O	1134	28,78,81	2	28
P	1141	21,69	11	31

Note: [1] Attenuation values are shown for residential uses; commercial office uses would be 5 dBA less.

***The predicted Action L10 noise level for the Dean Playground was utilized to determine the CEQR noise attention requirement.**

****Ldn noise levels used at locations where train noise was the dominant source.**

*****For publicly owned sites, environmental restrictions will be established through alternative mechanisms, such as a Land Disposition Agreement (LDA)**
