Racial equity report on housing and opportunity

Project name: 703 Myrtle Avenue Rezoning

Contact: Maxim Gladkiy, maxim.galdkiy@equityenvironmental.com

Prepared by: GZA GeoEnvironmental, Inc. Date: 2/21/2023

Note: Racial equity reports are prepared prior to the certification of the subject application by the City Planning Commission (CPC). A description of the final adopted application is available in the associated CPC report.

APPLICATION TYPE

Applications that meet one or more of the following criteria are subject to the racial equity report requirement. Please select all relevant criteria:

☐ Text amendment to the zoning resolution affecting 5 or more community districts

☐ Historic district designation affecting 4 or more city blocks

☐ Seeking a change to the use regulations or permitted floor area for any use in a manufacturing district where a building in the project contains at least 100,000 square feet of floor area

Applications submitted pursuant to subdivision a of section 197-c of the charter that seek approval for:

☐ Acquisition or disposition of land to facilitate a non-residential project containing at least 50,000 square feet of floor area

☐ Acquisition or disposition of land to facilitate a residential project, other than a residential project consisting of a building to be preserved, provided that such equity report shall only be required related to a building in such project containing at least 50,000 square feet of floor area

☑ An increase in permitted residential floor area of at least 50,000 square feet

☐ An increase in permitted non-residential floor area of at least 200,000 square feet

☐ A decrease in permitted floor area or number of housing units on at least four contiguous city blocks

If the application meets the above criteria but the proposed development does not, please explain the difference between the proposed development and the application.

Section 1: Executive summary

Provide a short, plain-language summary of the subsequent sections of the racial equity report, including major project elements and key neighborhood and demographic conditions.

The Proposed Development would be located in the Bedford-Stuyvesant neighborhood of Brooklyn, Community District 3 (PUMA 4003).

The Proposed Project consists of the development of Block 1735, Lot 39 with a new 8-story, 95'-6" mixed-use building with a total floor area of 66,884 gross square feet (GSF) (48,224 zoning square feet – "ZSF"; 5.60 FAR) mixed-use residential building with ground floor commercial space. The proposed development would include approximately 52,405 GSF; 43,755 ZSF; 5.08 FAR of residential floor area, 4,805 GSF; 4,469 ZSF; 0.52 FAR of ground floor commercial space and 9,674 GSF of parking with 11 off-street parking spaces in the proposed 8,064 GSF cellar. The Proposed Development would contain 54 dwelling units, 25-30% (14-16 units) of which would be affordable pursuant to Mandatory Inclusionary Housing (MIH) at an average of 60-80% AMI (Area Median Income) depending on the Option selected. The Applicant intends to pursue MIH Option 2, which would result in 18 affordable units to be set aside for families making 80% of the AMI.

As of 2020, the total population of PUMA 4003 was 153,236 people, of which 4% of population were Asian, 40% identified as Black, 19% were Hispanic, 31% were White, and 6% identified as other race or combination of races. For 2015-2019, the estimated median household income in PUMA 4003 was approximately $53,646, below the borough ($60,704) and city ($64,519) rates. An estimated 27 to 31% of households were extremely low-income (0-30% AMI), 13 to 15% were very low-income (31-50% AMI), and 13 to 16% were low-income (51-80% AMI). From 2010 to 2020, PUMA 4003 experienced an 11% increase in housing units, whereas the population in the district grew by 14%, which indicates that the recent housing production was not keeping up with the growing demand. In 2015-2019, an estimated median price of rental units in PUMA 4003 was around $1,388, below the borough ($1,444) and city ($1,457) rates. An estimated 54% of households were rent-burdened (30% of income spent on rent) and 28% were severely rent-burdened (50% of income spent on rent). The project is located in the area with a "higher" displacement risk level. As population has grown in the neighborhood, the share of Black residents has decreased by 24% and the share of Asian residents has increased by 147%.

The Proposed Development meets several goals of the City's plan to affirmatively further fair housing and promote equitable access to opportunity. The Project would contribute to equitable housing development in New York City and the region by producing new income restricted housing units (Goal 2 of Where We Live), help preserve affordable housing and prevent displacement of long-standing residents (Goal 3 of Where We Live), and create more independent and integrated living options for people with disabilities (Goal 5 of Where We Live).

Section 2: Project specific information

Before completing Section 2, please review the racial equity report submission guide.

2.1 Description of residential space and affordability

2.1.1 Reporting residential floor area

Total residential zoning square feet: 43,755

2.1.2 Profile of anticipated residential affordability

Report the number of anticipated housing units. Describe the expected rents or prices for all proposed housing units.

Income Restriction	Units		Anticipated Affordability				
			AMI Band	Rent (2022)*		Eligible Income (2022) **	
	#	%		1-bedroom	2-bedroom	1-person HH	4-person HH
Low Income	6	11%	60%	$1,500	$1,800	$56,000	$80,000
Low Income	6	11%	80%	$2,000	$2,400	$74,700	$106,700
Moderate Income	6	11%	100%	$2,500	$3,000	$93,400	$133,400
Not Income Restricted	36	67%	N/A	$3,440	$4,080	$137,700	$163,000
Total	54	100%					

*Rents are based on unit size. Rents shown are illustrative (based on [2022] AMI, rounded to the nearest $10) and will change. Final rents will be determined based on the HUD Income Limits in place at time of project construction.

**Qualifying incomes are based on household size. Incomes shown are illustrative (based on [2022] AMI, rounded to the nearest $100) and will change. Final qualifying incomes will be determined by the HUD Income Limits in place at time of project marketing.

Provide additional details below as needed. If applicable, report the proposed Mandatory Inclusionary Housing option. If applicable, describe any affordable housing financing programs.

The Proposed Project consists of the development of Block 1735, Lot 39 with a new 8-story, 95'-6" mixed-use building with a total floor area of 66,884 gross square feet (GSF) (48,224 zoning square feet – "ZSF"; 5.60 FAR) mixed-use residential building with ground floor commercial space. The proposed development would include approximately 52,405 GSF; 43,755 ZSF; 5.08 FAR of residential floor area, 4,805 GSF; 4,469 ZSF; 0.52 FAR of ground floor commercial space and 9,674 GSF of parking with 11 off-street parking spaces in the proposed 8,064 GSF cellar. The Proposed Development would contain 54 dwelling units with 18 affordable units under MIH option 2 (80% of the AMI). Under MIH Option 1, the Applicant would provide 6 dwelling units (DUs) at 60% AMI (Low Income), 6 dwelling units (DUs) at 80% AMI (Low Income), and 6 DUs at 100% AMI (Moderate Income).

(2.1.2 continued)

The proposed development would include 8 one-bedroom affordable units, 6 two-bedroom affordable units, 2 three-bedroom affordable units, and 2 four-bedroom affordable units. The affordable monthly rents as well as eligible household incomes are described in the Table above. The residential affordability table above includes one-bedroom and two-bedroom units as the most representative mix of the affordable residential units provided as part of the Proposed project. As such, eligible household sizes would range from as few as 1 person for a one-bedroom unit to as many as 4 persons for a two-bedroom unit. For units not subject to income restrictions, estimated rental prices are based on the current area market rents (third quartile) and assumed to represent 30% of the household income.

2.2 Description of non-residential space and jobs

Report building area and job sector details for specific non-residential uses. Specific non-residential uses are those where a space is being built for the use of a specific tenant or business. This might be an anchor tenant that is only occupying a portion of the proposed space, or it might be that the applicant is seeking the proposed action to build for their own use.

If the proposal includes non-residential space but no specific tenants or businesses, do not complete this section. General non-residential space can be discussed in Section 4.

2.2.1 Reporting non-residential floor area

Total non-residential zoning square feet:

Non-residential zoning square feet to be occupied by unknown tenants:

Non-residential zoning square feet to be occupied by known tenants:

2.2.2 Profile of anticipated new jobs for non-residential space with a known tenant

If the application proposes specific non-residential uses, report the projected number of permanent jobs in each sector. Specific non-residential uses are those where there is a known tenant for the space.

In cases where there is not a known tenant, do not report the projected number of jobs or the characteristics of the potential sectors. Without a specific tenant/business, future industry sectors cannot be known and therefore all wage and workforce reporting would be speculative.

Sector (name and NAICS code)	Job count
Total	0

For each sector, use most recent available data to describe the educational attainment and racial/ethnic composition of the workforce and median wages for those sectors in New York City.

(2.2.2 continued)

2.3 Estimating construction jobs

Report anticipated construction jobs in both person-years and average yearly workers for each development site.

Development site	Person-years	Average yearly workers
Projected Development Site 1	126	84
Totals	126	84

Section 3: Community Profile Summary

The community profile summary provides a graphic snapshot of household, housing, and neighborhood indicators from the Equitable Development Data Explorer for the relevant Community District[1]. Data tables and sources can be found in the full community profile (Section 5 of this report.)

[1] The EDDE reports data by Public Use Microdata Areas (PUMA), statistical areas defined by the U.S. Census. PUMAs in New York City generally approximate Community Districts. Displaying the data at the PUMA scale enables data reporting broken down by race and ethnicity.

NYC PLANNING

Community Profile Summary

Bedford-Stuyvesant

(PUMA 4003, approximately Brooklyn CD 3)

Each figure includes a description and a sample interpretive sentence. Data is sourced from the U.S. Census, the American Community Survey, and the NYC Housing and Vacancy Survey. For more detailed data sourcing, see the associated source table in the Equitable Development Data Explorer, available here.

Demographic Conditions

Figure 1: Race & Ethnicity, 2020

Shows the share of area population by mutually exclusive race and Hispanic ethnicity. Compares the local area to the borough and city.

"In 2020, [percent] of the population in [area] identified as [race/ethnicity]."

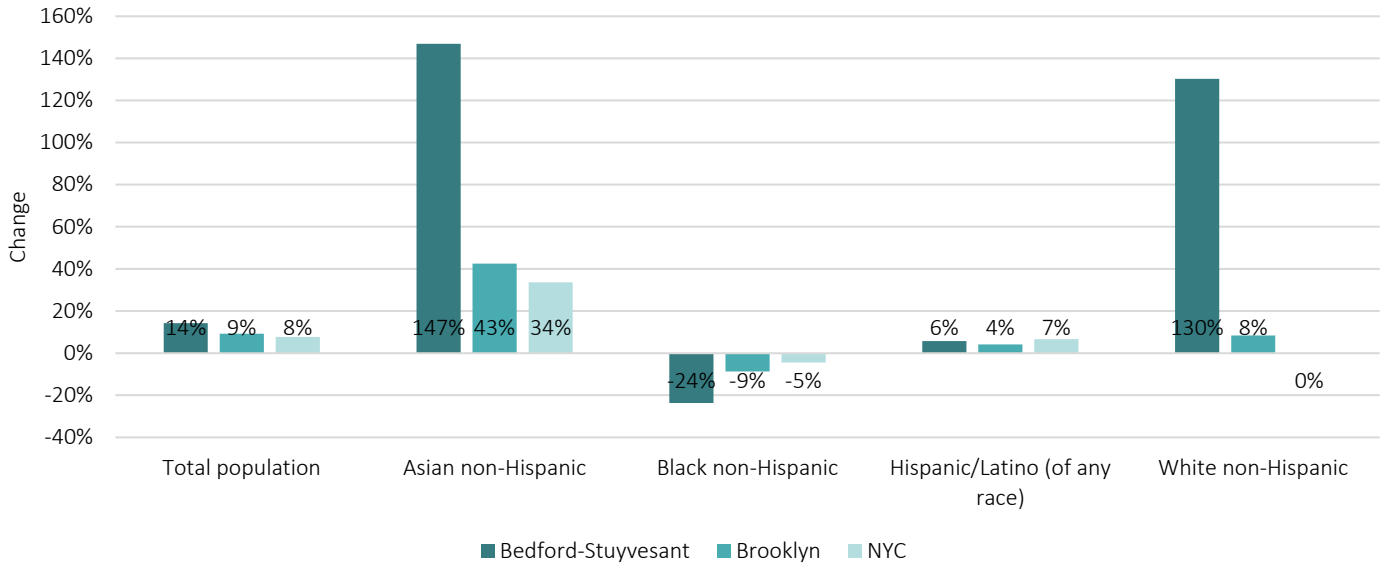

Source: Census 2020; Community Profile Table 1.01

Figure 2: Percent Change in Race & Ethnicity, 2010 to 2020

Shows the percent change of the area population by mutually exclusive race and Hispanic ethnicity. Compares the local area to the borough and city.

"From 2010 to 2020, the [race/ethnicity] population in [area] increased/decreased by [percent]."

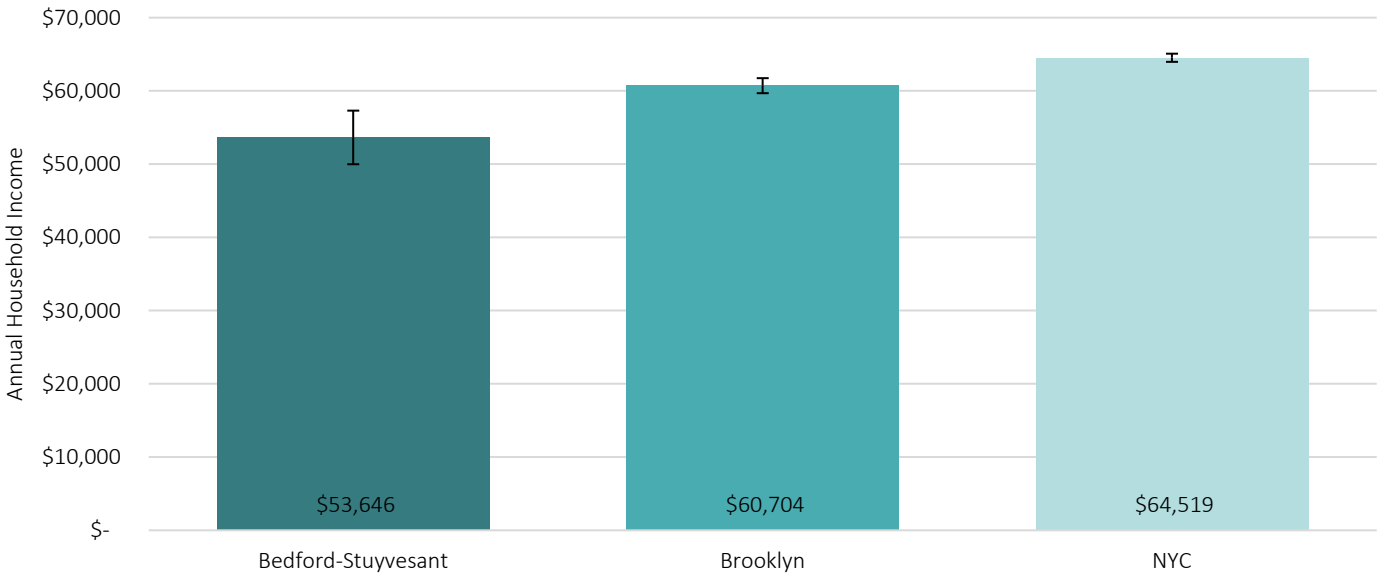

Source: Census 2010, 2020; Community Profile Table 1.01

Household Economic Security – Income

Figure 3: Median Household Income, 2015-2019 (Five-Year Estimate)

Shows the estimated median household income (in 2019 dollars) for the local area, borough, and city. Median means half of all households in the area make more than this amount and half make less. Compares the local area to the borough and city.

"For 2015-2019, the estimated median household income in [area] was [$]."

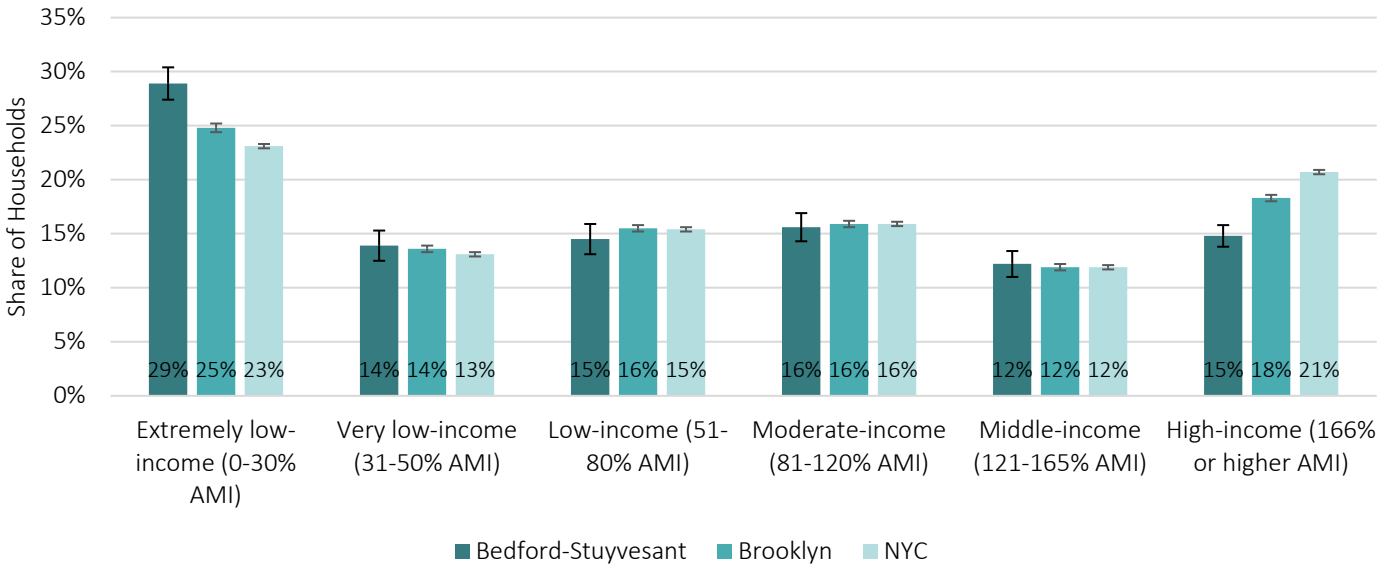

Source: American Community Survey 2015-2019; Community Profile Table 2.02

Figure 4: Share of Households in Each HUD AMI Band, 2015-2019 (Five-Year Estimate)

Shows the share of households within each 2017 U.S. Housing and Urban Development (HUD) Area Median Income (AMI) band. Compares the local area to the borough and city. U.S. Housing and Urban Development (HUD) Area Median Income (AMI) is based on rental prices.

"For 2015-2019, an estimated [percent] of households in [area] were in [HUD AMI band]."

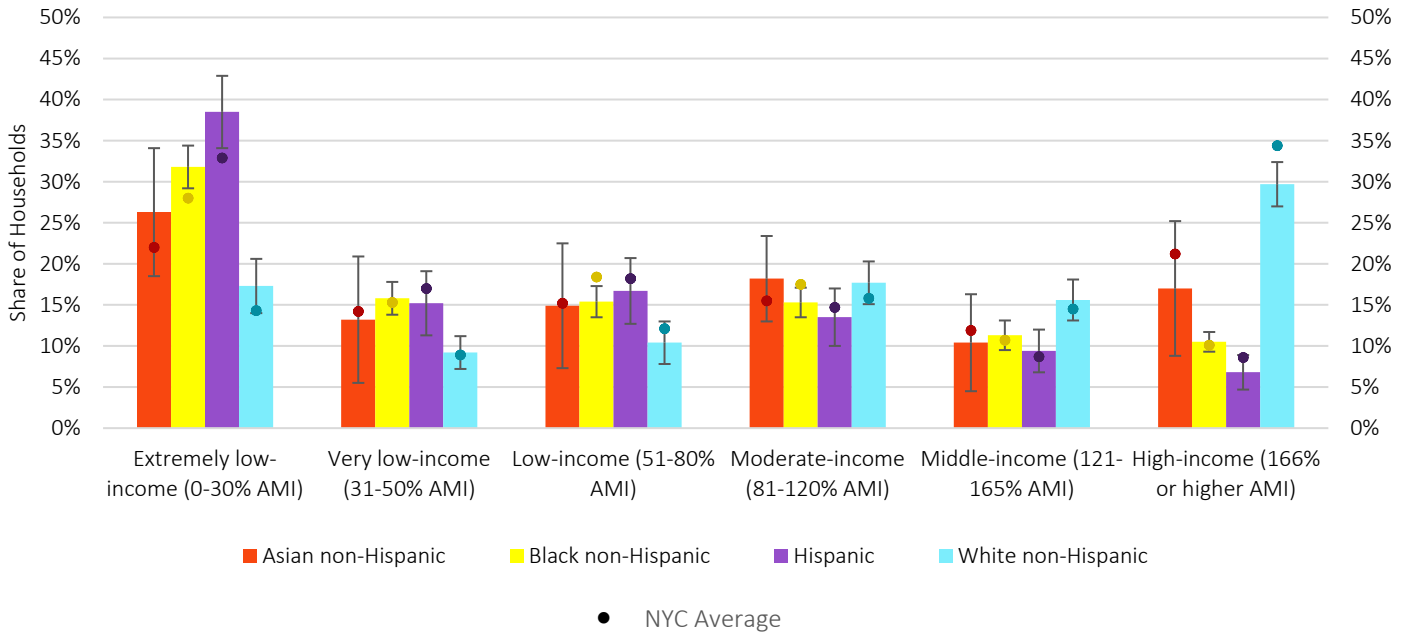

Source: American Community Survey 2015-2019; Community Profile Table 2.03

Figure 5: Share of Households in Each HUD AMI Band by Race & Ethnicity, 2015-2019 (Five-Year Estimate)

Shows the share of PUMA households within each 2017 U.S. Housing and Urban Development (HUD) Area Median Income (AMI) band, by mutually exclusive race & Hispanic ethnicity of householder. HUD AMI bands are used to determine eligibility for income-restricted housing.

"In the local area, an estimated [percent] of [race/ethnicity] households were in [HUD AMI band] in 2015-2019."

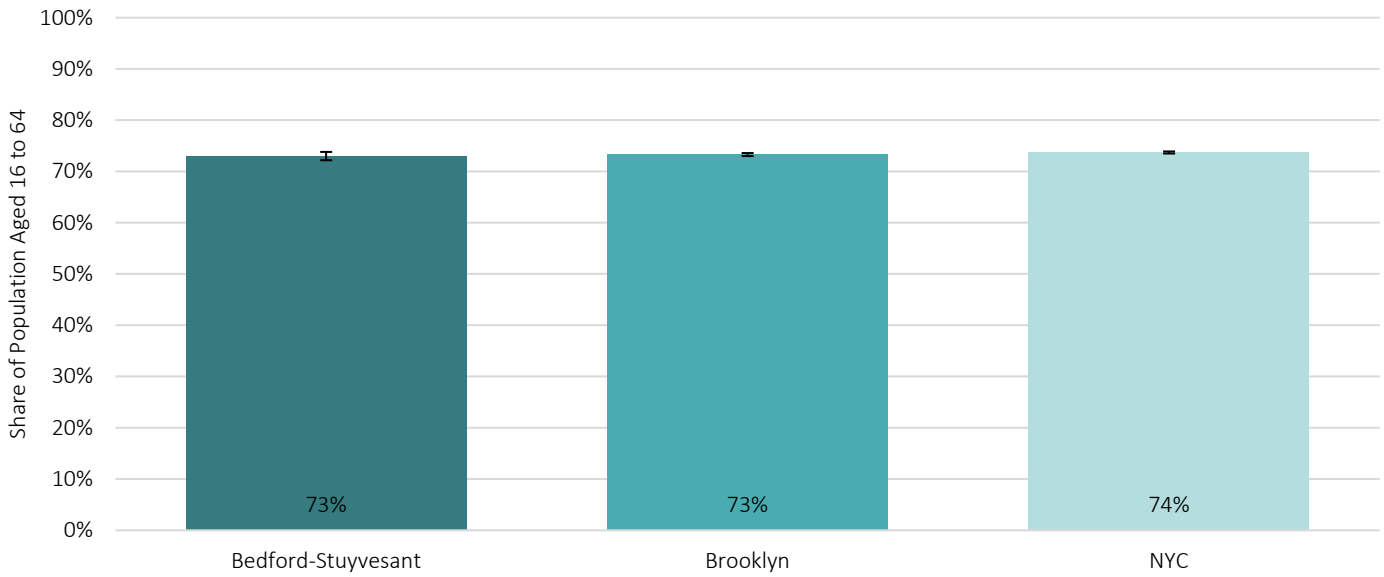

Source: American Community Survey 2015-2019; Community Profile Table 2.03

Household Economic Security – Jobs

Figure 6: Labor Force Participation, 2015-2019 (Five-Year Estimate)

Shows the share of the total population aged 16-64 who is employed or seeking work. Compares the local area to the borough and city.

"In 2015-2019, an estimated [percent] in [area] were employed or seeking work."

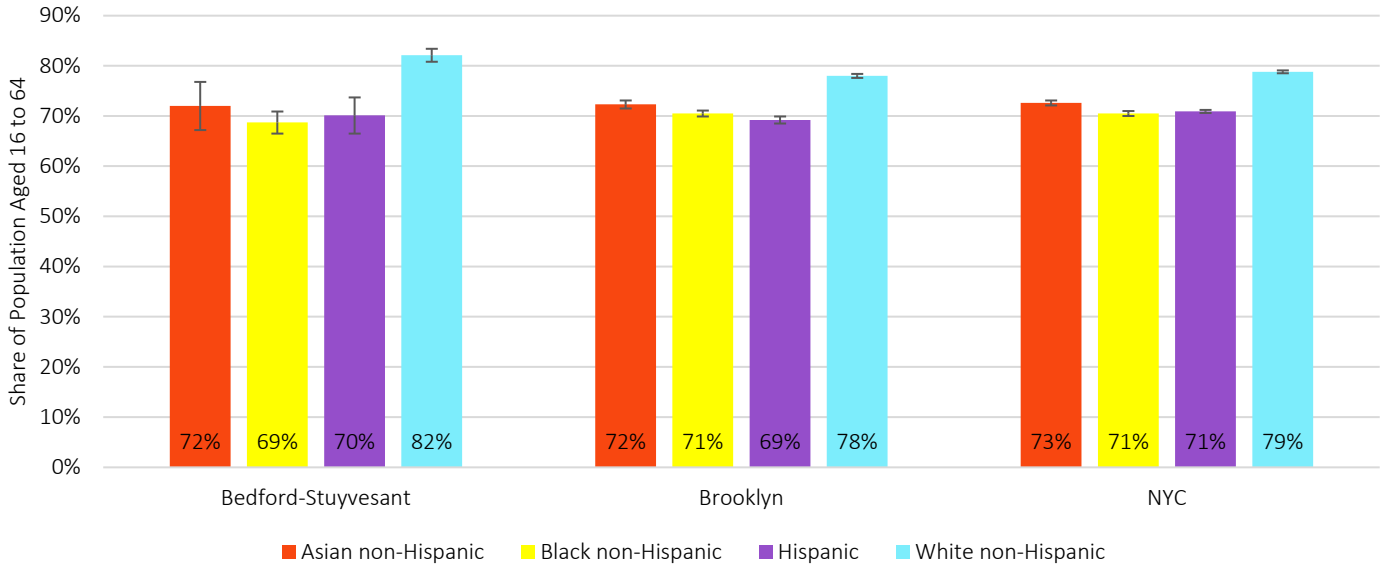

Source: American Community Survey 2015-2019; Community Profile Table 2.04

Figure 7: Labor Force Participation by Race & Ethnicity, 2015-2019 (Five-Year Estimate)

Shows the share of the total population aged 16-64 who is employed or seeking work, by mutually exclusive race & Hispanic ethnicity. Compares the local area to the borough and city.

"In 2015-2019, an estimated [percent] of [race/ethnicity] group in [area] were employed or seeking work."

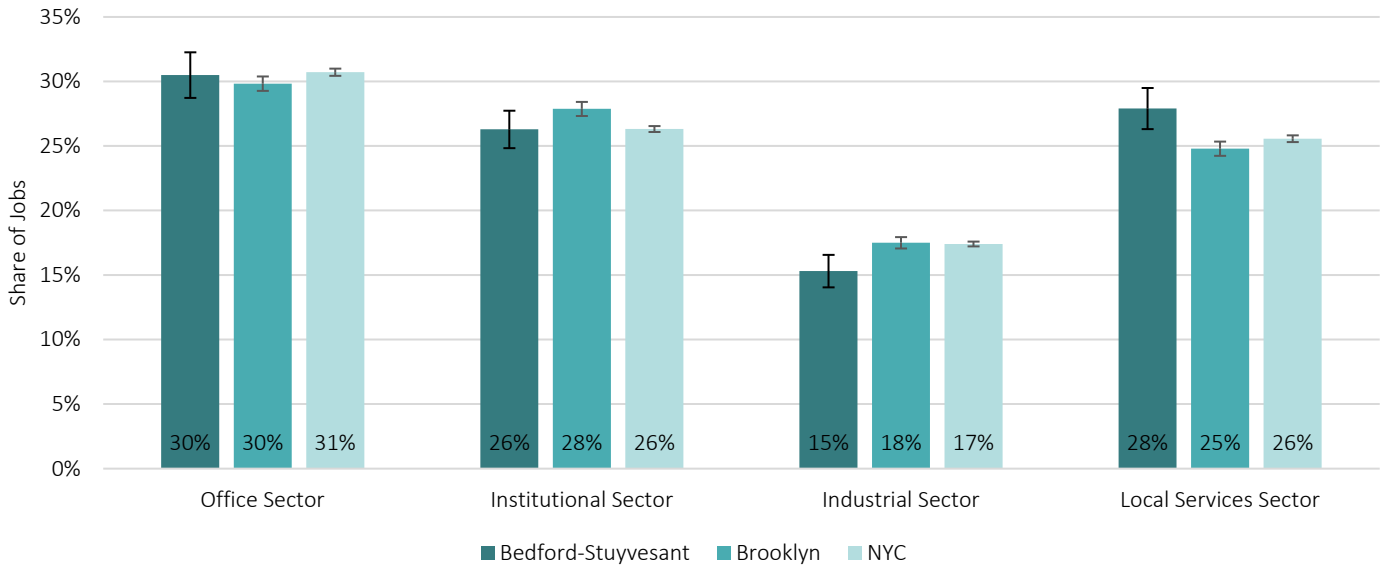

Source: American Community Survey 2015-2019; Community Profile Table 2.04

Figure 8: Share of Employed Residents by Business Sector[1], 2015-2019 (Five-Year Estimate)

Shows the share of workers who live in an area by the business sector in which they work. Compares the local area to the borough and city.

"In 2015-2019, an estimated [percent] of employed people in [area] worked in [business sector]."

Source: American Community Survey 2015-2019; Community Profile Table 2.06

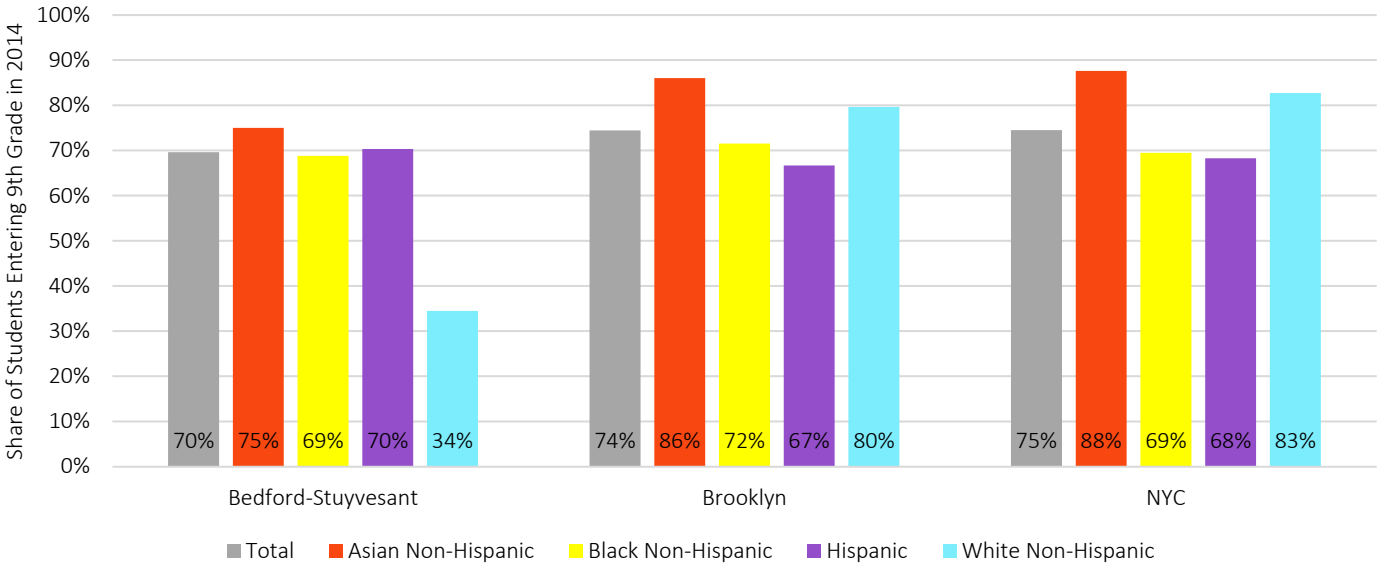

[1] Business sectors are shown as macro-sectors as defined by NYC Department of City Planning. Office sector includes professional, management, finance businesses, and others; institutional sector includes educational services and health care and social assistance; industrial sector includes construction, manufacturing, warehousing businesses, and others; local services sector includes retail, arts and entertainment, food service businesses, among others.

Education & Access to Transit

Figure 9: High School Graduation Rate, 2018

Shows the rate of students who entered 9th grade in 2014 and graduated by 2018. Shows the share of total students and share of students by mutually exclusive race and ethnicity groups. Compares the local area to the borough and city.

"The 2018 graduation rate for [race/ethnicity] group in [area] was [percent]."

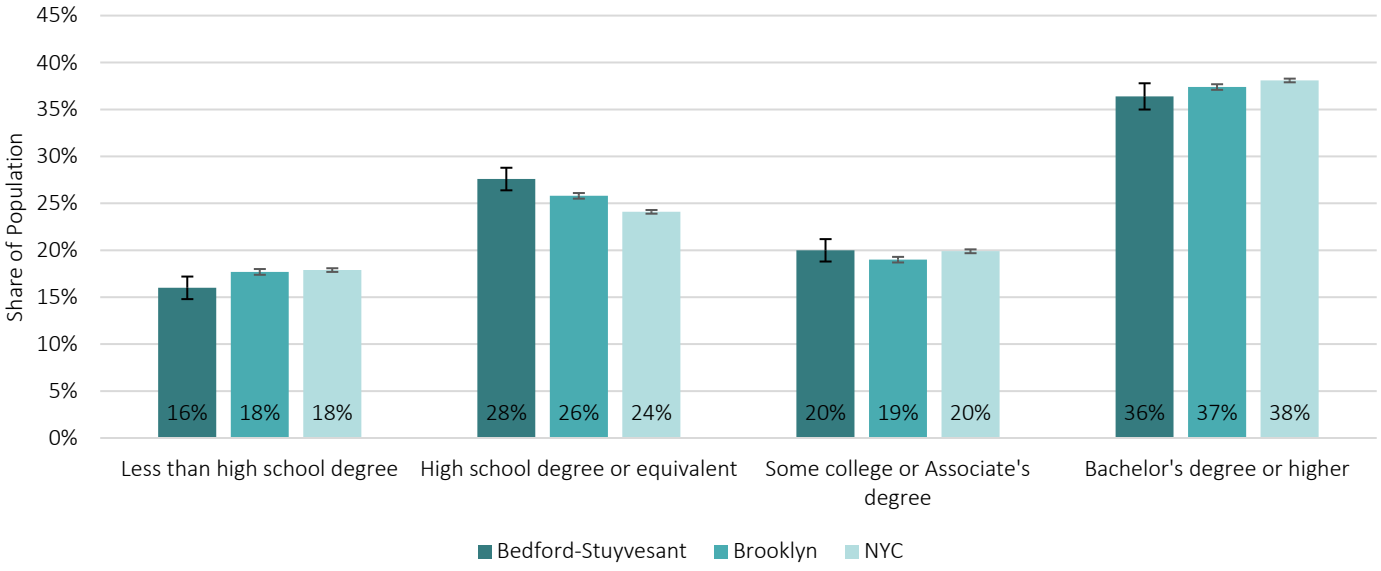

Source: NYC Department of Education 2018; Community Profile Table 5.13

Figure 10: Educational Attainment, 2015-2019 (Five-Year Estimate)

Shows the share of the population 25 years and over, by highest level of educational attainment. Compares the local area to the borough and city.

"In 2015-2019, an estimated [percent] of the population 25 years and over in [area] had [educational attainment]."

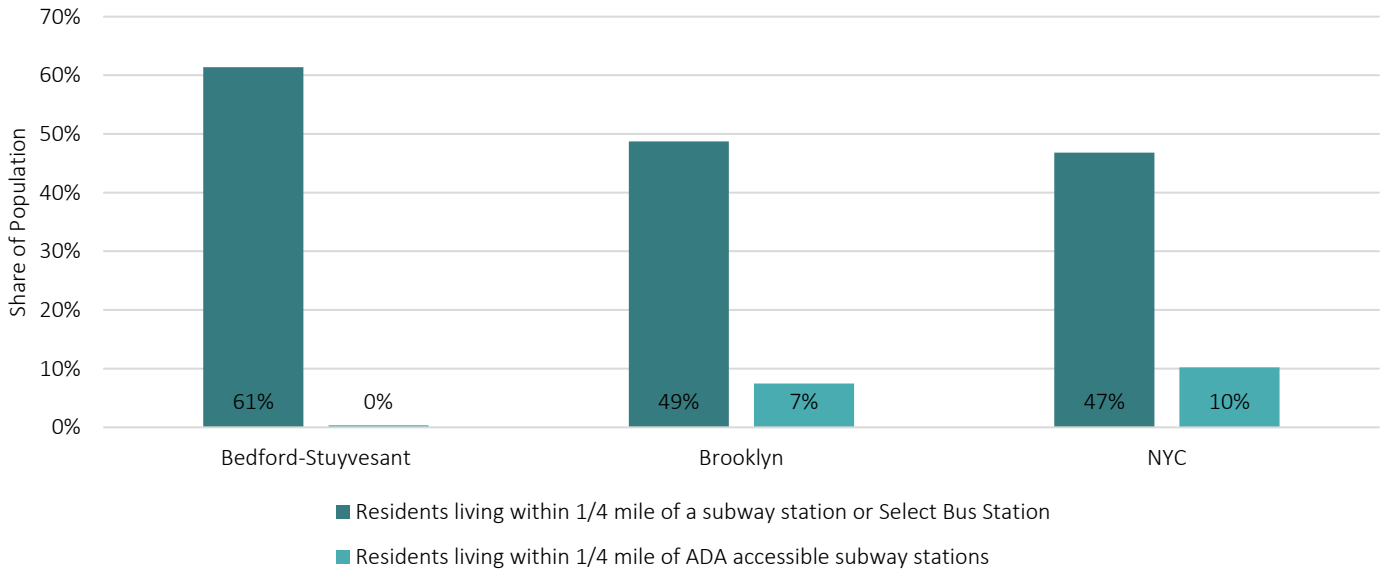

Source: American Community Survey 2015-2019; Community Profile Table 2.01

Figure 11: Access to Transit, 2020

Shows the share of population that lives within ¼ mile of a subway station or select bus service stop; and share of population that lives ¼ mile of an ADA accessible subway station. Compares the local area to the borough and city.

"In 2020, about [percent] of residents in [area] lived near an ADA accessible subway station."

Source: Department of City Planning 2020; Community Profile Table 5.09

Housing Security, Affordability, and Quality

Figure 12: Rent-Burdened & Severely Rent-Burdened Households, 2015-2019 (Five-Year Estimate)

Shows the percent of households who spent 30% or more of their income on rent (rent-burdened) and the percent who spent 50% or more of their income on rent (severely rent-burdened). Compares the local area to the borough and city.

"In 2015-2019, an estimated [percent] of households in [area] were severely rent-burdened."

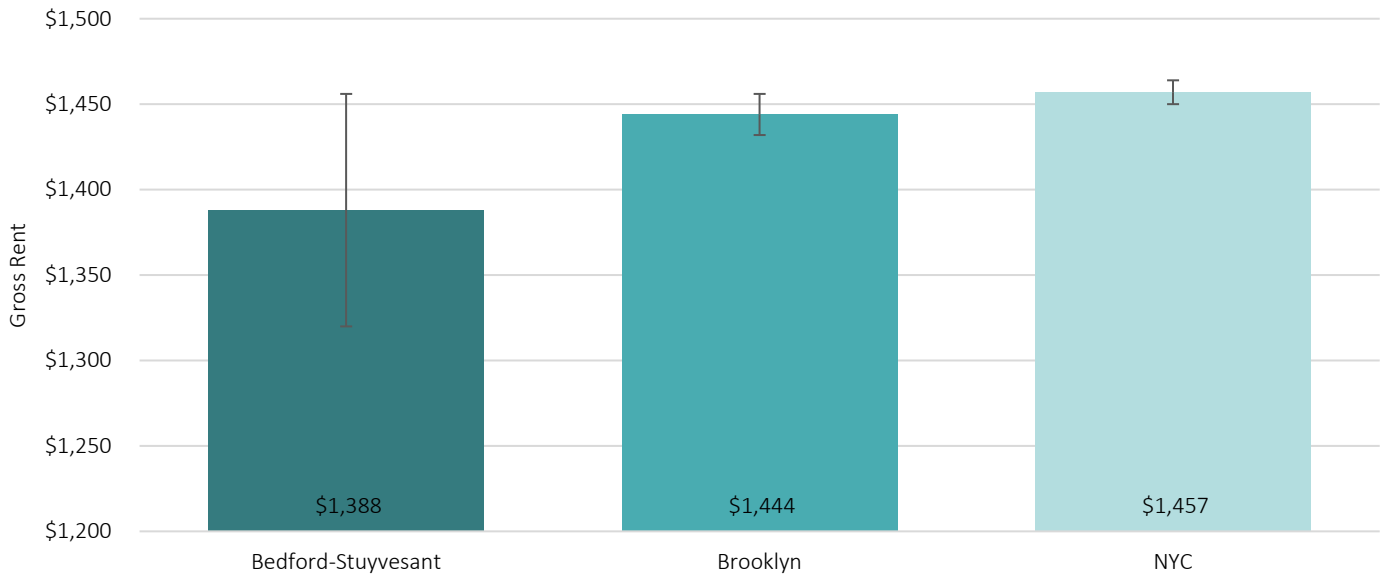

Source: American Community Survey 2015-2019; Community Profile Table 3.04

Figure 13: Median Gross Rent, 2015-2019 (Five-Year Estimate)

Shows the median rent for occupied units paying rent. Median means half of all units have rental costs higher than this amount and half have rents lower than this amount. Compares the local area to the borough and city.

"In 2015-2019, the estimated median price of rental units in [area] was [$]."

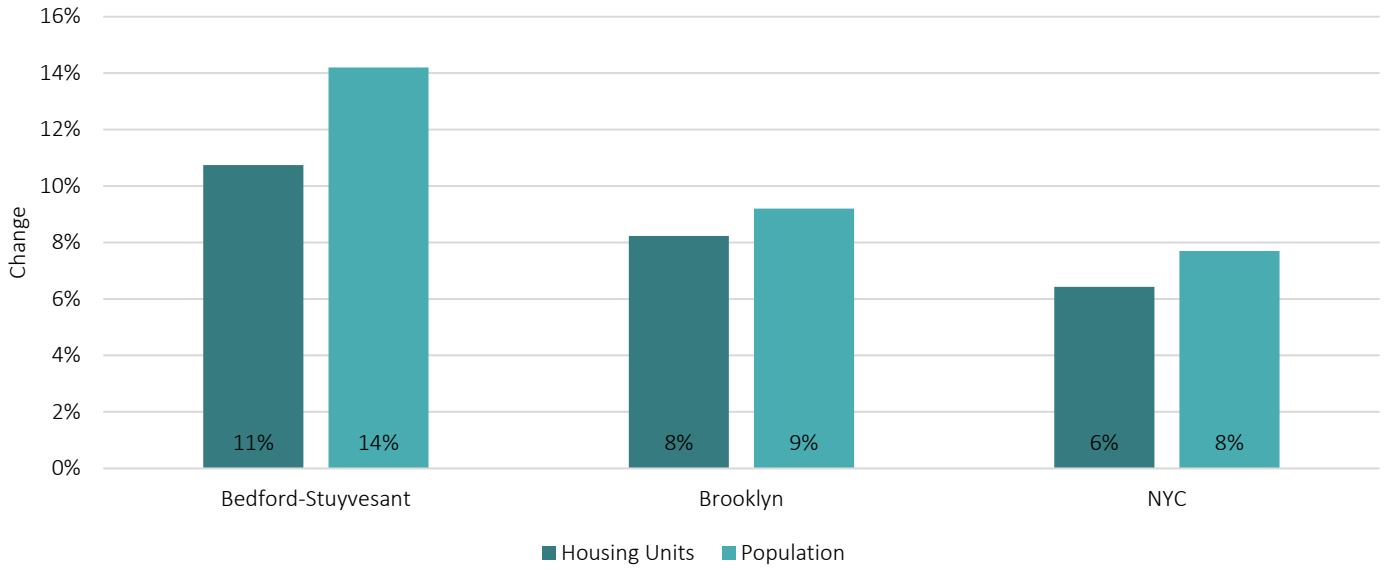

Source: American Community Survey 2015-2019; Community Profile Table 3.03

Housing Production

Figure 14: Percent Change in Housing Supply and Population, 2010 to 2020

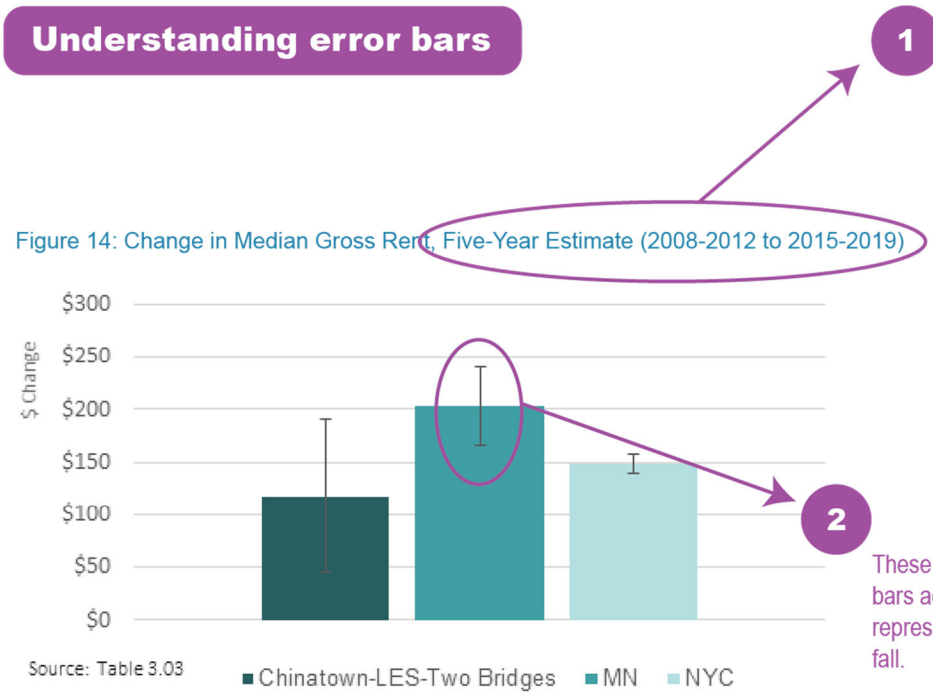

Shows the percent change in the number of housings units and population. Compares the local area to the borough and city.

"From 2010 to 2020, housing units in [area] increased/decreased by [percent] and population increased/decreased by [percent]."

Source: NYC Department of City Planning Housing Database 2020 Q4 and Census 2010, 2020; Community Profile Tables 4.01 and 1.01

Understanding error bars

Five-year estimates refer to data from the American Community Survey (ACS). The ACS is a monthly survey sent to a sample of households throughout the country. To have a large enough sample to create estimates of characteristics for small areas, the ACS "rolls-up" the sample for five-year periods.

Because the ACS data are from a sample, the estimates comes with some uncertainty, which is shown in the chart as ***errror bars.***

These "I" figures are called ***error bars***. Error bars account for uncertainty in ***sample data*** by representing the range in which the data could fall.

In this example, the ***error bars*** tell us that the change in rent in Manhattan is somewhere between about $160 and $245.

Data drawn from a larger sample are more accurate and have a smaller ***error bar***, which is why the size of the ***error bar*** gets smaller as the geography increases in size.

Correct intrepretation of this chart:

"Rents in Chinatown increased between about $50 and $190."

Based on the ***error bar*** for Chinatown, this is correct.

Incorrect intrepretation of this chart:

"Changes in rents in Manhattan were larger than those in Chinatown."

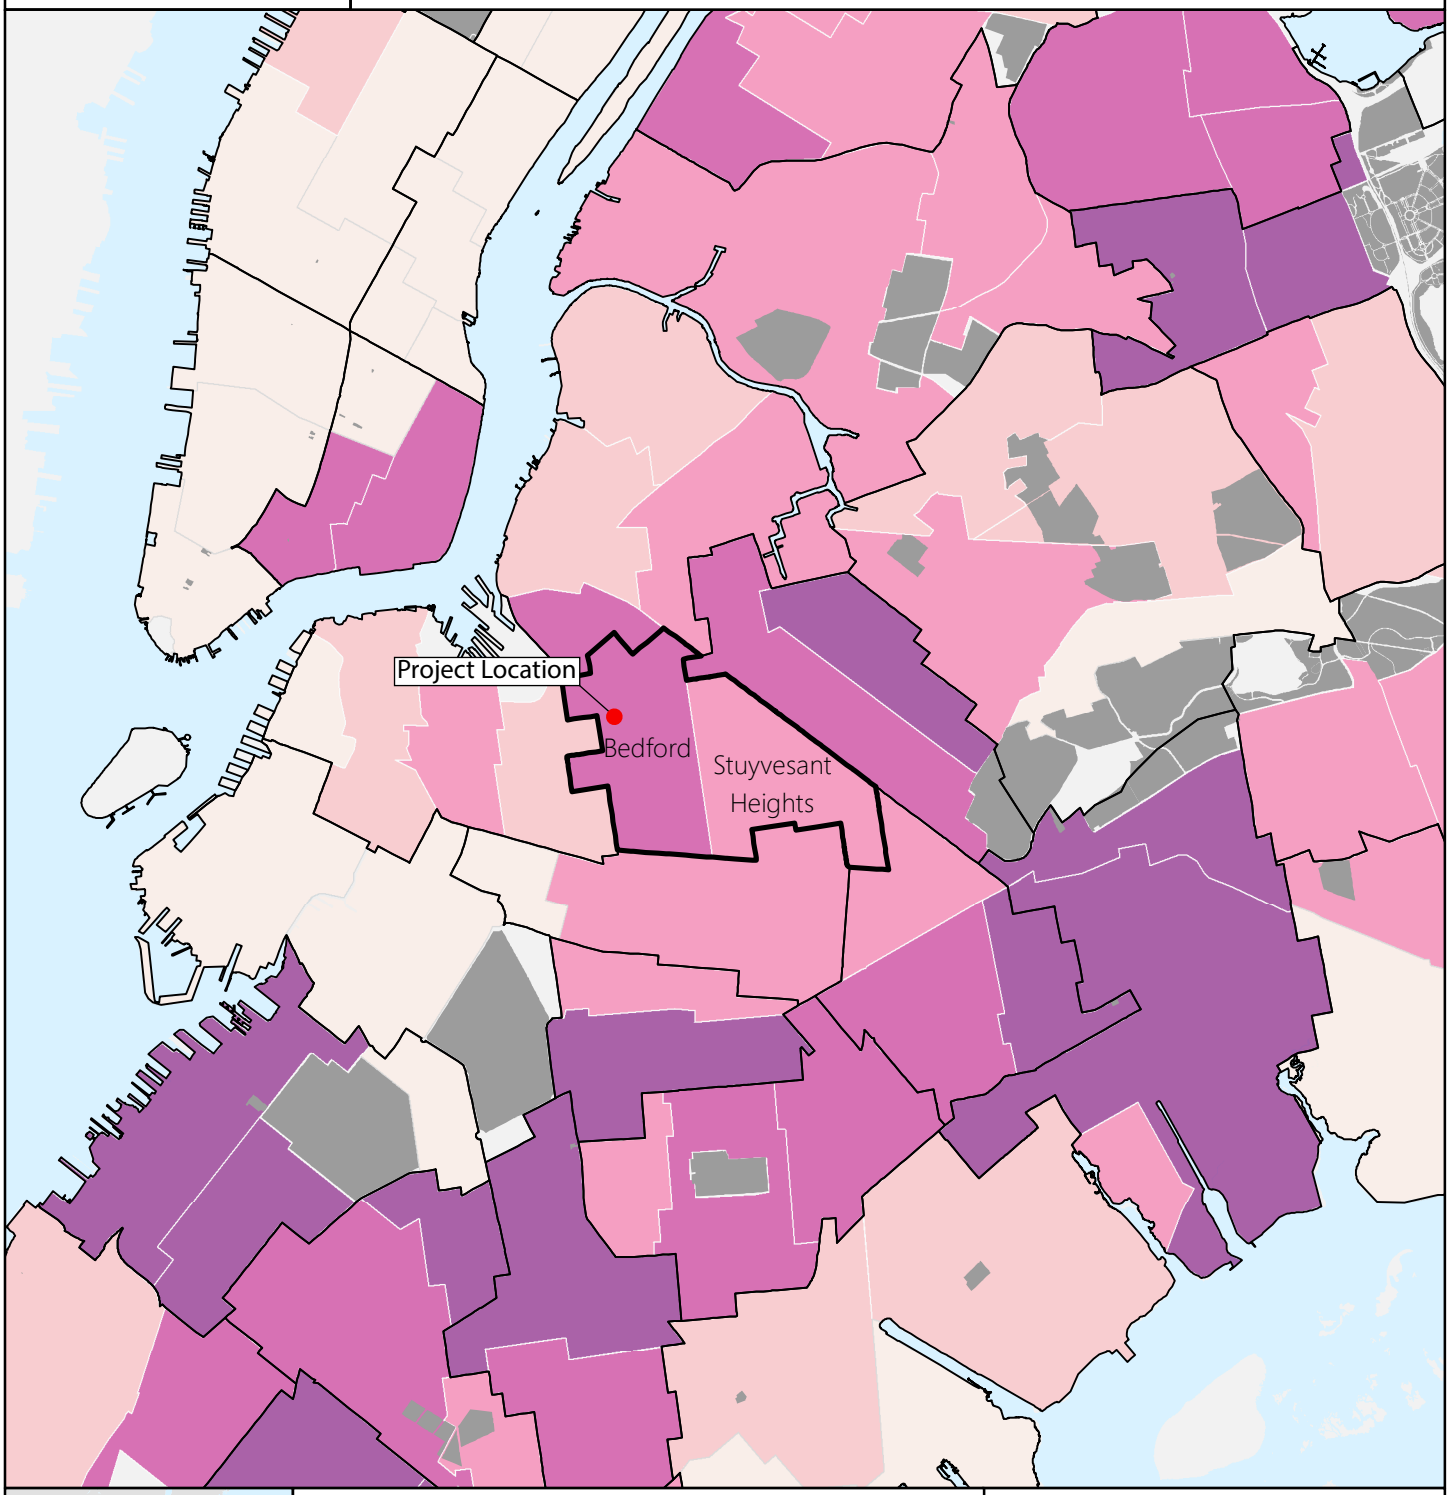

Because the ***error bars*** for Chinatown and Manhattan overlap, we cannot say for certain whether changes were higher or lower. In other words, the range of rent changes in Manhattan ($160-$245) overlap with the range in Chinatown ($45-$195).

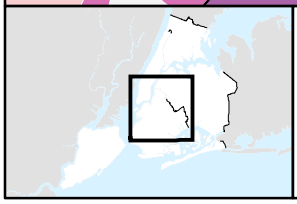

Bedford-Stuyvesant

PUMA 4003

The city's Displacement Risk Index (DRI) estimates comparative levels of residential displacement risk for New York City's neighborhoods. The DRI ranks neighborhoods from lowest to highest risk based on recent population characteristics, housing conditions, and market pressures.

There are five ranks with equal numbers of neighborhoods. For example, neighborhoods ranked "lowest" are among the 20% of NYC neighborhoods with the least intense displacement risk factors while neighborhoods ranked "highest" are among the 20% of neighborhoods with most intense displacement risk factors.

Displacement Risk

by Neighborhood Tabulation Area

Section 4: Affirmatively furthering fair housing and promoting equitable access to opportunity

Provide a narrative statement describing how the project relates to New York City's goals and strategies to affirmatively further fair housing and promote equitable access to opportunity. These goals and strategies are described in the city's fair housing plan, Where We Live NYC.

Where we Live NYC (WWL) is the city's fair housing action plan. There are a total of six goals the plan intends to achieve. These include: (1) combating persistent, complex discrimination with expanded resources and protections, (2) facilitating equitable housing development in New York City and the region, (3) preserving affordable housing and preventing displacement of long-standing residents, (4) enabling more effective use of rental assistance benefits, especially in amenity-rich neighborhoods, (5) creating more independent and integrated living options for people with disabilities, (6) making equitable investments to address the neighborhood-based legacy of discrimination, segregation, and concentrated poverty.

Under "Goal 2: Facilitate equitable housing development in New York City and the region" of the WWL plan, one of the strategies presented (Strategy 2.1) is to "Increase housing opportunities, particularly for low-income New Yorkers, in amenity-rich neighborhoods" Increasing housing opportunities is particularly important in the Bedford NTA as housing production has not kept up with the rising population in this area. As demonstrated in the Community Profile above (Figure 14), the population of the Bedford-Stuyvesant Public Use Meta-data Area (PUMA) has increased 14% while the total housing supply has increased by only 11%.

The Proposed Project represents an opportunity to create more mixed income housing to help meet increasing demand and create new housing options reserved for low- and moderate-income households (as defined by HUD). The Proposed Project would create approximately 54 new units including 18 units reserved for households averaging 80% AMI. The percentage of households in rent stabilized units in the Bedford NTA mirrors that of the city as a whole. The Proposed Project would introduce new rent stabilized units to an area with a large non-white population where 57.3% of the population has an income less then 80% of AMI (and therefore falls between the "Low-Income and Extremely Low-Income bands).

The Bedford NTA is also located within a Transit Zone where households are highly accessible to jobs, amenities, and services. The Myrtle - Willoughby Avenues subway station for G train at the intersection of Myrtle Avenue and Marcy Avenue is 1,500 feet away from the Project Area. There are three bus lines (B44/B48/B54) that are accessible to users in the area. Buses B44 and B54 have stops within one block of the project. Bus B48 has stops on Franklin Avenue. Further, the Bedford NTA contains several open space resources including three playgrounds, community gardens, and an outdoor public pool. The NTA also contains public elementary, intermediate and high schools.

(Section 4 continued)

The Proposed Project would contribute to "Goal 3: Preserve affordable housing and prevent displacement of long-standing residents". One of the strategies presented in the WWL plan to advance this goal is Strategy 3.2: Improve quality and preserve affordability for existing residents. The Proposed Development would be located in Brooklyn, Community District 3 (PUMA 4003) within Bedford Neighborhood Tabulation Area (NTA BK75). According to the Displacement Risk Map (DRM), Bedford NTA has a "Higher" Displacement Risk level. The DRM considers Population Vulnerability, Housing Conditions, and Market Pressure.

- To assess Population Vulnerability, the DRM considers the percentage of non-white population (59.3% in Bedford), the percentage of the population with income below 200% of the federal poverty rate (50.4% in the Bedford NTA), the limited-English speaking population (12% in the Bedford NTA) and the percentage of households with severe rent burden. The high percentage of population with income below 200% of the federal poverty rate may be the largest factor of Population Vulnerability in the Bedford NTA.
- To assess housing conditions, the DRM considers the percentage of housing with 3 or more maintenance deficiencies in the NTA in comparison to the city as a whole. There is no significant difference between the Bedford NTA and the city.
- To assess market pressure, the DRM considers the change in rent (the median rent in the Bedford NTA has increased at a faster pace than in the city as a whole), residential property appreciation from 2000-2020 (4.6X in the Bedford NTA), and some additional factors.

The Project would be developed on an underutilized site and would provide income-restricted units subject to HPD/HDC marketing and resident selection procedures including an occupancy preference for a percentage of the units to applicants who, at the time of application and processing, are residents of the Community District in which the building is located (“Community Preference Units”). As such, the Project would contribute to preserving affordable housing and preventing the displacement of long-standing residents.

The Proposed Project would also help advance "Goal 5: Create more independent and integrated living options for people with disabilities". One of the strategies presented in the WWL plan to advance this goal is Strategy 5.3: Increase the number of affordable homes that are accessible. The Proposed Project would create 18 new Americans with Disabilities Act (ADA) compliant affordable units under MIH Option 2.

The Proposed Project will increase accessible housing options in the Bedford NTA and increase available housing opportunities for low income residents.

The Proposed Project advances Goal 2 of WWL NYC through implementing Strategy 2.1, Goal 3 of WWL NYC through implementing Strategy 3.2, and Goal 5 of WWL NYC through implementing Strategy 5.3.

Section 5: Community profile

The community profile provides data tables for all indicators from the Equitable Development Data Explorer (EDDE) for the relevant Community District[2]. Includes approximately 50 indicators across five categories:

- *demographic;*
- *household economic security;*
- *housing affordability, quality, and security;*
- *housing production; and*
- *quality of life and access to opportunity.*

Where possible, these indicators are broken down by mutually exclusive race/ethnicity and show change over time.

All community profiles can be downloaded from the Equitable Development Data Explorer.

[2] The EDDE reports data by Public Use Microdata Areas (PUMA), statistical areas defined by the U.S. Census. PUMAs in New York City generally approximate Community Districts. Displaying the data at the PUMA scale enables data reporting broken down by race and ethnicity.
