Racial equity report on housing and opportunity

Project name: 1584 Flatbush Avenue Rezoning

Contact:

Matthew Sloane, AICP; matthew.sloane@gza.com
Olga Abinader; olga.abindader@gza.com

Prepared by: GZA GeoEnvironmental Date: July 2, 2026

Note: Racial equity reports are prepared prior to the certification of the subject application by the City Planning Commission (CPC). A description of the final adopted application is available in the associated CPC report.

APPLICATION TYPE

Applications that meet one or more of the following criteria are subject to the racial equity report requirement. Please select all relevant criteria:

☐ Text amendment to the zoning resolution affecting 5 or more community districts

☐ Historic district designation affecting 4 or more city blocks

Applications submitted pursuant to subdivision a of section 197-c of the charter that seek approval for:

☐ Acquisition or disposition of land to facilitate a non-residential project containing at least 50,000 square feet of floor area

☐ Acquisition or disposition of land to facilitate a residential project, other than a residential project consisting of a building to be preserved, provided that such equity report shall only be required related to a building in such project containing at least 50,000 square feet of floor area

☒ An increase in permitted residential floor area of at least 50,000 square feet

☐ An increase in permitted non-residential floor area of at least 200,000 square feet

☐ A decrease in permitted floor area or number of housing units on at least four contiguous city blocks

☐ Seeking a change to the use regulations or permitted floor area for any use in a manufacturing district where a building in the project contains at least 100,000 square feet of floor area

If the application meets the above criteria but the proposed development does not, please explain the difference between the proposed development and the application.

Section 1: Executive summary

Provide a short, plain-language summary of the subsequent sections of the racial equity report, including major project elements and key neighborhood and demographic conditions.

The Proposed Project consists of the construction of one new mixed-use residential, community facility, and commercial building at 1584 Flatbush Avenue, Brooklyn (Block 7558, Lot 1). The proposed 165-foot tall, 16-story plus cellar, approximately 130,790-GSF (9.95 FAR) building would have ground floor commercial use (9,544 GSF), ground floor community facility use (330 GSF) and a total of 112 dwelling units on the 2nd through 16th floors of the building, including 29 permanently affordable residential units under MIH Option 1, over 120,916 GSF of residential floor area (an average of approximately 1,080 GSF per residential dwelling unit) . The Proposed Project also includes an approximately 2,784-square-foot (-SF) private open space for building residents in the form of an exterior courtyard on the second floor of the building. As the Project Site is located within the Inner Transit Zone, no off-street parking would be provided as part of the Proposed Project.

As of 2020, the total population of Brooklyn Community District 14 (PUMA 4314) was 162,410 people, of which 12.7% were Asian, 28.6% were Black, 15.0% were Hispanic, and 37.4% were White. The median age of Brooklyn Community District 14 residents was 37.4 years according to the 2019-2023 ACS data. The 2019-2023 ACS data indicates that median household income has increased by 41.3% percent since 2008-2012, from $56,078 to $79,256. Pursuant to 2019-2023 ACS data, median household income within the Community District is distributed somewhat equitably between Asian ($79,596), Black ($78,018), Hispanic ($69,361), and White ($85,996) households.

Between 2010 and 2024, the Community District featured an 8.2% increase in housing units, and the overall population in the neighborhood grew by 1.9% between 2012 and 2023. This indicates that the recent housing production has been keeping up with the growing demand. However, according to 2019-2023 ACS data, occupied housing units have remained overcrowded at a rate of 13.1%.[1] Hispanic populations had the highest rate of overcrowding (17.9%) between 2019 and 2023, while Black and White populations feature overcrowding rates of 11.7% and 6.6% (overcrowding data for Asian populations was not considered statistically reliable).

The median gross rent in the neighborhood increased by 16.4% from the 2008-2012 to the 2019-2023 ACS years. In terms of Gross Rent as a Percentage of Household Income (GRAPI), 52.5% of the community is rent burdened (household spends 30% of their income on rent) while 28.9% of the community is severely rent burdened (household spends 50% of their income on rent), pursuant to the 2019-2023 ACS. Asian households tend to be the most rent burdened (63.3%) and severely rent burdened (38.2%) while Black households are the least rent burdened (47.9%) and severely rent burdened (27.5%) compared to other racial groups. While there are no New York City Housing Authority units in the neighborhood, 51.7% of rental units in Community District 14 are rent stabilized.

As per 2019-2023 ACS data, 32,098 units (78.9%) of the total rental units in the community district are set aside as affordable to households with less than 80% of the Area Median Income (AMI), which includes extremely low-income (0-30% AMI), very low-income (31-50% AMI), and low-income households (51-80% AMI). Approximately 18.9% of the total rental units have a

[1] An overcrowded unit is defined as more than 1 person per room per the NYC Equitable Development Data Explorer.

monthly rent that is affordable to moderate-income households with a household income of 81% to 120% AMI. Approximately 1.6% of total rental units are targeted for middle-income households (121-165% AMI). Data for high income households was considered statistically unreliable and was therefore not reported here.

The Proposed Project meets several goals of the City's plan to affirmatively further fair housing and promote equitable access to opportunity. The Proposed Project would facilitate equitable housing development in New York City and the region, help increase affordable housing to prevent displacement of long-standing residents and make equitable investments to address the neighborhood-based legacy of discrimination, segregation, and concentrated poverty.

Section 2: Project specific information

Before completing Section 2, please review the racial equity report submission guide.

2.1 Description of residential space and affordability

2.1.1 Reporting residential floor area

Total residential zoning square feet: 95,152

2.1.2 Profile of anticipated residential affordability

Report the number of anticipated housing units. Describe the expected rents or prices for all proposed housing units.

MIH Option 1

Income restriction	Units		Anticipated affordability				
			AMI	Rent (2025)*		Eligible income (2025)**	
	#	%		1-bedroom-- 3-bedroom		1-person -- 4-person household	
Affordable – Very Low Income	11	10.0	40%	$1,220	$1,690	$45,400	$64,800
Affordable – Low Income	18	15.0	60%	$1,820	$2,530	$68,000	$97,200
Market Rate	83	75.0	N/A	$2,700	$3,500	N/A	N/A
Total	**112**	**100%**					

*Rents are based on unit size. Rents shown are illustrative (based on 2024 HUD Income Limits, rounded to the nearest $10) and will change. Final rents will be determined based on the HUD Income Limits in place at time of project construction.

**Qualifying incomes are based on household size. Incomes shown are illustrative (based on 2024 HUD Income Limits, rounded to the nearest $100) and will change. Final qualifying incomes will be determined by the HUD Income Limits in place at time of project marketing.

Provide additional details below as needed. If applicable, report the proposed Mandatory Inclusionary Housing option. If applicable, describe any affordable housing financing programs.

The Proposed Project is a 16-story residential building with a total of 112 dwelling units including 83 market-rate units and 29 permanently affordable units under MIH Option 1 (25% of Residential Floor Area with 11 units at 40% AMI and 18 units at 60% AMI). The Proposed Project includes units ranging from 1-bedroom units to 3-bedroom units, as such eligible households include 1- to 4-person households. For units not subject to income restrictions, estimated rental prices are based on current area market rents (average rent as of November 2025).[2]

[2] Rental data obtained from SteetEasy for the Flatbush neighborhood of Brooklyn on December 9, 2025.

2.2 Description of non-residential space and jobs

Report building area and job sector details for specific non-residential uses. Specific non-residential uses are those where a space is being built for the use of a specific tenant or business. This might be an anchor tenant that is only occupying a portion of the proposed space, or it might be that the applicant is seeking the proposed action to build for their own use.

If the proposal includes non-residential space but no specific tenants or businesses, do not complete this section. General non-residential space can be discussed in Section 4.

2.2.1 Reporting non-residential floor area

Total non-residential zoning square feet: 9,874 ZSF (9,544 ZSF Commercial, 330 ZSF Community Facility)

Non-residential zoning square feet to be occupied by unknown tenants: 9,874 ZSF (9,544 ZSF Commercial, 330 ZSF Community Facility)

Non-residential zoning square feet to be occupied by known tenants: 0 ZSF

2.2.2 Profile of anticipated new jobs for non-residential space with a known tenant

If the application proposes specific non-residential uses, report the projected number of permanent jobs in each sector. Specific non-residential uses are those where there is a known tenant for the space.

In cases where there is not a known tenant, do not report the projected number of jobs or the characteristics of the potential sectors. Without a specific tenant/business, future industry sectors cannot be known and therefore all wage and workforce reporting would be speculative.

Sector (name and NAICS code)	Job count
N/A	N/A
N/A	N/A
Total	N/A

For each sector, use most recent available data to describe the educational attainment and racial/ethnic composition of the workforce and median wages for those sectors in New York City.

2.3 Estimating construction jobs

Report anticipated construction jobs in both person-years and average yearly workers for each development site.

Development site	Person-years	Average yearly workers
Applicant's Development Site	246	164
Totals	**246**	**164**

Section 3: Community Profile Summary

The community profile summary provides a graphic snapshot of household, housing, and neighborhood indicators from the Equitable Development Data Explorer for the relevant Community District[3]. Data tables and sources can be found in the full community profile (Section 5 of this report).

[3] The EDDE reports data by Public Use Microdata Areas (PUMA), statistical areas defined by the U.S. Census. PUMAs in New York City generally approximate Community Districts. Displaying the data at the PUMA scale enables data reporting broken down by race and ethnicity.

Community Profile Summary

Flatbush & Midwood

(PUMA 4314, approximately Brooklyn CD 14)

Each figure includes a description and a sample interpretive sentence. Data is sourced from the U.S. Census, the American Community Survey, and the NYC Housing and Vacancy Survey. For more detailed data sourcing, see the associated source table in the Equitable Development Data Explorer, available here.

Demographic Conditions

Figure 1: Race & Ethnicity, 2020

Shows the share of area population by mutually exclusive race and Hispanic ethnicity. Compares the local area to the borough and city.

"In 2020, [percent] of the population in [area] identified as [race/ethnicity]."

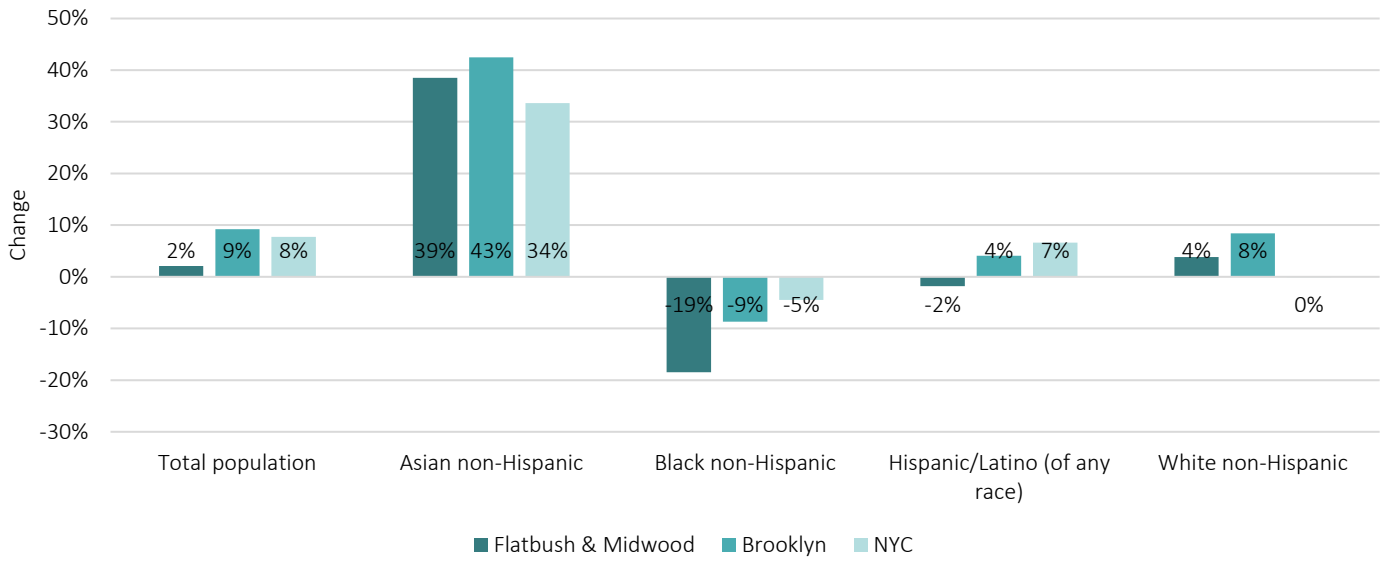

Source: Census 2020; Community Profile Table 1.01

Figure 2: Percent Change in Race & Ethnicity, 2010 to 2020

Shows the percent change of the area population by mutually exclusive race and Hispanic ethnicity. Compares the local area to the borough and city.

"From 2010 to 2020, the [race/ethnicity] population in [area] increased/decreased by [percent]."

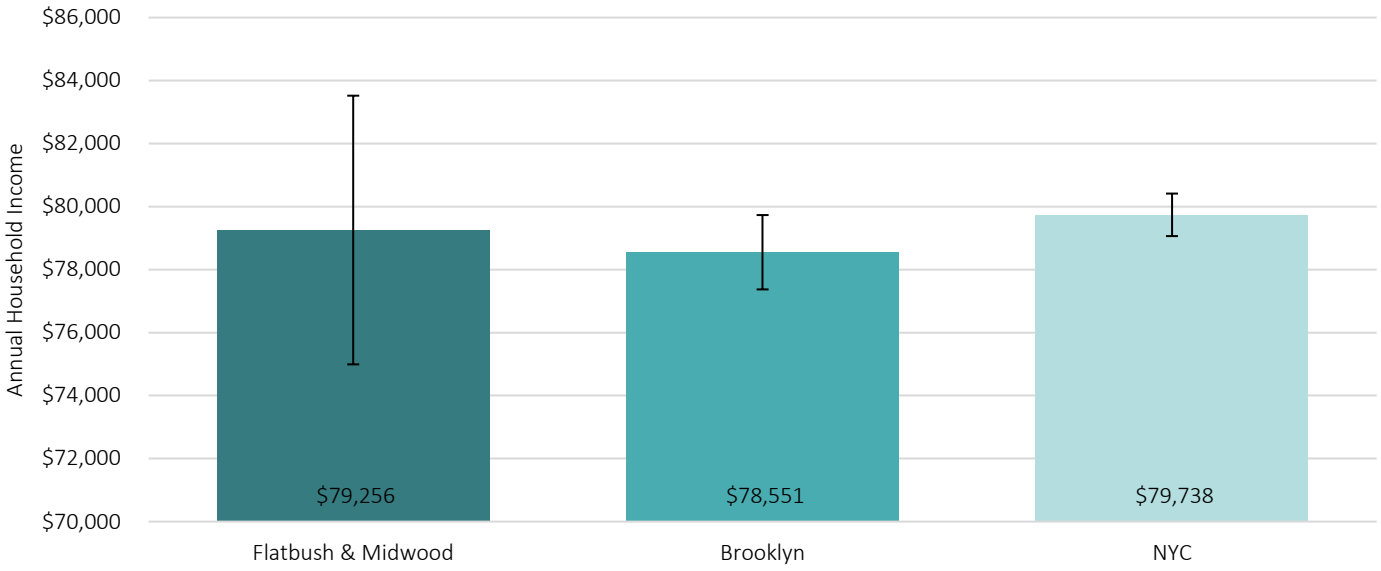

Source: Census 2010, 2020; Community Profile Table 1.01

Household Economic Security – Income

Figure 3: Median Household Income, 2019-2023 (Five-Year Estimate)

Shows the estimated median household income (in 2023 dollars) for the local area, borough, and city. Median means half of all households in the area make more than this amount and half make less. Compares the local area to the borough and city.

"For 2019-2023, the estimated median household income in [area] was [$]."

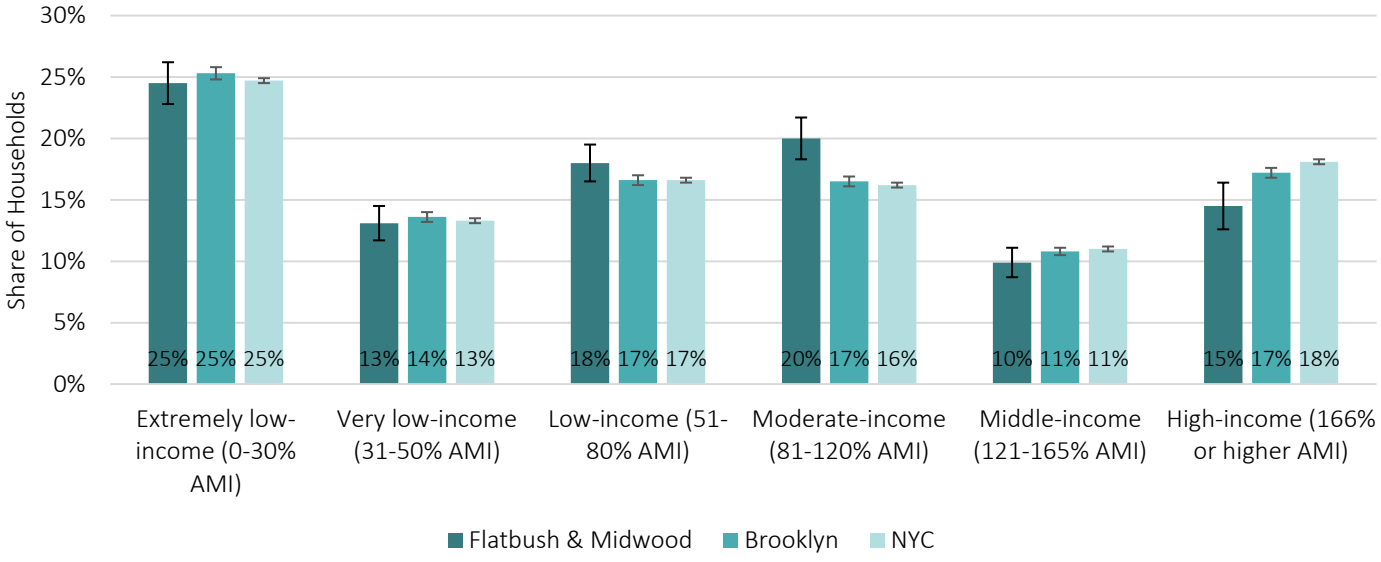

Source: American Community Survey 2019-2023; Community Profile Table 2.02

Figure 4: Share of Households in Each HUD AMI Band, 2019-2023 (Five-Year Estimate)

Shows the share of households within each 2021 U.S. Housing and Urban Development (HUD) Area Median Income (AMI) band. Compares the local area to the borough and city. U.S. Housing and Urban Development (HUD) Area Median Income (AMI) is based on rental prices.

"For 2019-2023, an estimated [percent] of households in [area] were in [HUD AMI band]."

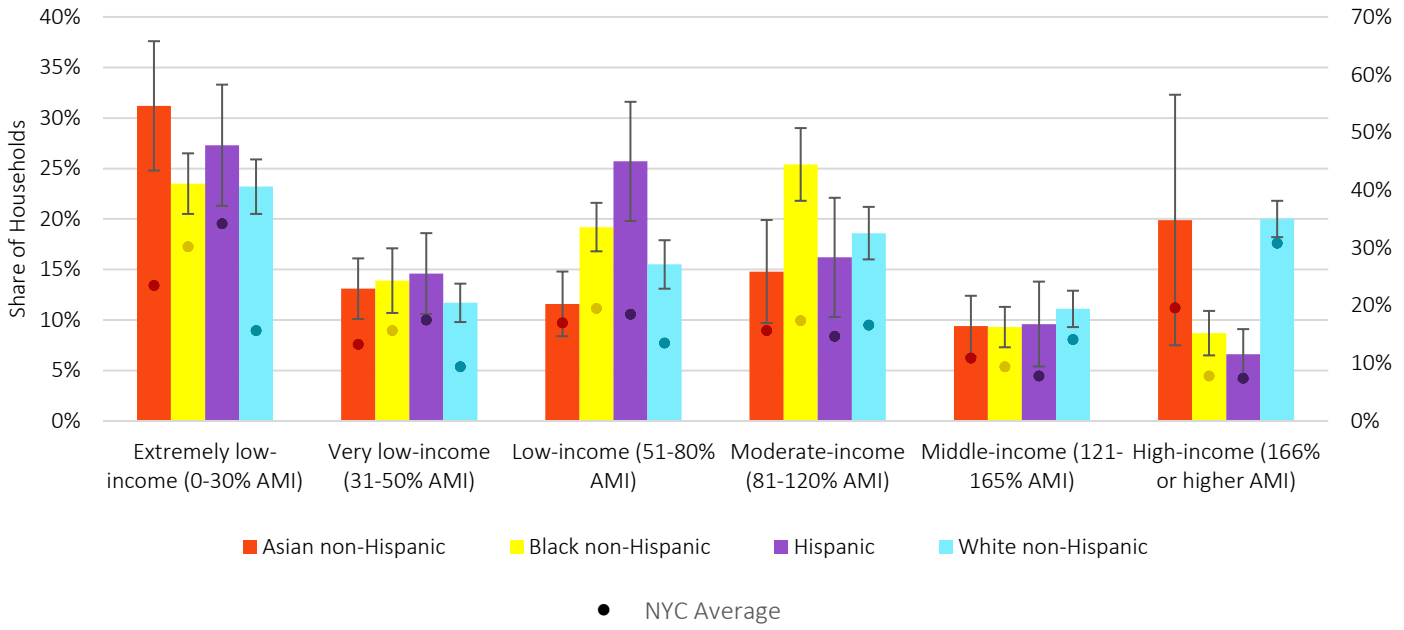

Source: American Community Survey 2019-2023; Community Profile Table 2.03

Figure 5: Share of Households in Each HUD AMI Band by Race & Ethnicity, 2019-2023 (Five-Year Estimate)

Shows the share of PUMA households within each 2021 U.S. Housing and Urban Development (HUD) Area Median Income (AMI) band, by mutually exclusive race & Hispanic ethnicity of householder. HUD AMI bands are used to determine eligibility for income-restricted housing.

"In the local area, an estimated [percent] of [race/ethnicity] households were in [HUD AMI band] in 2019-2023."

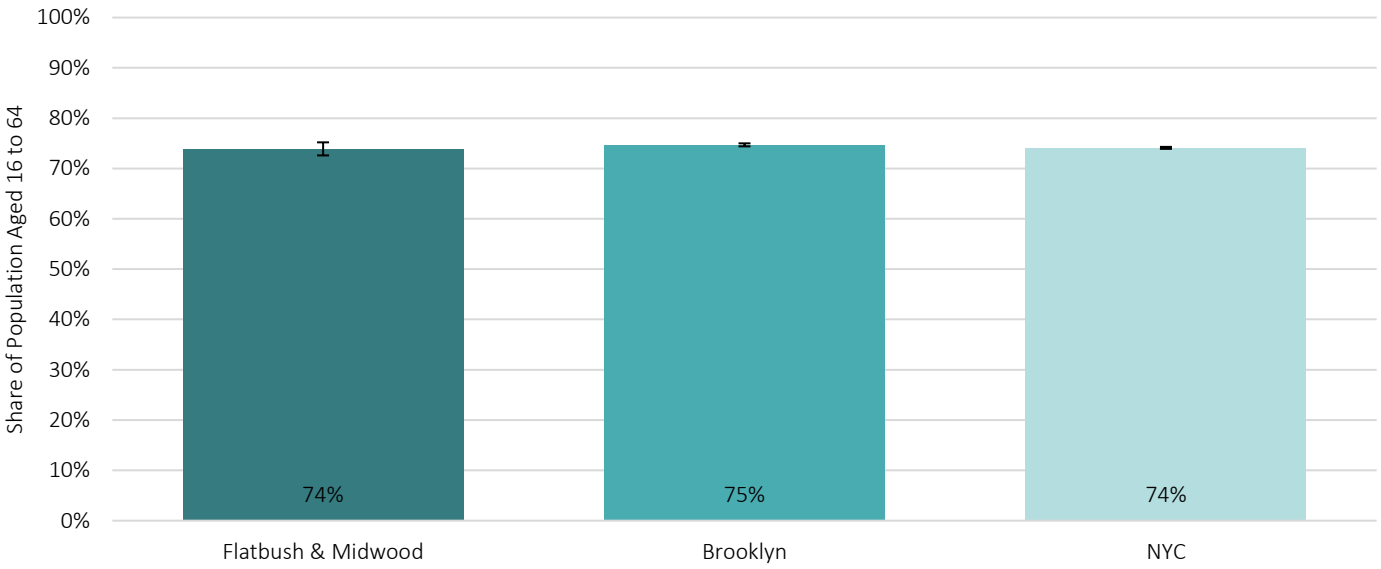

Source: American Community Survey 2019-2023; Community Profile Table 2.03

Household Economic Security – Jobs

Figure 6: Labor Force Participation, 2019-2023 (Five-Year Estimate)

Shows the share of the total population aged 16-64 who is employed or seeking work. Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] in [area] were employed or seeking work."

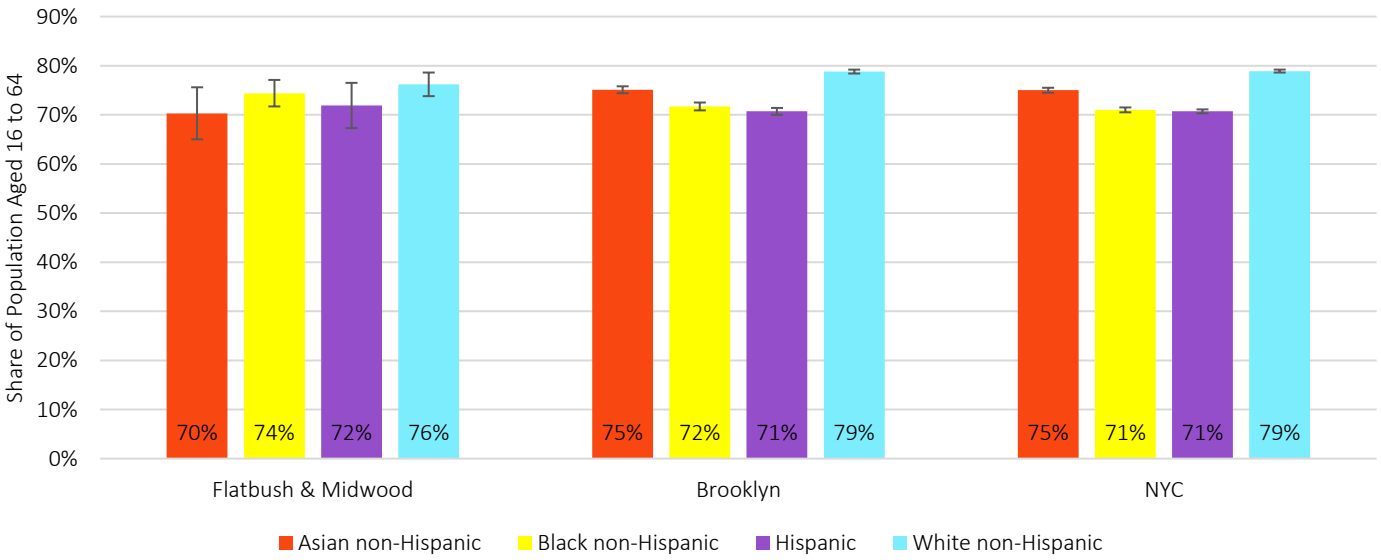

Source: American Community Survey 2019-2023; Community Profile Table 2.04

Figure 7: Labor Force Participation by Race & Ethnicity, 2019-2023 (Five-Year Estimate)

Shows the share of the total population aged 16-64 who is employed or seeking work, by mutually exclusive race & Hispanic ethnicity. Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] of [race/ethnicity] group in [area] were employed or seeking work."

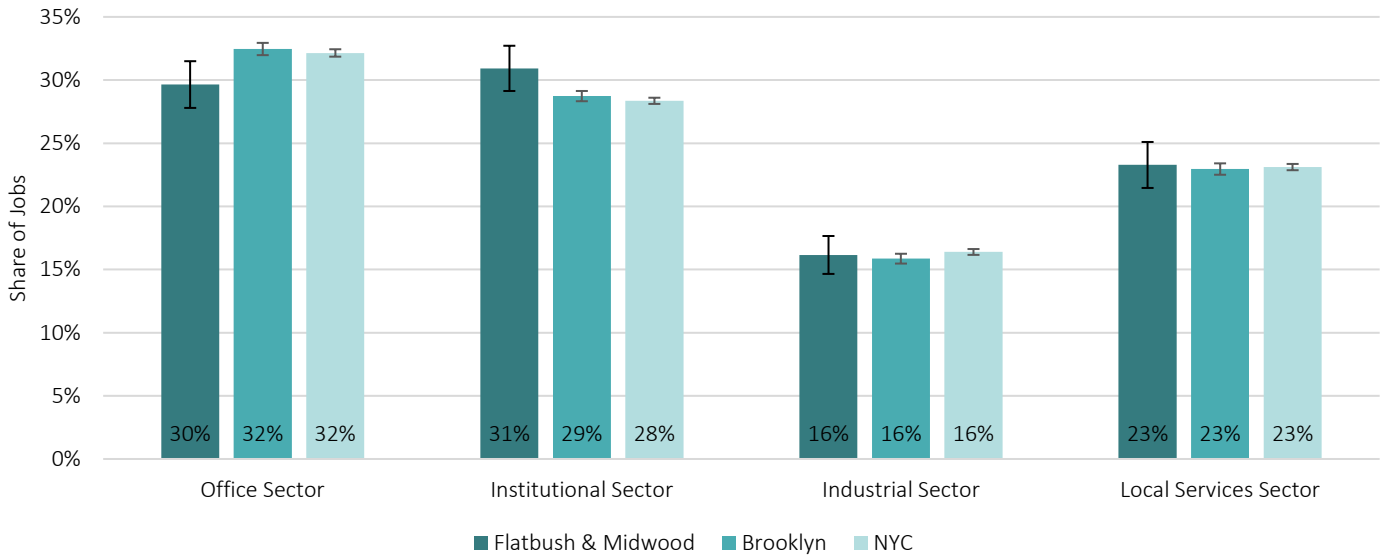

Source: American Community Survey 2019-2023; Community Profile Table 2.04

Figure 8: Share of Employed Residents by Business Sector[1], 2019-2023 (Five-Year Estimate)

Shows the share of workers who live in an area by the business sector in which they work. Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] of employed people in [area] worked in [business sector]."

Source: American Community Survey 2019-2023; Community Profile Table 2.06

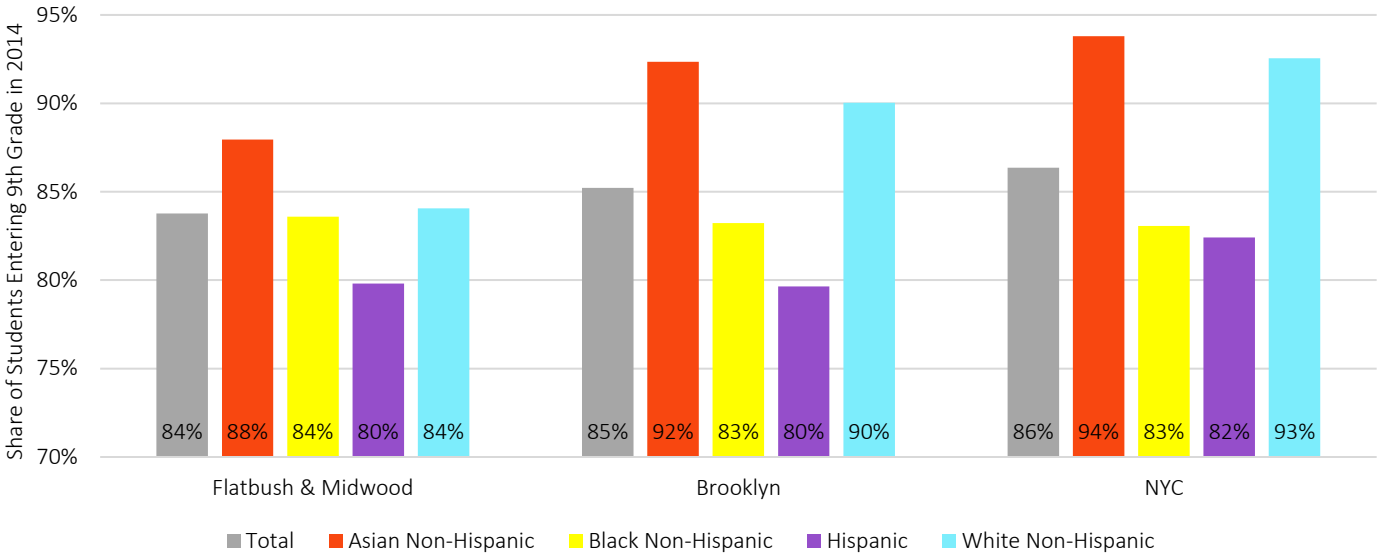

[1] Business sectors are shown as macro-sectors as defined by NYC Department of City Planning. Office sector includes professional, management, finance businesses, and others; institutional sector includes educational services and health care and social assistance; industrial sector includes construction, manufacturing, warehousing businesses, and others; local services sector includes retail, arts and entertainment, food service businesses, among others.

Education & Access to Transit

Figure 9: High School Graduation Rate, 2024

Shows the rate of students who entered 9th grade in 2020 and graduated by 2024. Shows the share of total students and share of students by mutually exclusive race and ethnicity groups. Compares the local area to the borough and city.

"The 2024 graduation rate for [race/ethnicity] group in [area] was [percent]."

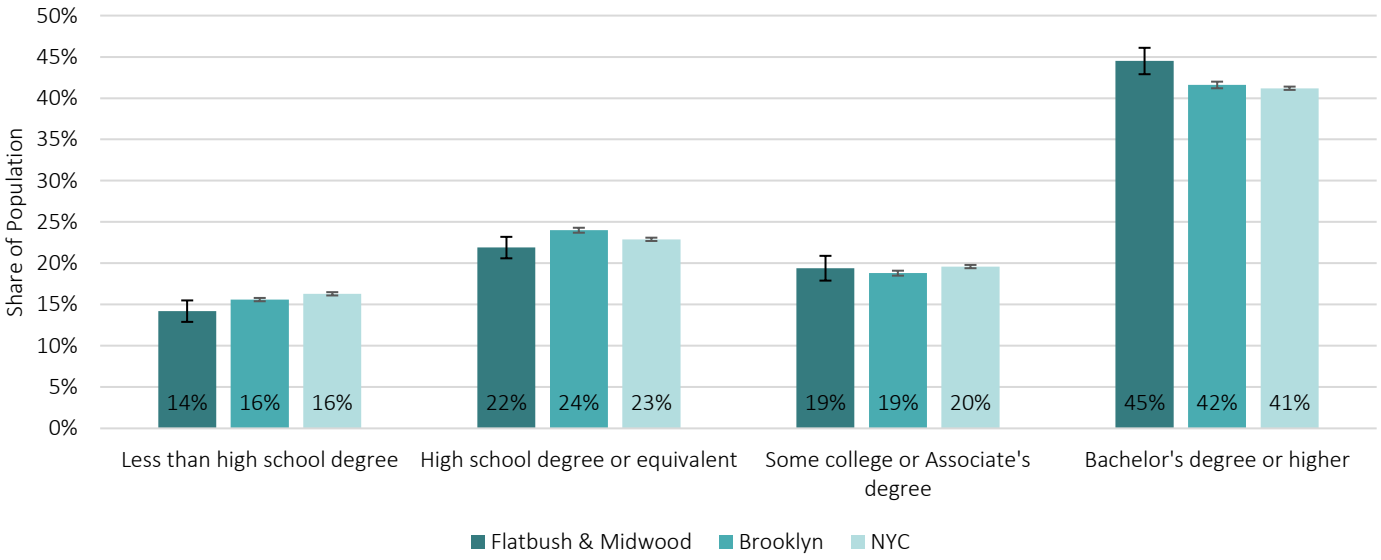

Source: NYC Department of Education 2024; Community Profile Table 5.13

Figure 10: Educational Attainment, 2019-2023 (Five-Year Estimate)

Shows the share of the population 25 years and over, by highest level of educational attainment. Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] of the population 25 years and over in [area] had [educational attainment]."

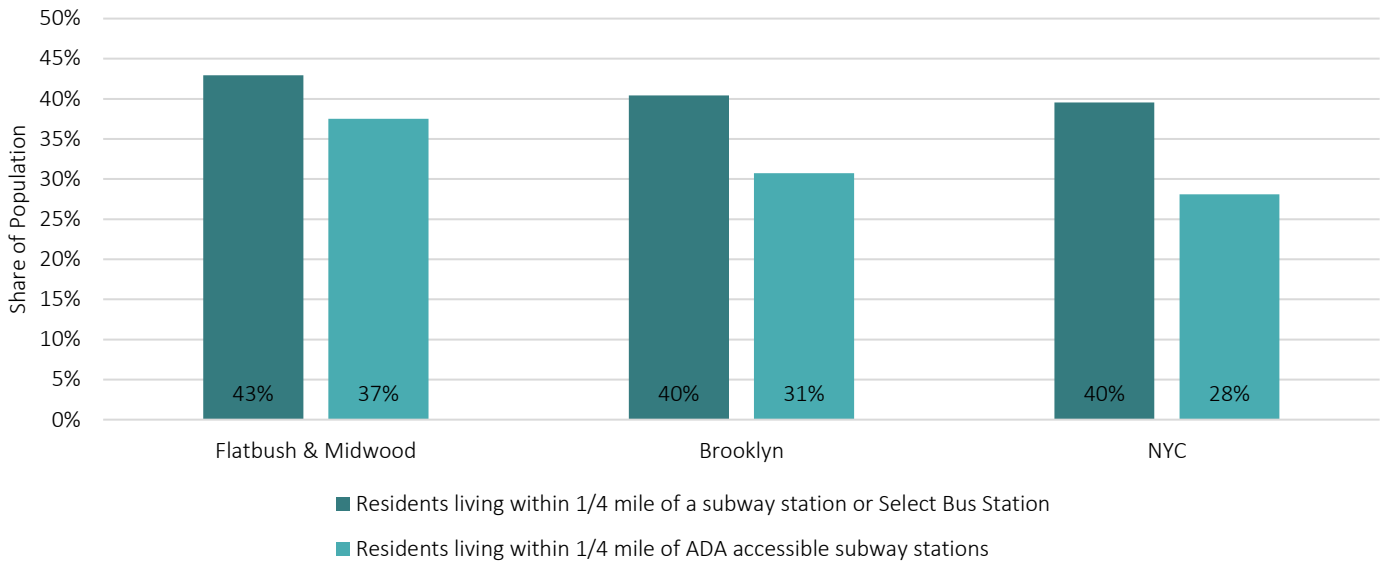

Source: American Community Survey 2019-2023; Community Profile Table 2.01

Figure 11: Access to Transit, 2023

Shows the share of population that lives within ¼ mile of a subway station or select bus service stop; and share of population that lives ¼ mile of an ADA accessible subway station. Compares the local area to the borough and city.

"In 2023, about [percent] of residents in [area] lived near an ADA accessible subway station."

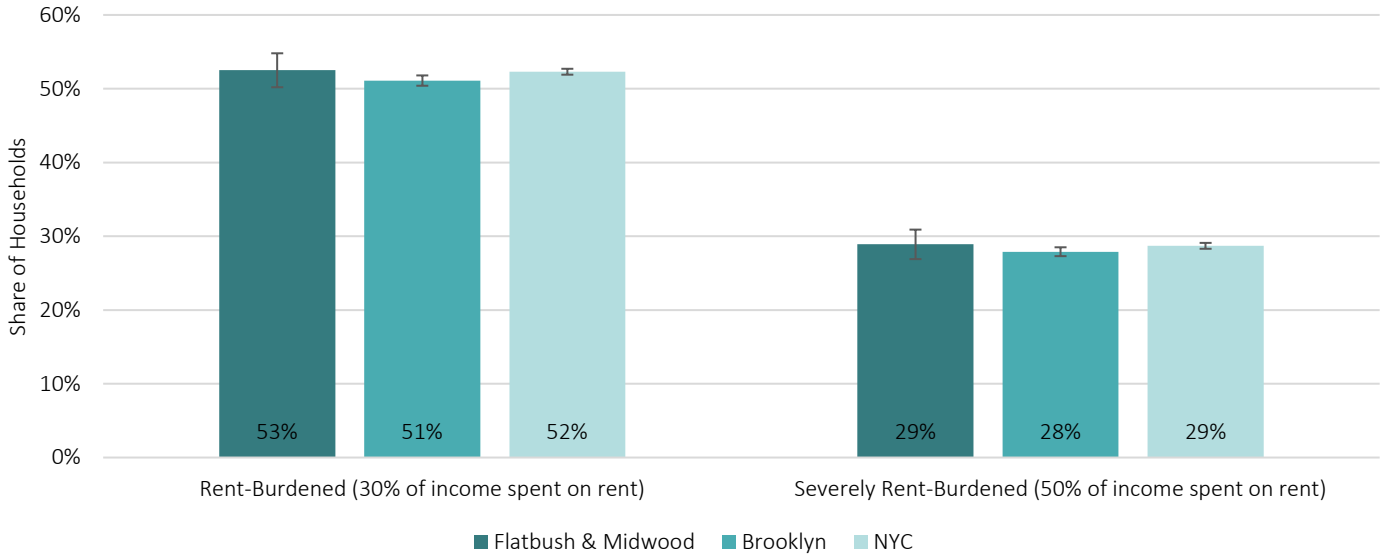

Source: Department of City Planning 2023; Community Profile Table 5.09

Housing Security, Affordability, and Quality

Figure 12: Rent-Burdened & Severely Rent-Burdened Households, 2019-2023 (Five-Year Estimate)

Shows the percent of households who spent 30% or more of their income on rent (rent-burdened) and the percent who spent 50% or more of their income on rent (severely rent-burdened). Compares the local area to the borough and city.

"In 2019-2023, an estimated [percent] of households in [area] were severely rent-burdened."

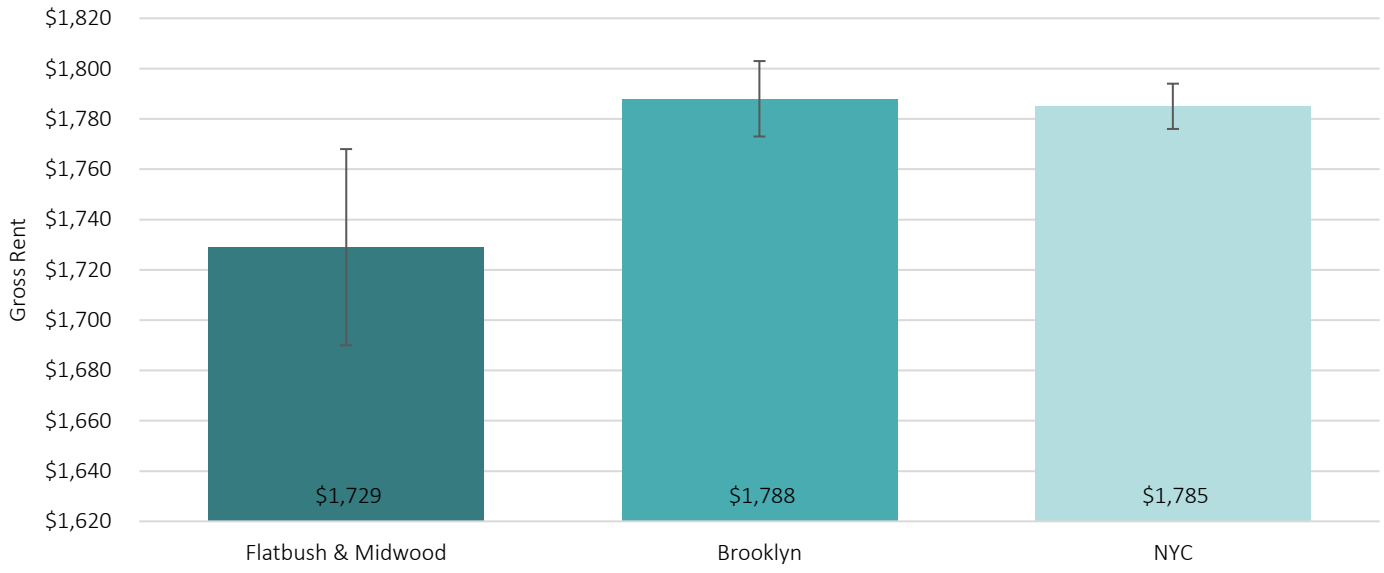

Source: American Community Survey 2019-2023; Community Profile Table 3.04

Figure 13: Median Gross Rent, 2019-2023 (Five-Year Estimate)

Shows the median rent for occupied units paying rent. Median means half of all units have rental costs higher than this amount and half have rents lower than this amount. Compares the local area to the borough and city.

"In 2019-2023, the estimated median price of rental units in [area] was [$]."

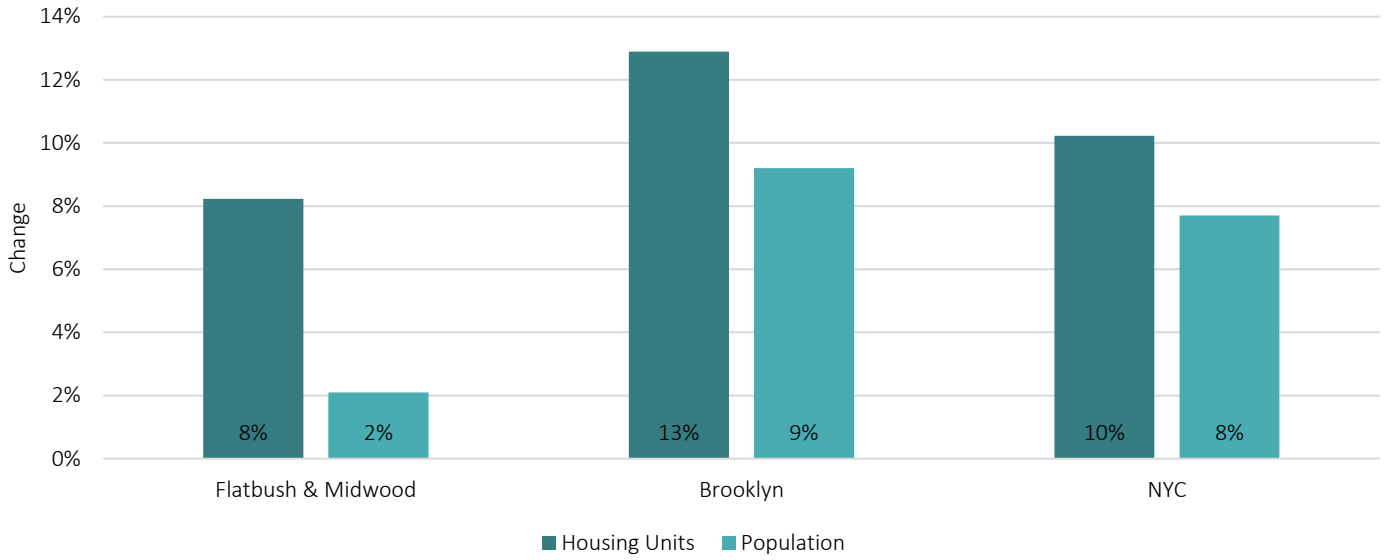

Source: American Community Survey 2019-2023; Community Profile Table 3.03

Housing Production

Figure 14: Percent Change in Housing Supply and Population, 2010 to 2024

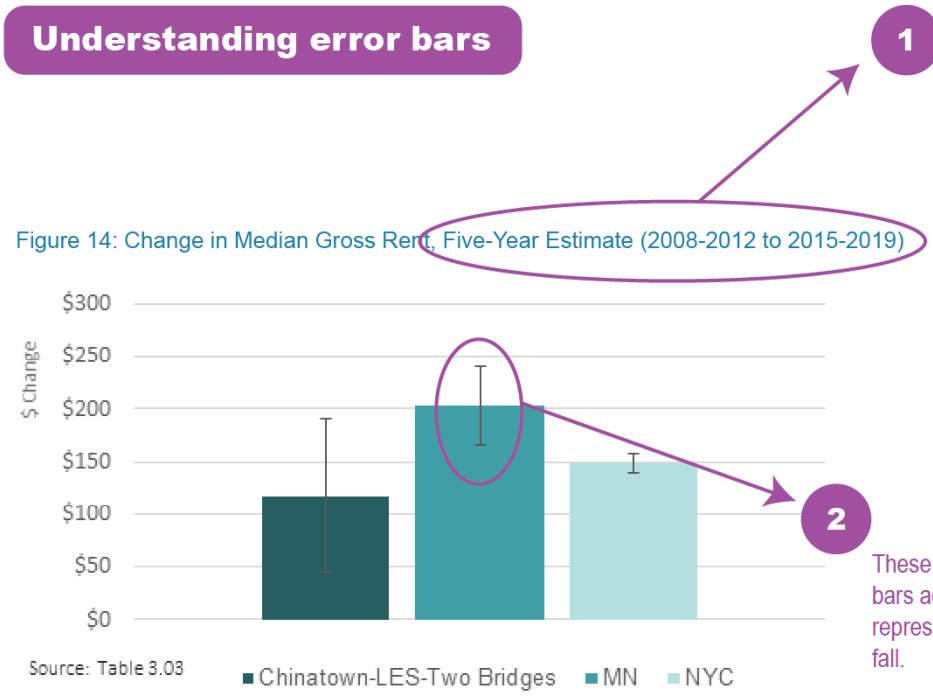

Shows the percent change in the number of housings units and population. Compares the local area to the borough and city.

"From 2010 to 2024, housing units in [area] increased/decreased by [percent] and population increased/decreased by [percent]."

Source: NYC Department of City Planning Housing Database 2024 Q4 and Census 2010, 2020; Community Profile Tables 4.01 and 1.01

Understanding error bars

Five-year estimates refer to data from the American Community Survey (ACS). The ACS is a monthly survey sent to a sample of households throughout the country. To have a large enough sample to create estimates of characteristics for small areas, the ACS "rolls-up" the sample for five-year periods.

Because the ACS data are from a sample, the estimates comes with some uncertainty, which is shown in the chart as ***errror bars.***

These "I" figures are called ***error bars***. Error bars account for uncertainty in ***sample data*** by representing the range in which the data could fall.

In this example, the ***error bars*** tell us that the change in rent in Manhattan is somewhere between about $160 and $245.

Data drawn from a larger sample are more accurate and have a smaller ***error bar***, which is why the size of the ***error bar*** gets smaller as the geography increases in size.

Correct intrepretation of this chart:

"Rents in Chinatown increased between about $50 and $190."

Based on the ***error bar*** for Chinatown, this is correct.

Incorrect intrepretation of this chart:

"Changes in rents in Manhattan were larger than those in Chinatown."

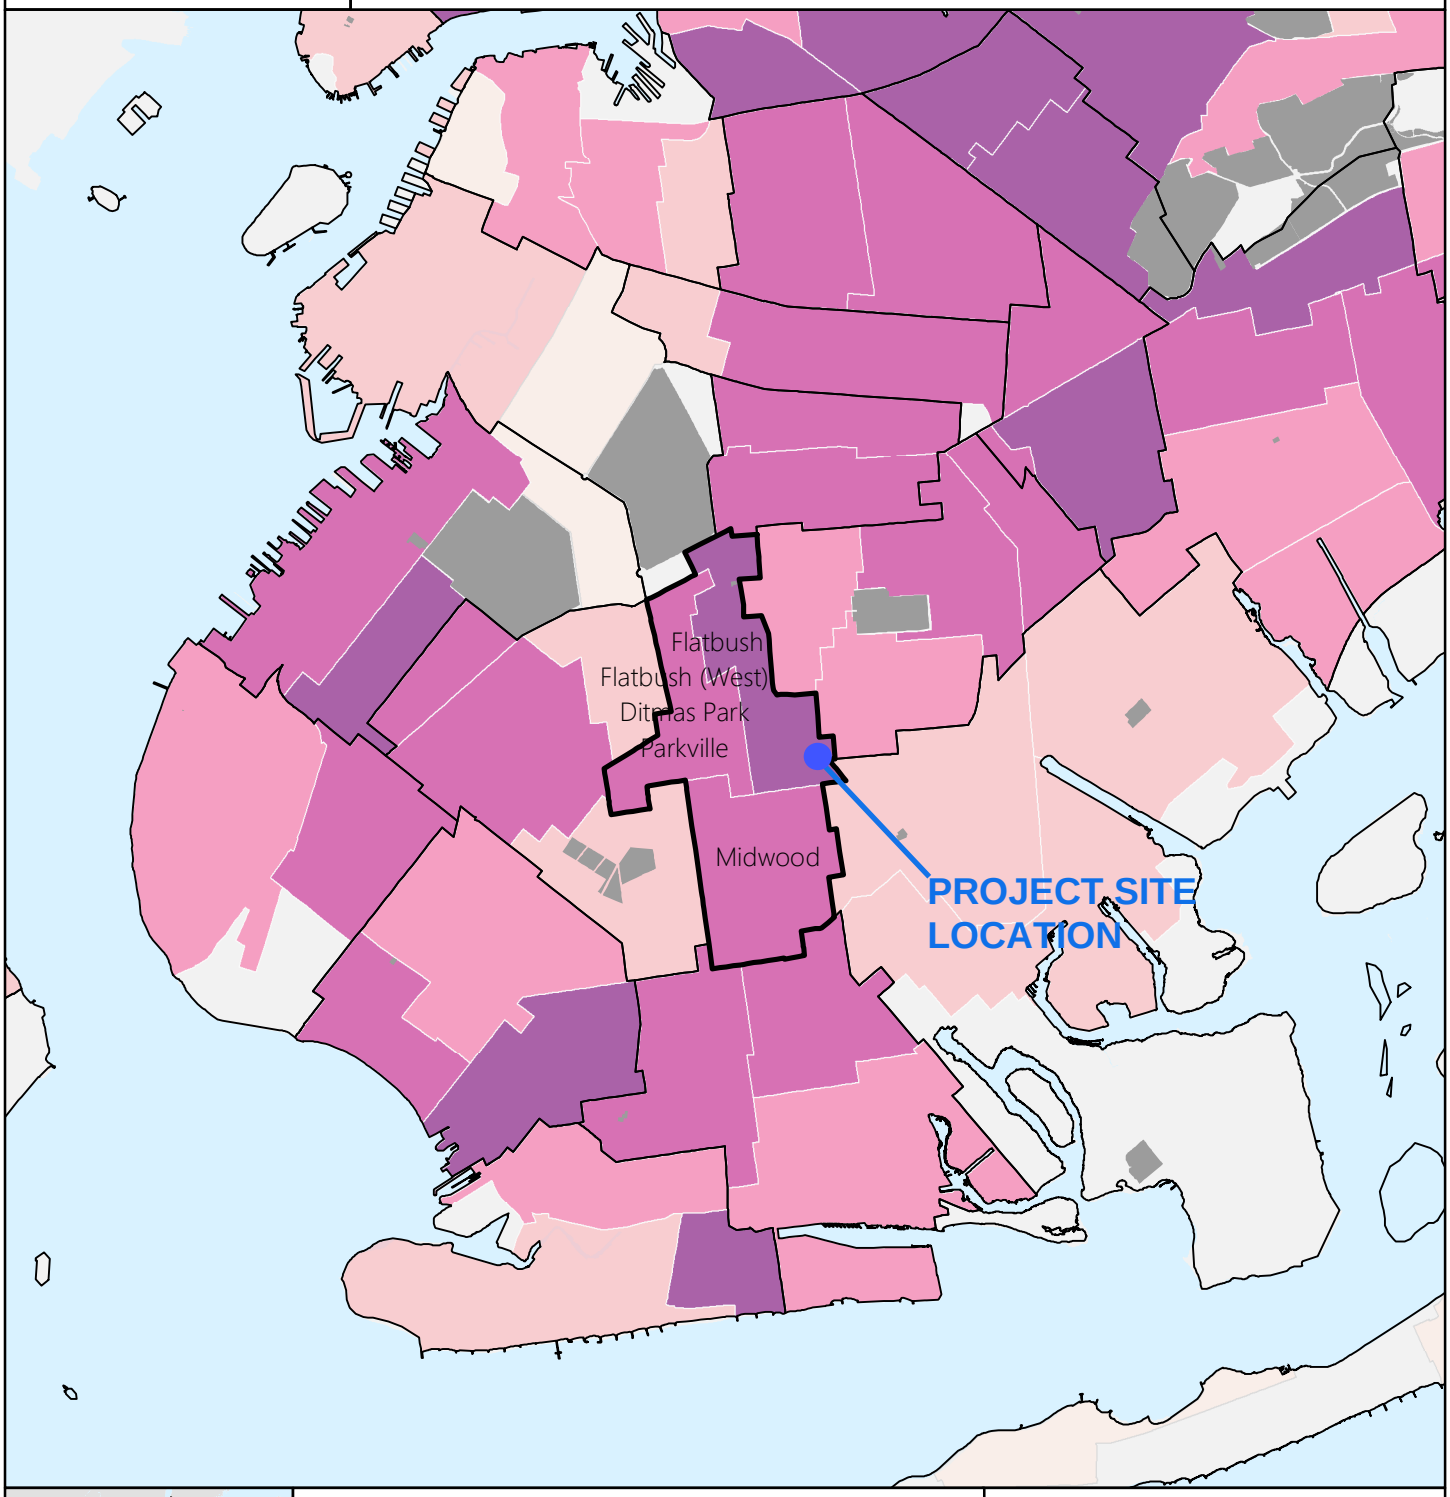

Because the ***error bars*** for Chinatown and Manhattan overlap, we cannot say for certain whether changes were higher or lower. In other words, the range of rent changes in Manhattan ($160-$245) overlap with the range in Chinatown ($45-$195).

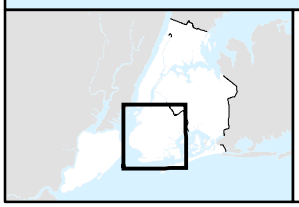

Flatbush & Midwood

PUMA 4314

The city's Displacement Risk Index (DRI) estimates comparative levels of residential displacement risk for New York City's neighborhoods. The DRI ranks neighborhoods from lowest to highest risk based on recent population characteristics, housing conditions, and market pressures.

There are five ranks with equal numbers of neighborhoods. For example, neighborhoods ranked "lowest" are among the 20% of NYC neighborhoods with the least intense displacement risk factors while neighborhoods ranked "highest" are among the 20% of neighborhoods with most intense displacement risk factors.

Displacement Risk

by Neighborhood Tabulation Area

Lowest | Lower | Intermediate | Higher | Highest

0 1 2

Miles

N

Section 4: Affirmatively furthering fair housing and promoting equitable access to opportunity

Provide a narrative statement describing how the project relates to New York City's goals and strategies to affirmatively further fair housing and promote equitable access to opportunity. These goals and strategies are described in the city's fair housing plan, Where We Live NYC.

Pursuant to the NYC Equitable Development Data Explorer (EDDE), the Flatbush Neighborhood Tabulation Area (NTA), in which the Project Site is located, received the "Highest" displacement risk rating, based on three (3) criteria (with their own defined set of metrics), including population vulnerability, housing conditions, and market conditions. The EDDE indicated the NTA indicated a "intermediate" population vulnerability, based on 85.3% of the population being non-white, 15% of the population with limited English-speaking proficiency, 32.7% of the population below 200% of the Federal poverty rate, and no statistical difference from NYC as a whole regarding households experiencing severe rent burden.

Housing conditions within the NTA were rated as "Highest," based on a greater share of housing with maintenance deficiencies compared to NYC as a whole, 97% of housing units not being income restricted, a greater share of occupied housing units that are rent stabilized compared to NYC as a whole, and 87.1% of housing units being renter occupied. Market pressure was rated as "Highest," with no statistical difference in rent changes compared to NYC as a whole, a residential property price appreciation score of 3.71 between 2000 and 2024, a larger percentage change in the share of population with a bachelor's degree compared to NYC as a whole, and not being located adjacent to neighborhoods with high market pressure scores.

Goal #2: Facilitate equitable housing development in New York City and the region

The median gross rent in the neighborhood increased by 16.4% from the 2008-2012 to the 2019-2023 ACS years. In terms of Gross Rent as a Percentage of Household Income (GRAPI), 52.5% of the community is rent burdened (household spends 30% of their income on rent) while 28.9% of the community is severely rent burdened (household spends 50% of their income on rent), pursuant to the 2019-2023 ACS. Asian households tend to be the most rent burdened (63.3%) and severely rent burdened (38.2%) while Black households are the least rent burdened (47.9%) and severely rent burdened (27.5%) compared to other racial groups. According to 2019-2023 ACS data, occupied housing units have remained overcrowded at a rate of 13.1%.[4] Hispanic populations had the highest rate of overcrowding (17.9%) between 2019 and 2023, while Black and White populations feature overcrowding rates of 11.7% and 6.6% (overcrowding data for Asian populations was not considered statistically reliable). While there are no New York City Housing Authority units in the neighborhood, 51.7% of rental units in Community District 14 are rent stabilized.

The Proposed Project facilitates New York City's equitable housing development goal by providing 112 dwelling units, including 29 units permanently affordable units under MIH Option 1 (25% of Residential Floor Area with 11 units at 40% AMI and 18 units at 60% AMI)

[4] An overcrowded unit is defined as more than 1 person per room per the NYC Equitable Development Data Explorer.

Goal #3: Preserve affordable housing and prevent displacement of long-standing residents

The Project Site is currently developed with a commercial office building occupied by a retail beauty supply store, a retail vitamin store and an optometrist's office such that the Proposed Project would not result in displacement of long-standing residents or the loss of any existing affordable housing. Further, the Proposed Project would provide income-restricted units subject to HPD Marketing Guidelines. As such, the Proposed Project would promote the goal of preserving affordable housing and preventing the displacement of long-standing residents.

Goal #5: Create more independent and integrated living options for people with disabilities

The Proposed Project would incorporate ADA compliant designs such as elevators with enough space for wheelchairs and ramps at the entryway of the building. As a result, the Proposed Project would promote the goal of creating more independent and integrated living options for people with disabilities.

Section 5: Community profile

The community profile provides data tables for all indicators from the Equitable Development Data Explorer (EDDE) for the relevant Community District[5]. Includes approximately 50 indicators across five categories:

- *demographic;*
- *household economic security;*
- *housing affordability, quality, and security;*
- *housing production; and*
- *quality of life and access to opportunity.*

Where possible, these indicators are broken down by mutually exclusive race/ethnicity and show change over time.

All community profiles can be downloaded from the Equitable Development Data Explorer.

[5] The EDDE reports data by Public Use Microdata Areas (PUMA), statistical areas defined by the U.S. Census. PUMAs in New York City generally approximate Community Districts. Displaying the data at the PUMA scale enables data reporting broken down by race and ethnicity.
