario – 2017 17-16
17-11 Comparison of Peak Hour Vehicle Trips for Development Site Reasonable Worst-Case Development Scenarios..... 17-17
17-12 Number of Intersection Approach Movements at Mid-LOS D, LOS E, or LOS F 17-23
17-13 Existing Conditions Intersection Approach Movements Operating at LOS Mid-D, E or F..... 17-29
17-14 2008 Existing Off-Street Parking Utilization..... 17-31
17-15 2006 to 2008 Accident History 17-32
17-16 2019 Future Without the Proposed Actions Number of Intersection Approach Movements At Mid-LOS D, LOS E, or LOS F 17-36

17-17 2017 Future Without the Proposed Actions Number of Intersection Approach Movements At Mid-LOS D, LOS E, or LOS F.....17-37

17-18 2019 Future Without the Proposed Actions Intersection Approach Movements Operating At LOS Mid-D, E or F.....17-37

17-19 2017 Future Without the Proposed Actions Intersection Approach Movements Operating At LOS Mid-D, E or F.....17-40

17-20 2019 Future Without the Proposed Actions: Off-Street Parking Utilization.....17-44

17-21 2017 Future Without the Proposed Actions: Off-Street Parking Utilization.....17-44

17-22 2019 Future With the Proposed Actions: Number of Intersection Approach Movements At Mid-LOS D, LOS E or LOS F.....17-47

17-23 2017 Future With the Proposed Actions: Number of Intersection Approach Movements At Mid-LOS D, LOS E or LOS F.....17-47

17-24 2017 and 2019 Future With the Proposed Actions: Number of Significantly Impacted Approach Movements 17-48

17-25a 2019 Future With the Proposed Actions: Weekday AM Peak Hour Intersection Approach Movements Operating at LOS Mid-D, E, or F 17-50

17-25b 2019 Future With the Proposed Actions: Weekday Midday Peak Hour Intersection Approach Movements Operating at LOS Mid-D, E, or F 17-54

17-25c 2019 Future With the Proposed Actions: Weekday PM Peak Hour Intersection Approach Movements Operating at LOS Mid-D, E, or F 17-57

17-25d 2019 Future With the Proposed Actions: Saturday Midday Peak Hour Intersection Approach Movements Operating at LOS Mid-D, E, or F 17-62

17-26a 2017 Future With the Proposed Actions: Weekday AM Peak Hour Intersection Approach Movements Operating at LOS Mid-D, E, or F 17-66

17-26b 2017 Future With the Proposed Actions: Weekday Midday Peak Hour Intersection Approach Movements Operating at LOS Mid-D, E, or F 17-70

17-26c 2017 Future With the Proposed Actions: Weekday PM Peak Hour Intersection Approach Movements Operating at LOS Mid-D, E, or F 17-73

17-26d 2017 Future With the Proposed Actions: Saturday Midday Peak Hour Intersection Approach Movements Operating at LOS Mid-D, E, or F 17-77

17-27 2019 Future With the Proposed Actions: Off-Street Parking Utilization.....17-79

18-1 LOS Criteria for Stairways.....18-7

18-2 Escalator Capacity.....18-7

18-3 Subway Car Guideline Capacity 18-8

18-4 LOS for Criteria for Sidewalk, Crosswalk, and Corner Area Conditions* 18-9

18-5 2019 Future Peak Hour Person Trips – Generated By Development Site.....18-10

18-6 Subway and Railroad Trip Assignment.....18-11

18-7 Bus Trip Assignment 18-11

18-8 2019 Future Peak Hour Person Trips – Generated By Ninth Avenue Site 18-12

18-9 2019 Future Peak Hour Person Trips – Generated By Tenth Avenue Site 18-12

18-10 Existing Subway Line Haul Conditions (Flushing Line) 18-16

18-11 Existing Conditions: Subway Station Elements Operating Above Capacity 18-17

18-13 Existing Bus Operating Conditions 18-22

18-14 Existing Sidewalk Conditions – LOS D or Worse 18-22

18-15 Existing Crosswalk Conditions – LOS D or Worse 18-24

18-16 Existing Corner Conditions – LOS D or Worse 18-24

18-17 2019 Future Without the Proposed Actions: Line Haul Conditions: AM Peak Hour (Manhattan-Bound) (Flushing Line) 18-28

18-20 2019 Future Without the Proposed Actions: Bus Operating Conditions 18-31

18-21 2019 Future Without the Proposed Actions: Pedestrian Conditions – LOS D or Worse 18-32

18-22 2019 Future Without the Proposed Actions: Sidewalk Conditions – LOS D or Worse 18-33

18-23 2019 Future Without the Proposed Actions: Crosswalk Conditions – LOS D or Worse 18-36

18-24 2019 Future Without the Proposed Actions: Corner Conditions – LOS D or Worse 18-40

18-25a 2019 and 2017 Pedestrian LOS Comparison Future Without the Proposed Actions Sidewalk Los 18-45

18-25b Future Without the Proposed Actions Crosswalk LOS 18-45

18-25c Future Without the Proposed Actions Corner LOS 18-45

18-26 2019 Future With the Proposed Actions: Subway Line Haul Conditions (Flushing Line) 18-47

18-27 2019 Future With the Proposed Actions: Affected Subway Station Elements 18-48

18-28 2019 Future With the Proposed Actions: Bus Operating Conditions 18-50

18-29 2019 Future With the Proposed Actions: Number of Locations With Significant Adverse Impacts 18-51

18-30 2019 Future With the Proposed Actions: Sidewalks Conditions: Locations With Significant Adverse Impacts 18-51

18-31 2019 Future With the Proposed Actions: Crosswalk Conditions: Locations With Significant Adverse Impacts 18-52

18-32 2019 Future With the Proposed Actions: Corner Conditions: Locations With Significant Adverse Impacts 18-53

18-33 2019 and 2017 Pedestrian Impact Comparison Number of Locations With Significant Adverse Impacts 18-55

18-34 2017 Future With the Proposed Actions: Sidewalks Conditions: Locations With Significant Adverse Impacts 18-56

18-35 2017 Future With the Proposed Actions: Crosswalk Conditions: Locations With Significant Adverse Impacts 18-57

18-36 2017 Future With the Proposed Actions: Corner Conditions: Locations With Significant Adverse Impacts 18-58

19-1 Applicable National and State Ambient Air Quality Standards and State and Local Significant Threshold Values (STVs) 19-5

19-2 Representative Ambient Air Quality Data (2007) 19-8

19-3 Background Concentrations 19-8

19-4 Carbon Monoxide Analysis Sites 19-9

19-5 2008 Existing Conditions Maximum Estimated Pollutant Levels 19-12

19-6 2019 Future Without the Proposed Actions Maximum Estimated Pollutant Levels 19-13

19-7 2019 Future With and Without the Proposed Actions Maximum Estimated Pollutant Levels 19-14

19-8 2019 Future With the Proposed Actions Maximum Estimated $PM_{2.5}$ Increments ($\mu g/m^3$) 19-14

19-9 Buildings Heights and Sizes Under Each Development Scenario 19-17

19-10 Pollutant Emission Rates (Grams/Sec) With Fuel Oil and Natural Gas 19-19

19-11 Stack Locations and Restrictions 19-21

19-12 Maximum Estimated Building-On-Building HVAC Increments and Concentrations ($\mu g/m^3$) 19-21

19-13 Maximum Estimated Building-On-Building HVAC Increments for $PM_{2.5}$ ($\mu g/m^3$) 19-22

19-14 Maximum Estimated HVAC Increments ($\mu g/m^3$) On Existing and Future No Build Land Uses 19-23

19-15 Maximum Estimated HVAC Increments for $PM_{2.5}$ ($\mu g/m^3$) On Existing and Future No Build Land Uses 19-23

19-16 Stack, Building Parameters, and Pollutant Emission Rates of Future No Build Developments 19-25

19- 17 Maximum Estimated Increments ($\mu g/m^3$) of Existing and Future No Build Buildings on the Proposed Development Site Buildings 19-26

19-18 Maximum Estimated Increments for $PM_{2.5}$ ($\mu g/m^3$) of Existing and Future No Build Land Uses on the Proposed Development Site Buildings 19-26

19-19 Analysis of the Non-Carcinogenic Toxic Pollutants at Development Site and Additional Housing Sites 19-33

19-20 Analysis of the Carcinogenic Toxic Pollutants At Additional Housing Sites..... 19-33

19b-1 Global Warming Potential (GWP) for Major GHGs 19-39

19b-2 GHG Emissions from HVAC Systems Development Site Maximum Commercial Scenario: 2019..... 19-44

19b-3 GHG Emissions from HVAC Systems Additional Housing Sites: 2019..... 19-45

19b-4 Off-Site GHG Emissions from Electricity Development Site Maximum Commercial Scenario: 2019..... 19-45

19b-5 GHG Emissions from Electricity Additional Housing Sites: 2019..... 19-45

19b-6 Off-Site GHG Emissions from Vehicle Use Development Site Maximum Commercial Scenario: 2019..... 19-46

19b-7 GHG Emissions from Vehicle Use Additional Housing Sites: 2019..... 19-46

19b-8 Off-Site GHG Emissions from Solid Waste Development Site Maximum Commercial Scenario: 2019..... 19-46

19b-9 Off-Site GHG Emissions from Solid Waste Additional Housing Sites: 2019..... 19-47

19b-10 GHG Emissions from Construction Activity Development Site Maximum Commercial Scenario: 2011-2019..... 19-47

19b-11 GHG Emissions from the Manufacture of Steel and Concrete 19-47

19b-12 Summary of Annual GHG Emissions (Metric Tons CO_2e Per Year) 19-48

20-1 Average Ability to Perceive Changes in Noise Levels 20-3

20-2 ISO Community Response to Increases in Noise Levels.....20-3

20-3 New York City Noise Codes.....20-4

20-4 Noise Exposure Guidelines for Use in City Environmental Impact Quality Review ...20-5

20-5 CEQR Exterior Noise Standards and Attenuation Values 20-5

20-6 Noise Monitoring Locations and Adjacent Land Use.....20-10

20-7 Measured Hourly Noise Levels (L_{eq}) in dBA and Highest Hour L_{eq} 20-11

20-8 Measured Hourly Noise Levels (L_{10}) in dBA and Highest L_{10} 20-11

20-9 Measured Hourly Percentile and L_{eq} Noise Levels in dBA 20-12

20-10 Measured Twenty-Four Hour Noise Percentile and L_{eq} Levels in dBA at Site 7 ...20-13

20-11 Existing Noise Exposure At Noise Receptor Locations 20-14

20-12 2019 Future Noise Levels Without the Proposed Actions (in dBA).....20-15

20-13 2019 Future Noise Levels With the Proposed Action (in dBA) 20-17

20-14 Development Site: Building Window Wall Attenuation Specifications in Compliance With CEQR Interior Space Requirements for 2019 (in dBA) 20-19

20-15 Additional Housing Sites: Building Attenuation Requirements 20-20

21-31 Vibration Source Levels for Construction Equipment....21-58

21-32 Construction Equipment Vibration Critical Distances for High Line....21-59

22-1 1997 and 2005 hospitalization rates per 1,000 persons (aged 0 to 14 years)....22-7

23-1 Study Area Population and Economic Characteristics....23-4

24-1 2019 Future With the Proposed Actions: Summary of Movements/Intersections With Significant Adverse Impacts 24-15

24-2 2017 Future With the Proposed Actions: Summary of Movements/Intersections With Significant Adverse Impacts 24-15

24-3 2016 Construction Conditions: Summary of Movements/Intersections With Significant Adverse Impacts 24-15

24-4a 2019 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday AM Peak Hour) Signalized Intersections.. 24-16

24-4b 2019 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday AM Peak Hour) Unsignalized Intersections 24-20

24-4c 2019 Future With the Proposed Actions: Proposed Mitigation Measures (Weekday AM Peak Hour).... 24-21

24-5a 2019 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday Midday Peak Hour) Signalized Intersections 24-26

24-5b 2019 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday Midday Peak Hour) Unsignalized Intersections 24-30

24-5c 2019 Future With the Proposed Actions: Proposed Mitigation Measures (Weekday Midday Peak Hour).... 24-30

24-6a 2019 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday PM Peak Hour) Signalized Intersections..... 24-34

24-6b 2019 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday PM Peak Hour) Unsignalized Intersections 24-39

24-6c 2019 Future With the Proposed Actions: Proposed Mitigation Measures (Weekday PM Peak Hour) 24-39

24-7a 2019 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Saturday Midday Peak Hour) Signalized Intersections 24-44

24-7b 2019 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Saturday Midday Peak Hour) Unsignalized Intersections 24-47

24-7c 2019 Future With the Proposed Actions: Proposed Mitigation Measures (Saturday Midday Peak Hour).... 24-47

24-8a 2017 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday AM Peak Hour) Signalized Intersections..24-50

24-8b 2017 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday AM Peak Hour) Unsignalized Intersections24-54

24-8c 2017 Future With the Proposed Actions: Proposed Mitigation Measures (Weekday AM Peak Hour) 24-54

24-9a 2017 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday Midday Peak Hour) Signalized Intersections.24-58

24-9b 2017 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday Midday Peak Hour) Unsignalized Intersections 24-61

24-9c 2017 Future With the Proposed Actions: Proposed Mitigation Measures (Weekday Midday Peak Hour) 24-62

24-10a 2017 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday PM Peak Hour) Signalized Intersections...24-66

24-10b 2017 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Weekday PM Peak Hour) Unsignalized Intersections 24-71

24-10c 2017 Future With the Proposed Actions: Proposed Mitigation Measures (Weekday PM Peak Hour).....24-71

24-11a 2017 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Saturday Midday Peak Hour) Signalized Intersections 24-76

24-11b 2017 Future With the Proposed Actions: Approach Movement Operations With and Without Proposed Mitigation (Saturday Midday Peak Hour) Unsignalized Intersections 24-79

24-11c 2017 Future With the Proposed Actions: Proposed Mitigation Measures (Saturday Midday Peak Hour) 24-79

24-12a 2016 Construction Condition: Approach Movement Operations With and Without Proposed Mitigation (Weekday AM Peak Hour) 24-82

24-12b 2016 Construction Condition: Proposed Mitigation Measures (Weekday AM Peak Hour) 24-83

24-13a 2016 Construction Condition: Approach Movement Operations With and Without Proposed Mitigation (Weekday Midday Peak Hour) 24-84

24-13b 2016 Construction Condition: Proposed Mitigation Measures (Weekday Midday Peak Hour) 24-85

24-14a 2016 Construction Condition: Approach Movement Operations With and Without Proposed Mitigation (Weekday PM Peak Hour).....24-86

24-14b 2016 Construction Condition: Proposed Mitigation Measures (Weekday PM Peak Hour) 24-87

24-15 2019 Future With the Proposed Actions: Bus Operating Conditions 24-88

24-16 2019 Future With the Proposed Actions: Summary of Pedestrian Element Locations With Significant Adverse Impacts 24-88

24-17 2019 Future With the Proposed Actions: Sidewalk Conditions – Locations With Significant Adverse Impacts With Mitigation 24-89

24-18 2019 Future With the Proposed Actions: Crosswalk Conditions – Locations With Significant Adverse Impacts With Mitigation 24-90

24-19 2019 Future With the Proposed Actions: Corner Conditions – Locations With Significant Adverse Impacts With Mitigation 24-92

24-20 Additional Buses Needed for Proposed Actions: 2017 and 2019 24-95

24-21 2017 Future With the Proposed Actions: Summary of Pedestrian Element Locations With Significant Adverse Impacts 24-95

24-22 2017 Future With the Proposed Actions: Sidewalk Conditions – Locations With Significant Adverse Impacts With Mitigation 24-96

24-24 2017 Future With the Proposed Actions: Corner Conditions – Locations With Significant Adverse Impacts With Mitigation 24-98

25-1 Comparison of Estimated Public Elementary/Middle School Utilization, 2019 No Action Alternative and Proposed Actions 25-10

25-2 Comparison of Adequacy of Open Space Resources No Action Alternative and Proposed Actions, 2019 25-11

25-3 2019 No Action Alternative and Proposed Actions Number of Intersection Approach Movements at Mid-LOS D, LOS E or LOS F 25-15

25-4 2019 Off-Street Parking Utilization No Action Alternative and Proposed Actions (Maximum Residential Scenario-Hotel Option) 25-15

25-5 Additional Buses Needed for the Proposed Actions 25-16

25-6 2019 Future With the Proposed Actions: Number of Pedestrian Element Locations With Significant Adverse Impacts 25-17

25-7 Development Site Maximum Residential Scenario: Comparison of the Reduced Density Alternative and the Proposed Actions 25-23

25-8 Development Site Maximum Commercial Scenario: Comparison of the Reduced Density Alternative and the Proposed Actions 25-23

25-9 Development Site Approximate Building Heights: Comparison of the Reduced Density Alternative and the Proposed Actions 25-24

25-10 Comparison of Estimated Public Elementary/Middle School Utilization, 2019 Reduced Density Alternative and Proposed Actions 25-29

25-11 Comparison of Adequacy of Open Space Resources Reduced Density Alternative Compared With the Proposed Actions, 2019 25-30

25-12 Vehicle Trip Generation Comparison—Reduced Density Alternative vs. The Proposed Actions, 2019 25-37

25-13 Number of Intersections and Approaches With Significant Adverse Traffic Impacts Comparison of Reduced Density Alternative and Proposed Actions, 2019.....25-37

25-14 Off-Street Parking Requirements, 2019 Reduced Density Alternative Compared to the Proposed Actions.....25-38

25-15 Additional Buses Needed to Meet Demands, Reduced Density Alternative Compared to the Proposed Actions in 2019.....25-38

25-16 Number of Locations With Unmitigated Significant Adverse Pedestrian Impacts, Reduced Density Alternative Compared to the Proposed Actions.....25-39

25-17 Reduced Density Alternative: Buildings Heights and Sizes Assumed for Each Development Scenario 25-40

25-18 Reduced Density Alternative: Pollutant Emission Rates With Fuel Oil and Natural Gas.....25-41

25-19 Maximum Estimated Building-On-Building HVAC Increments and Concentrations ($\mu g/m^3$) for the Reduced Density Alternative.....25-42

25-20 Maximum Estimated Building-On-Building HVAC Increments for $PM_{2.5}$ ($\mu g/m^3$) for the Reduced Density Alternative.....25-42

25-21 Tri-Generation Alternative: PM_{10}, SO_2, and NO_2 Emission Rates Under (Grams/Sec) 25-48

25-22 Tri-Generation Alternative: $PM_{2.5}$ Emission Rates Estimated for Each Proposed Building (Grams/Sec).....25-49

25-23 Maximum Estimated Building-On-Building HVAC Increments and Concentrations ($\mu g/m^3$) for the Tri-Generation Alternative 25-50

25-24 Maximum Estimated Building-On-Building HVAC Increments for $PM_{2.5}$ ($\mu g/m^3$) for the Tri-Generation Alternative 25-50

25-25 Maximum Estimated HVAC Increments ($\mu g/m^3$) On Existing and Future No Build Land Uses for the Tri-Generation Alternative.....25-51

25-26 Maximum Estimated HVAC Increments for $PM_{2.5}$ ($\mu g/m^3$) On Existing and Future No Build Land Uses 25-51
